NOT MORE THAN FIVE CENTS

ADVANCE PARTIES OF GUIDES ARRIVE

NEW BRUNSWICK GUIDES Lynn Baird of Perth, Jill Cotton of St. Andrews and Barbara Peacock of Moncton (left to right above) arrived in the Province last night. They are representing their Province at the Canadian Girl Guide Adventure Camp to be held at Brackley Beach. After spending the night in Charlottetown, they are going out to the camp site today with Guides from the other Atlantic Provinces, who form an advance party to set up camp for the arrival Friday night of more than 80 Guides and Guiders from the rest of Canada, the United States and the United Kingdom.

THESE NOVA SCOTIA GUIDES who came to P.E.I. yesterday by bus, are working hard today at Brackley Beach, along with the rest of the Girl Guide Adventure Camp Advance Party composed of Atlantic Provinces Guides. They are setting up camp for the rest of the Atlantic Adventurers who will arrive Friday evening, having travelled by colonist car across Canada. Left to right are Mavis Adams, Tufts Cove, Seana Handrahan, Arm-

THE GIRL GUIDE Adventure Camp site at Brackley Beach is a hive of activity today, as the advance party erects tents for over 100 campers. Assisting with the Guides and their leader, shown above, who arrived yesterday from Newfoundland. Left to right, they are Ruth Squires of Cornerbrook, Nancy Blair, Sheila Moss, Joan Whelan, Gaye Cramm and Miss Isabel Templeton, all of St. John's. Miss Templeton will be Commandant of Group Camp Three. Ruth Squires, who

Ship Goes Aground In Gulf

HALIFAX (CP) — A Liberian-registered ship, the Cosmic, was reported aground in the Gulf of St. Lawrence, 200 miles northeast of here Wednesday night.

It could not be learned immediately whether there were passengers aboard the vessel or whether she was a heavy freighter or tanker. A spokesman at RCAF search and rescue headquarters here said "the crew is reported on board the vessel." There was no mention of passengers.

The grounding reportedly occurred about 15 miles northeast of the Magdalen Islands. Her destination and point of origin of her voyage were not known here.

The Lloyd's registry lists only one Cosmic, a 23,500-ton vessel operated by the Home Shipping Company under Liberian registry. She is 744 feet long and was built in Kobe, Japan two years ago.

An RCAF spokesman said extent of damage to the vessel was not known immediately.

Two ships were reported in her vicinity and standing by if needed. They were identified as the Gypsum King, a Panamanian freighter and the Rioacrao.

In Quebec City, a spokesman for the transport department's signal service said the vessel was bound for Philadelphia with iron ore from Sept-Isles, Que.

The ship had run aground about 6 p.m. AST on an island in the Magdalen group called Bird Rock. There were no passengers aboard.

The spokesman said he had no further information.

\$969,830 CONTRACT AWARDED

S'ide Firm Will Build Ch'town Airport Runway

Scientists At Geneva Adjourn Until Friday

GENEVA (Reuters) — Scientists from the Western and Communist worlds Wednesday spent three hours "sparring for position" and then adjourned the conference on nuclear test detection until Friday.

The boxing term came from Canadian delegate Dr. O. M. Solandt. He said: "We have been getting down to discussing an agenda, but we are still sparring for position."

Chief Soviet delegate Prof. A. K. Fyodorov opened the second session of the East-West conference. He will alternate in the chair with Dr. James Fisk, a scientific adviser to President Eisenhower.

A total of 16 delegates from eight nations are attending the conference — seven from the United States, Britain, France and Canada, and nine from the Soviet Union, Czechoslovakia, Poland and Rome.

A conference spokesman said the talks were of a highly technical nature.

HALIFAX MAN DROWNED

HALIFAX (CP) — Roderick MacDonald of Halifax, father of six children, drowned Wednesday in nearby Sandy Lake. Mr. MacDonald was swimming in about 10 feet of water.

Floods Drive Thousands From Homes In England

LONDON (Reuters) — Floodwaters swept through south and central England Wednesday, cutting roads and rail lines and forcing evacuation of thousands of homes.

