

Medicinal Qualities of Buttermilk.

For a summer beverage there can be nothing more healthy and strengthening than buttermilk. It is excellent for weak or delicate stomachs, and far better as a dinner drink than tea, coffee, or water, and unlike them, does not retard, but rather aids digestion. A great physician once said that if every one knew the value of buttermilk as a drink, it would be more freely partaken of by persons who drink so excessively of other beverages; and further compared its effects upon the system to the cleaning out of a cook stove that has been clogged up with ashes that have sifted through, filling every crevice and crack, saying that the human system is like the stove, and collects and gathers refuse matter that can in no way be exterminated from the system so effectually as by drinking buttermilk. It is also a remedy for indigestion, soothes and quiets the nerves, and is very somnolent to those who are troubled with sleeplessness. There is something strange in the fact that persons who are fond of buttermilk never tire of singing its praises, while those who are not fond of it never weary of wondering how some people can drink it. So far as possible, people should overcome their aversion to it, and learn to drink it for health's sake. One man of our acquaintance is so extremely fond of it that we knew him once to drink about three glasses, then set his glass down with a thud, exclaiming, earnestly, "That's food and riment both; while another buttermilk enthusiastic made the statement that where the liver has become torpid from inactivity and is too dead to perform its functions, buttermilk will cause a new one to grow in. Whatever exaggerated statements may have been made concerning buttermilk, its medicinal qualities cannot be overrated, and it should be more freely used by all who can get it. Every one who values good health should drink buttermilk every day in warm weather, and let tea, coffee, and water alone. For the benefit of those who are not already aware of it, I may add, that in churning of its first process of digestion is gone through, making it one of the easiest and quickest of all things to digest. It makes gastric juice, and contains properties that readily assimilate with it, with very little wear upon the digestive organs.

They were horse fanciers and were speeding a team out on the road to Grosse Point, and after a long discussion of their favorites, one of them leaned back in the buggy, let the lines drop loose, and said:

"You ought to have seen Suke. Ah! she were a critter to be proud of. She was a whole team, and a boy to drive, I kin tell you."

"Broke to harness? asked his friend. "Well, now, you bet she was! though once in a while she'd take the bites in her mouth and go it alone, but she was high-flyer, she was! I ain't got over her loss yet."

"Wuth much?" asked the other man. "Wuth her weight in gold to me, I declare! I never come so near cryin' as I did when I lost that critter; she was a worker too."

"Kinder gentle, I suppose?" suggested the other.

"Oh, she'd occasionally kick over the traces," as remembrances of some lively scrimmages presented themselves. "I allus kept the whip hand of her; the best of uv'em kick sometimes."

"Ever trot her?" asked his friend. "Trot her? What do you men? Lord, man, I am talkin' about my late wife—did ye s'pose I meant a hoss?" he asked indignantly.

They finished their drive in silence.

Household Hints.

Meats for making soup must always be put in cold water, so that as the water gets heated the goodness comes out of the meat into the water, and makes good.

BOILING HAM.—In boiling a ham, if the ham is not required hot, let it get cold in the liquor in which it has been boiled. If you place a boiled ham on a dish to get cold you will see a quantity of jelly run out of it, and has got cold on the dish. If you let the ham get cold in its liquor, this jelly will settle in the ham, which will consequently be juicy instead of dry, as is too often the case with cold ham. Let the vessel in which it gets cold be uncovered, and it is as well to take off the scum when it is hot.

MORTGAGE SALE.

TO be sold by PUBLIC AUCTION, at the Court House, in Charlottetown, on TUESDAY, the tenth day of January next, 1882, at the Court House, in Charlottetown, at the hour of twelve o'clock, noon,—

ALL that tract, piece and parcel of land, hereditaments and premises situate, lying and being on Lot or Township Number Fifty-four in King's County, in Prince Edward Island, bounded as follows, that is to say, commencing at a stake in the south side of a road leading from Cardigan Ferry, at the front of five and one-half chains and extending north by parallel lines, so as to contain fifty acres of land, a little more or less, together with all rights, members and appurtenances thereto belonging. The above is made under a Power of Sale contained in a Mortgage dated the sixteenth day of September, 1879, made between Patrick Flynn and Mary Ellen his wife of the one part, and Edward Jarvis Hodgson and Neil McLeod, of the other part. For further particulars apply at the office of Hodgson & McLeod, Solicitors, Charlottetown. Dated this twenty-second day of December, A. D. 1881. EDWARD J. HODGSON, NEIL McLEOD, Mortgagee (de 22 th m till sale)
