The general committee of the Liberal-Conservative Party, will meet this (Wednesday) evening, at committee rooms, Queen Street, at eight o'clock. Important business.

Local and Other Items.

ONE case of drunkenness at the Stipendiary Magistrate's court this forenoon.

REMEMBER the public meeting of the Dairy-men's Association to-night in the Y. M. C. A. Hall. All are invited.

H. T. STEVENS, Esq. Mayor of Moncton and editor of the Times, is visiting the Island. He is staying at the Rankin.

PICTURE MAIDENS are accused of manufacturing oleomargarine. They put the tallow in the centre of the tub, with a coating of butter around it.

PROF. FRIEZE wishes to inform the members of the Ontario Class that the books have arrived, and can be procured at C. P. Fletcher's Music Store.

MR. WILLES, of the firm of Willis & Co., General Agents for the celebrated Wauzler Sewing Machines for this Province, is at the Osborne. See Card in another column.

THE Sports Tea Party took place to-day. A special train left the city this morning, with a large number of excursionists, but, owing to the disagreeable weather, we fear the Tea cannot be successful.

A MEETING will be held this evening at 9 o'clock, at the close of the prayer meeting, in the basement of Zion Church, to make arrangements concerning a Picnic in connection with Zion Church Sabbath School. All persons interested in the matter are requested to attend.

THE steamers Beaver and Kimouski now call regularly at Mabou, Cape Breton, to the great convenience of the people of Mabou, Broad Cove, Lake Anselme, and points North. The trade between that part of the County of Inverness and Pictou is likely to be largely increased by the coming of these steamers to Mabou.

THE prosecution of Mrs. McNally, who lives in the Royalty, for a breach of the Scott Act, might have been just, but was cruel under the circumstances. Mrs. McNally lived with two small, helpless children. She was prosecuted by the police, and Monday by two J. P.'s condemned to serve two months in Queen's County Jail. The house was closed and her children left on the street, where, we are informed, they spent Monday night. Would it not be well for Justices, in dealing with such cases, to enquire into the condition of such offenders, and to see that inoffensive children do not suffer for the sins of their parents.

THE steamer Worcester, Capt. Blankenship, arrived from Boston early this morning, with freight and the following passengers: Miss E. Sawyer, Annie Goffin, Mrs. Owen, Miss Hodgson, Mr. Barrow and wife, Lizzie Treman, John Campbell and wife, Mrs. J. York and children, Sophia McLeod, Anna Hudson, Annie J. McDonald, Annie B. McDonald, Annie McKee, Katie McKee, Mrs. H. Whaley, Miss Caroline Gillis, Mrs. Sunton, Annie Bulpitt, Miss Katie McKinnon, Catherine Healey, Isabella Kundall, Christie McQueen, Maggie Graham, Mary Graham, May L. Graham, Mr. N. Holland, James W. Kenland, John R. Kenland, Mrs. W. Sullivan, Miss Hannah Landrigan, Florence McAvoy, Mrs. J. Rebus, Miss Jewell, Mr. Angus Campbell, Sam Nicholson, Kenneth Campbell, Mr. Bulpitt.

THE Rev. L. N. Tucker of the Sabrevois Mission, Montreal, will preach in St. Paul's Church this evening at the usual hour. The object of the Sabrevois Mission is to offer the word of God and the principles of the Reformation to over one million of the French Roman Catholics of Canada, who form the bulk of the population of the Province of Quebec, and who are an important element already, and destined to be still more important in New Brunswick, Nova Scotia, Prince Edward Island, Ontario, and even Manitoba. This object is to be attained by means of native colporteurs, teachers, and missionaries. Churches have been established for the preaching of the Word in various parts of the Province, and Central Schools have been erected in Montreal, 1st, To train colporteurs, teachers and students for the ministry; 2nd, To give a liberal and Scriptural education to the children of converts; 3rd, To train teachers of French for English houses and English schools; and, 4th, To save the sons and daughters of Protestants from Convents and Jesuit schools. Owing to the power and intolerance of the Church of Rome in Quebec, French converts have to encounter the severest trials, and even English Protestants are unable to hold their own. This work, in consequence, appeals as a work of national importance to the liberality of all who prize the blessing of an open Bible and the Protestant faith. The Sabrevois Mission belongs to and is conducted by the Church of England in Canada.