Torrential rains caused the flooding, described in some places as the most serious in 75 years.

Sheffield, one of the worst-hit cities, was dark at noon Wednesday as black clouds and heavy rain forced citizens to keep their lights on. Overnight the River Sheaf became a raging torrent at Sheffield and rose eight feet above normal.

Water poured into houses and walls cracked under the pressure. Trees were uprooted. Water and debris over railway tracks cut rail contact with the south.

The city's rainfall was 1.87 inches in 24 hours—two-thirds of the normal July total.

WATER KNEE DEEP

A 30-minute rainstorm in southeast London Wednesday sent knee-deep floodwaters over roads and streets.

In the small town of Market Harborough, northwest of London, the River Welland broke its banks, smashed store windows and forced families into upstairs rooms. Floods there were said to be the worst in 50 years.

A score of towns and villages in north and east Hertfordshire, immediately north of London, also were hit by floods.

Says Teamsters Will Have Grip On Seaway

TORONTO (CP) — The Telegram says a giant labor alliance to be launched next week in Montreal will give James R. Hoffa's teamsters union "an iron grip on the St. Lawrence Seaway."

It says the teamsters, the International Longshoremen's Association and two sailors' unions will sign a pact to launch an organizing drive along the docks on both sides of the Great Lakes.

"The alliance is part of teamster President Hoffa's master plan for a giant transport confederation that would give labor control over all docks from Galveston, Tex., to Halifax and from San Diego to Prince Rupert, B.C."

The newspaper says the International Brotherhood of Longshoremen, organized by the AFL-CIO after the IILA was ousted, will have little hope of retaining its membership, chiefly in United States Great Lakes ports.

Parties to the organizing pact, the Telegram says, will include the National Maritime Union, which would face expulsion from the AFL-CIO for dealing with the ousted teamsters in the U.S. but which can sign in Canada because both the teamsters and the IILA are members of the Canadian Labor Congress.

"Also included in the master plan . . . are the Seafarers' International Union, led in Canada by Hal Banks, and officials of the AFL-CIO Maritime Trades Department," the story says.

It says the alliance would force ships to moor at union docks and freight would be loaded only on teamster trucks.

Work To Be Started Immediately

OTTAWA (Special) — A contract for \$969,830 for construction of a new runway at the Charlottetown Airport has been awarded to Morrison and MacRae Limited, of Summerside, it was announced here Wednesday.

In a joint statement, Fisheries Minister J. Angus MacLean and Heath MacQuarrie, the two Conservative M.P.s for Queens, said the runway would be 7,000 feet long and 200 feet wide. Work would start immediately and the completion date is Oct. 30, 1959.

The project will be under the supervision of the regional construction engineer of the Transport Department in Moncton.

Tenders for the project were called May 20 and closed June 6. The contract was signed on June 30 in the office of Transport Minister George Hees. Attending the signing were Mr. Hees, Mr. MacLean, Mr. MacQuarrie and David Morrison, of Summerside, on behalf of Morrison and MacRae Limited, the successful contractor.

Besides construction of the runway, additional work is to be undertaken to improve the Charlottetown airport. Estimates for 1958-59 provide for expenditures for the replacement of approach lighting at a cost of \$50,000; renovation of field lighting, \$30,000; repairs to the water supply, 10,000; and installation of additional lower-intensity lighting, \$7,500.

P.E.I. Hens Top Canada

OTTAWA (Special) — Hens on Prince Edward Island have led those in the other provinces in average egg production during May, the Dominion Bureau of Statistics reported Tuesday.

Island hens laid an average of 1,838 eggs per 100 layers. New Brunswick hens were second with 1,867 eggs per 100 layers and British Columbia hens third with 1,823. In May, 1957, P.E.I. hens produced an average of only 1,788 eggs per 100 layers, placing fourth behind Nova Scotia, New Brunswick and British Columbia.

