Suicide of a Canadian.

A man named Gordon, living near Black River Detroit, and lately from Canada, where he has a large number of well-to-do relatives, committed suicide on Saturday. He was in comfortable circumstances, having a farm well stocked and plenty of money. He owned a fine span of horses, and purchased in their stead for farm work a yoke of oxen. This went against his wife's wishes so much that she gave him a scolding on Friday night, followed up by another on Saturday morning. He went about his work as usual, but on his not returning for some time, Mrs. Gordon sent their boy out for him. He came back with the information that his father was hung up in the barn with a rope. Help was immediately summoned and the man was cut down, but he was dead. An inquest was held, and the jury returned a verdict of death at his own hand while laboring under a tempory fit of insanity. The body was taken back to Canada for interment.

Acts of heartless cruelty do not appear to be confined exclusively to those whom we self complacently designate savages. Much is heard of the barbarism of the Indians in the West, but very little is ever told of the more inexcusable acts of barbarity often practised by the white settlers, both American and Mexican. Recently thirty mounted men left the city of Chihuahua, Mexico, to hunt Indians, being stimulated thereto by the reward of $200 per scalp offered by the Government. They killed and scalped eight Indians, whom they caught unarmed, and captured a number of squaws and ponies. When they returned home they were accorded a public welcome by the mayor, the church bells were set a ringing, and the crowd were wild in their welcome, and in the midst of the joyful procession that was formed the unhappy squaws were dragged, who were handed over to perpetual slavery, for no fault of theirs, but simply because of man's inhumanity to man.

It is said that Mr. Gibson, of Marysville, N B., the lumber King, will invest a million dollars in his new cotton factory. He is well able to do it and is not a man who fears to make such a speculation. Mr. Gibson is perhaps the richest man in Canada, and made his money himself. If we are rightly informed he was an employe in a saw mill, untill he was able to rent one, back in the woods somewhere. It is said that he carried his provisions on his back for many miles into the woods. But the lumber business paid, and Mr. Gibson is now able to build large mills, to get immense grants of lands from the New Brunswick Government, and to accumulate his millions. He deals largely in lumber and builds, buys and sells railways. That Mr. Gibson is not without a sense of humor is shown by his entering in the spirit of the bogus syndicate joke when the Canada Pacific Railwry contract was first made. Mr. Gibson will probably make money by his cotton factory—good cotton goods.

The condensed milk factory which has been in course of erection in Truro for the past month, is now complete, and the machinery and other furnishings have been put in, the work of manufacturing will shortly commence. The shareholders have been negotiating with a gentleman whom they are desirous of obtaining to manage the factory, and he is expected to arrive in Halifax in a few days. The company are sanguine of the sucess of their speculation and as this will be the only factory of the kind in the Dominion, there is but little doubt that the venture will prove remunerative. The first week in June has been decided upon as the best time to begin operations and if everything is in readiness, then the work will be proceeded with.

Queen Victoria's birthday, May 24, will be celebrated on that day throughout Great Britan, excepting in London, where it will be kept on May 26. This is an admirable arrangement, the London *Globe* thinks, inasmuch as it will enable loyal subjects to observe the day once in the country and a second time in London, while Mr. Labouchere, Mr. Bradlaugh, Mr. Parnell, and others, by spending the 24th in London, and the 26th in the country, can easily avoid the celebration altogether.

It is understood that the meeting of the American Baptist Missionary Union at Saratoga this month, several missionaries will prefer the charge that there is a discrepancy between the salaries paid them and the amount charged by the treasurer against the Union for these salaries. The total discrepancy from the year 1875 to 1879 inclusive is estimated at $53 000. It is stated that alleged speculation in stocks by one of the officers of the society will be urged upon the attention of the Union.

London *Truth* is responsible for a discovery that will disturb the biblical world. The word "rib," in the second chapter of Genesis, used in describing the creation of Eve, ought more correctly to be rendered "tail"! Again the "ravens" which fed Elijah were not ravens at all, but "gypsies," and so another cherishing illusion is dispelled, and the historic value of Sir Frederick Leighton's picture of "Elijah and the Ravens," is seriously impaired.

GAS COOKING STOVES.

WE have made arrangements with the best makers of Gas Stoves in the United States, which we will be able to supply the public, at the lowest possible price.

We have also agreed with the Gas Company (for the purpose of introducing these stoves), to sell the first fifteen (15) for which we may receive orders,

At their Net Cost,

LANDED HERE.

TESTIMONIALS.

The following are a few testimonials from a list of several hundred:—

The capacity of the Stove is surprising. With a No. 8 Stove we cooked for a party of seven, giving them broiled oysters, steak, lamb chops, and baked biscuit, in 45 minutes, at a cost for gas of 4½ cents. On another occasion we gave a dinner in courses of twenty men, the bill of fare as follows: Broiled shad, beef steak, roast quarter of lamb, baked biscuit and coffee; heating the water for washing the dishes four times, re-setting the table three times. All was accomplished in one hour and forty minutes, at an expense for gas of eleven cents. This work was all done on one No. 8 stove. All were enthusiastic over the manner in which the oysters, fish and meats were cooked; none had experienced any so tender, juicy, and of such full flavor before. We consider the stove a great success, and most complete in all its parts and arrangements.

A. C. WOOD, Supt.

I bought one of your No. 12 Gas Cooking Stoves last September, for use in my restaurant, and have used it ever since for baking, broiling and stewing.

I can say for it that it is always ready and does its work rapidly; that there is no dust, no dirt, no surplus heat, as we are using only that portion that we need, and as soon as the article is cooked the gas is extinguished and there is no waste. I think it will do the same amount of work at less cost than coal, even at the high price of gas. It takes much less room than a coal range that would do the same work. I am perfectly satisfied with it and would not be without one for double the price.

J. T. HARKER.

The Gas Stove you sent me, I am glad to say has proved an entire success.

If my testimony is of any value to you, you are at liberty to use it. The decrease in the coal bill more than offsets the increase in the gas ditto. The cooking is excellent and uniform in its operation.

No dirt or dust irritates the careful housewife, and Mrs. S. describes it as a "real treasure."

In my humble opinion, any man who really wants to add to the number of allotted days of his better-half, had better invest in a Gas Stove and save her worry, and himself expense.

W. H. SEYMOUR.

We are perfectly delighted with our Gas Stove. It gives entire satisfaction in every respect.

MRS. M. PENNINGTON, 2103 Vine St.

Your favor of the 1st inst. was duly received asking my opinion of the Gas Cooking Stove bought last May, and in reply, would state that the satisfaction rendered by the stove was far beyond my expectations, and the work it will accomplish is marvelous, together with the small expense and comfort attending the same.

EDWIN A. GARETT.

Having used one of your No. 7 Gas Cooking Stoves for a considerable time past, it is with pleasure that I bear testimony to its genuine merits.

It boils, bakes, broils, roasts, and in fact, does everything that a first class stove or range can do, and with a saving of time and labor, that can only be appreciated by those who use them.

It has given us the most entire satisfaction, and to use my wife's words, "I would not be without it for ten times the cost."

From statements of our gas meter taken, we find it *more economical* than coal.