THE GATHERING OF THE CLANS—The grounds selected by the Caledonia Club for their Annual Gathering are beautifully situated, and within city limits. The Grand Stand, capable of seating over 1,000 people, presents a fine appearance. A Band Stand, Dancing Booth, swings, &c., are also erected in suitable positions on the field. Members of the Club, accompanied by visiting Clansmen, will march from their Hall, Queen Street, at half-past 9 o'clock to-morrow (Thursday) morning to the grounds, headed by their Pipes and Galbraith's Band. Fellow Clansmen from California and other parts of the United States, as well as from the different Provinces of the Dominion, are expected at the Gathering. The cheap rates by Railway and steamers will doubtless induce large numbers from the different sections of our own Province to attend the national games of old Scotland. The fact that the Caledonia Club gives liberal donations in aid of the poor, and contribute to the funds of other institutions having for their object the relief of the poor, has secured for them the universal patronage of all classes of the community, regardless of country or creed. The main objects of this National Society are the encouragement and practice of the games and the preservation of the customs and manners of Scotland, and also the promotion of a taste among the descendants of Scotchmen for the language and literature of their forefathers.

A Panic—Cholera Spreading.

PARIS, July 29. The train from Nice yesterday was empty for the first time since the railway was opened. A panic exists at a village near Bezeze. The population, headed by the Mayor and members of the Council drove off and stoned fugitives from Marseilles. Advice from the frontier are very unfavorable. The cholera is spreading throughout France in an alarming manner.

METEOROLOGICAL OFFICE,

Charlottetown July 30 1884. Highest temperature yesterday, 72.2. Lowest temperature (read at midnight), 48.9. Lowest temperature this morning, 54.4. Temperature this morning, at 5 o'clock, 57.1. Temperature this afternoon at 1 o'clock, 57.1.

SERIOUS rioting is threatened on the surveyed line of the Pontiac & Pacific Junction Railroad, a few miles above Aylmer, across the Ottawa River. The farmers are dissatisfied with the valuation put upon the land expropriated for railway purposes, and resist by force the construction of the road. On the 25th inst. it was known that the construction was to be commenced, and a body of farmers assembled on Michael Foran's farm, armed with guns to drive the railroad navvies off both parties are determined to hold their own. Farmers are flocking in to aid their neighbors, and the railroad authorities have applied for military aid. This afternoon No. 5 Company of Ottawa, and Carleton Rifles stationed at Eardley, were ordered to the spot to prevent a riot; and the Princess Louise Dragoon Guards, of this city, are under arms waiting instructions to move. Last week there was a slight collision between the two bodies, but on the 25th inst., it took a serious form.

A MAN named Reid was killed on the Intercolonial Railway track near Weldford, on the 25th inst. The deceased had gone some 50 or 100 feet south of the Beck with crossing and was in the act of leaving the track on his way to his boarding house, when he was overtaken by Atkinson's special, going north. The driver, as he rang the bell at the crossing, saw a man between the rails immediately ahead of the engine and very close. The signal was given for brakes, but almost before the echo died away the engine struck him in the side as he was leaving the track, and buried him into the ditch about 15 or 20 feet away. In this position he was soon afterwards found with his face downwards, dead.

OPPOSITE Hillman's mill, Kettle Island, on the Ottawa, a few miles below the capital, two boys, named Dranliquette and Hogg, capsized into the water but succeeded in hanging on to the boat. Their cries reached the ears of Emily O'Neill, who lives on the Island. She jumped into a boat, rowed to the spot and rescued the boys in the nick of time. Within the past three or four years this young lady has saved ten lives and illustrations of her heroism have appeared in American papers. It is probable she will be given a Humane Society medal.

WE contracted to insert Mack's Magnetic Medicine because we were assured that the firm was composed of reliable and honest gentlemen, and also because the medicine was recommended as being all and more than the advertiser claimed. We are informed by druggists that it is the best selling article they have, and that it gives satisfaction to their customers. Sold in Charlottetown at Apothecaries Hall. POINT DU CHENE.—The St John Telegraph says that there has been less shipping than usual at Point du Chene this summer, owing to the depression in the lumber trade. Only about eight large vessels have loaded with lumber so far this year. The fall fleet will also be smaller than usual.

THIS season 10,000,000 feet of lumber will be shipped from Annapolis, N. S., chiefly to the West Indies and South America, of which 4,000,000 feet comes to Annapolis over the railway. Only an average of 4,000,000 were shipped during the years when lumbering paid best.

A Sympathetic Judge.

