PLANTS AND THEIR USES should be a subject likely to attract all lovers of flowers. The Natural History Society hopes to see a large audience of ladies and gentlemen in the Y. M. C. A. Parlor on next Thursday evening, when Rev. Wm. Hamlyn will read his paper upon the above subject.

CHIEF LOUIS.—The last number of the Dominion Illustrated contains a good likeness of the venerable Chief of the Micmac Indians of this Island. It says of him "His country is the Indian reserve of Lennox Island, 140 chains square, and his subjects 281 Braves, squaws, and little Indians, all told." For sale at the Diamond Bookstore.

ATTENTION.—The city authorities should have had a small army of men out the past two days opening up the drains. However, as it's never too late to do good, they should see that this very necessary work be performed at once. And the operations should not be confined to one or two of the principal streets either.

IN AID OF THE POOR.—The net proceeds of the Oddfellows concert in aid of the poor amounted to \$72.10. This amount they have distributed amongst the poor of the city, assisting forty families. The money was distributed as follows: For rent, \$7; wood, \$9; coal, \$2.10; groceries, \$54.10. The Oddfellows are deserving of the highest commendation for their good work.

INFORMATION WANTED.—A farmer read in an agricultural journal: "A side window in a stable makes a horse's eyes weak on that side; a window in front hurts his eyes by the glare; a window behind makes him squint-eyed; a window on a diagonal line makes him shy when he travels, and a stable without windows makes him blind." The farmer has written to the editor of the agricultural paper asking what effect a window without a stable would have on his horse's eyes.

AN OUTRAGE.—A shabby looking tramp was in the habit of calling at the office of a lawyer and receiving a small sum on account of former acquaintance. Last week the solicitor called as usual, but the lawyer said: "I can't assist you any longer, I've got a wife now and need all the money I can lay my hands on." We'll, now, that's just coming a little too strong. Here you actually go and get married at my expense," responded the indignant tramp.

THE 1, 2, 3, 4, 5.—The Canadian Fireside Weekly is out with another grand prize competition to increase its circulation, in which 500 valuable prizes are offered. This is no puzzle or trick, and requires no searching in dictionaries or books of any kind. It is ingenious, but simple, and has never before been offered by any paper. A child of eight can win as easily as a college professor. Among the prizes are bicycles, tricycles, \$100 cash, furniture, silverware, jewelry, summer trips—prizes for men, women, boys and girls, 300 in all. Send at once 5c for sample copy, with full particulars and list of prizes, to 59 Adelaide street west, Toronto, Ont. Mention this paper. eod wly 3m

Why Well-fed Stock Eat Straw. Surprise is often expressed at the fact that the feeding of the highly concentrated and nitrogenous foods results with cows, horses and sheep in a great deal more grain straw being eaten. Animals are wisest in this respect than men or women, who will continue to eat concentrated foods without desire for change until digestion is destroyed. When oil meal is given to stock instead of teaching them to divide it and make it more digestible by eating a large amount of straw. This straw which is itself not nutritious (enough to keep any animal in good condition becomes the necessary adjunct to the highest feeding.

The inhabitants of Newcastle Emlyn, Carmarthenshire, have addressed a communication to the Great Western Railway Company praying for the name of the station to be called simply Emlyn, omitting Newcastle. The railway directors recommend the bewildered residents of Welsh Newcastle Emlyn to write the Postmaster-General.
