### SPECTACLES.

Over twenty-five years I have been in the Spectacle business and during that time have fitted hundreds and hundreds of persons. Some had put off getting glasses so long that they could not see a large 4 inch letter A without going within 2 or 3 feet of it, and might have gone blind if they had put off getting glasses much longer. Others have been fitted or rather misfitted, with wrong glasses by travellers, and charged a great deal more than they ought to have been. This year our traveller, Mr. C. H. White, intends calling on parties at their homes in the country, to test eyes and show samples of our goods. Should he call on you I bespeak for him your favorable consideration, and any order you may give him will be filled as soon as possible and guaranteed by me. Glasses can also be exchanged at the store, CAMERON BLOCK City, if after a trial they do not prove as satisfactory as you wish.

#### GOWN GOSSIP.

The new black cloth jackets are trimmed with white lace applique.

Grosgrain silk is revived again for dressy gowns worn by matronly women.

White kid embroidered with colored beads is used for revers, cuffs and belts on cloth gowns.

Louisine, a kind of poplinette, is among the new and popular materials, and it comes in very small checks of various colors.

The special feature of the summer shoulder cape is the short full effect which gives it the appearance of an extended neck ruff.

Wings and flowers in combination are a fashionable mixture in millinery, and white wings with yellow chiffon and white lilacs on a yellow straw hat are wonderfully pretty.

Tiny seashells are the latest decoration on some of the new galleons and embroideries with beads, silver and gold threads, and narrow ribbons so much employed in the season's trimmings.

A pretty chemisette vest for foulard and barege gowns is made of white mousseline de soie, striped across with little frills of narrow cream lace headed by one row of narrow black velvet ribbon.

Skirts flounced from the hem to the waist with ruffles shaped so that they require no gathers and edged with narrow cream lace are decidedly the latest fancy and are especially effective in glaze silk.

For evening dress young girls wear wreaths of flowers in their hair, which is arranged high on the head. Forget-me-nots are very pretty, and a narrow wreath of green leaves is often very becoming.

A stylish bicycling hat has a sailor brim of Panama straw and a Tam O'Shanter crown of accordion plaited canvas and is trimmed with a band of black velvet, a rosette of turquoise blue satin and two black quills.—New York Sun.

#### Keep the Little Ones Safe and Healthy.

Lactated Food a Preventative of Summer Complaints.

Infant mortality is always high in August. This is largely due to the character of nourishment that infant receives. The little ones who are deprived of mother's milk are mostly fed on cow's milk, too often diluted and sour.

To mothers who are anxious for the safety of their babes in hot weather we would confidently recommend Lactated Food, now so generally prescribed by physicians and so universally used by mothers all over Canada.

Lactated Food prevents cholera infantum, dysentery, diarrhoea and fevers; it promotes perfect digestion and healthy growth, and during the teething period it is the ideal food. Give Lactated Food a trial, dear mothers, if you would keep baby well and strong.

Your cough, like a dog's bark, is a sign that there is something foreign around which shouldn't be there. You can quiet the noise, but the danger may be there just the same. Scott's Emulsion of Cod-liver Oil is not a cough specific; it does not merely allay the symptoms but it does give such strength to the body that it is able to throw off the disease.

You know the old proverb of "the ounce of prevention?" Don't neglect your cough.

Your druggist keeps Scott's Emulsion of Cod-liver Oil. Put up in 50c. and \$1.00 sizes.

Aids digestion wonderfully