A justice of the peace at Fredericton, N. B. has just had a hugging and kissing case before him. The person charged with the offence was a country swain, who had been caught by the proprietor of his boarding house there in the act, having selected a quiet corner to that end, with a lady boarder. The proprietor, while allowing the stay of his guest, concluded to repudiate the express contract by which he agreed to board the swain at \$3 a week, and demanded \$5.25 per week. After hearing the case the justice solemnly delivered the following judgment: "As the young man, the defendant in the case, has testified that the young lady in question was not related to the plaintiff; was neither his sister, his cousin, nor his aunt, and inasmuch as there is sufficient evidence to prove conclusively that she was a good-looking girl and enjoyer, in the high degree, of the hugging and kissing complained of, the verdict of this court is that the young man shall only pay at the rate of three dollars a week as per contract."

MR. R. H. HOLBROOK, of Springfield Vt., writes: "I was born and brought up on a farm, but have been in the manufacturing business for 29 years. Now, if I were going to write on any one subject relating to farming the first subject and one I deem most important of all would be—teaching boys to love the farm—the way to teach them to be farmers and to like it."

To the Electors of Queen's County.

GENTLEMEN,—Mr. Brecken's acceptance of the office of Postmaster vacates his seat as representative of Queen's County. I take the earliest opportunity of offering myself as a candidate in the interest of the Liberal Conservative Party for your suffrages.

I must preface the brief address which, only on this occasion I deem it requisite to trouble you with by a few remarks on a subject that has been a good deal discussed since the election has been talked of. Certain parties have urged the necessity of calling a Convention, and assumed that I am opposed to such a step. This is not correct. I shall be ever ready to accept the decision of a Convention when the voice of the County demands one; but I wish it to be understood that while I am willing, unhesitatingly, to defer to the voice of the Electors, I distinctly decline to submit to the dictation of a self-appointed clique of wire-pullers, who imagine that they are the Liberal Conservative Party. The unanimous and hearty endorsement which my nomination received to-day at the large representative meeting of gentlemen from all parts of the County, including the delegates to the convention held at the last Election, is, I think, sufficient to justify the course I have pursued.

Having been so lately before you, my views on political subjects are known to you; suffice it to say, no change has taken place in my opinions since that time. The subject of reciprocity has, however, become prominent of late, and as it is a question of the deepest interest to our people, I cannot pass it over in silence. There are serious difficulties in the way of our obtaining this very desirable change in our trade regulations; we have to deal with a shrewd and clear-headed people, who are renowned for the astuteness for which they look after their own interests. When we had free trade they laughed at the delegation we sent to them with the view of obtaining a renewal of the treaty. "We have already all the trade you can give; where will be the advantage to us of opening our ports to you?" This was, in effect, the reply to the delegation.

Under the National Policy they are deprived of our trade, and begin to find that it is of some value to them, and now there is a feeling arising in the States for more unrestricted trade with the countries of North and South America. If indiscreet and babbling politicians would only have the wisdom to act upon the excellent adage, "Silence is golden," we should be more likely to succeed in securing an advantageous treaty.

The present Government fully appreciate the benefits which would accrue from a free interchange of natural products of the two countries, and will make every effort to bring about this desirable object, but the attempt must be made wisely and judiciously; blatantly proclaiming to all the world that reciprocity is a vital necessity to us, and that we cannot do without it, is not only untrue, but is likely to defeat our aim. You may rest assured that my best endeavors will be used to aid in bringing about this beneficial change, as I am fully aware of the special benefits it will bring to this Province.

That the policy of Sir John Macdonald's Government in opening up and settling the great territory of the North West, by means of the Canada Pacific Railway, is wise and statesmanlike, has been proved by its success, and the converting of an unknown wilderness into a fertile, food-producing country, shows far-sighted administrative ability, and demands the gratitude not only of Canada but of the world.

While heartily endorsing the policy of the Government in the North West, I consider our little Province has been somewhat overlooked. For this the Government is not wholly to blame; all governments are prone to defer action in any matter that is not persistently urged upon them. I think our people have been backward in asserting their claims, and I trust in future to find them making energetic and untiring efforts to secure their rights.

Should I have the honor of being elected to represent this intelligent and independent constituency, of which there is little doubt, my most earnest endeavors will be used to obtain for Prince Edward Island a full recognition of her just claims under Confederation. I have the honor to be, Gentlemen, With sincere respect, Yours truly, J. T. JENKINS. Charlottetown, July 28, 1884. jy29