Parliament At A Glance

By THE CANADIAN PRESS
Wednesday, July 2, 1958
The Commons voted 161 to 47 against a Liberal motion of no-confidence in government budget policies.

Finance Minister Fleming said his budget was prepared with confidence in Canada's future, and he denied the Liberal claim it tends toward tariff protectionism.

Lionel Chevrier (L—Montreal Laurier) said the government has done nothing about pre-election promises of action on federal-provincial fiscal relations.

Labor Minister Starr said he is asking disputants in the West Coast seamen's strike to resume steamship service accompanied by arbitration.

Prime Minister Diefenbaker outlined federal proposals for sharing with Saskatchewan the cost of the dam for the South Saskatchewan River power and irrigation project.

Senator Leon M. Gouin (L—Quebec) said lack of publicity is the reason for severe criticisms of the Senate's effectiveness.

The Commons meets at 2:30 p.m. EDT to conclude the budget debate. The Senate sits at 3 p.m.

FIRE ON ISRAELIS

TEL AVIV, Israel (Reuters)—Syrians opened fire with mortars and machine guns Wednesday on Israeli laborers working on land reclamation on the eastern bank of Lake Huleh, an Israeli army spokesman announced. The spokesman said the firing lasted about an hour but caused no casualties.

Quebec Gov't Retains Seat In Yesterday's Byelection

MATANE, Que. (CP)—Benoit Gaboury, 41-year-old mayor of Mont-Joli, was elected Union Nationale member of the Legislative Assembly for the Gaspé Peninsula riding of Matane Wednesday in a Quebec byelection called to fill the only vacancy in the 93-seat chamber.

Mr. Gaboury, retaining the seat for Premier Duplessis' Union Nationale government, won by a wide margin over his only opponent, an independent.

There was no Liberal nomination.

Standing in the Assembly now is: Union Nationale 73; Liberals 17; independent, three.

The polls closed at 6:30 p.m. AST and indications were that balloting was not as heavy as it was in 1956 when the last provincial election was held.

Weather was sunny, with cloudy periods. Voting was carried out in a quiet and peaceful manner following a one-sided campaign by the Union Nationale candidate, Benoit Gaboury, 41-year-old mayor of Mont-Joli. There was no Quebec Liberal party candidate nominated.

The only other candidate in the election was Claude Belanger, 38-year-old salesman, from Montreal, who did not campaign after he filed nomination papers minutes before nominations closed June 18. Two days later Premier Duplessis said he believed some of the names on his papers were forged and that a suit would be taken against the independent candidate.

The byelection was called to fill a single vacancy in the 93-seat Legislative Assembly created by the resignation of former finance minister Onesime Gagnon who was later appointed lieutenant-governor of Quebec. Mr. Gagnon had represented the riding in the assembly for more than 20 years.

Tiny Boy Spends Night In Woods

MONCTON (CP) — A two-year-old boy missing since 7 p.m. Tuesday in the nearby Wisner area was found in a wooded section shortly before noon Wednesday by the RCMP police dog Ranger and his handler, Cpl. Harold Bouchholder.

Edgar Boucher apparently suffered no ill effects apart from severe mosquito and black fly bites. The child had wandered about two miles.

Canada Will Not Follow Iceland

OTTAWA (CP)—The Canadian government apparently has no intention—immediately at least—of following Iceland's decision to extend offshore limits to 12 miles, it was indicated Wednesday.

Iceland officially made her decision known Monday. The extension of limits, banning foreign fishing boats a distance of 12 miles out rather than the present distance of four miles, goes into effect Sept. 1.

An external affairs official said Canada's view is that the unilateral Icelandic decision is "hypothetical" until it actually goes into effect.

Report Truce Is Negotiated In Tripoli Port

BEIRUT (Reuters) — Lebanese rebels and government forces in the Tripoli port area Wednesday negotiated a gentleman's agreement barring the exchange of heavy fire.

The rebel tribesmen negotiated the deal after putting out white truce flags and sending envoys behind the government lines. They argued the continued use of heavy fire threatened unnecessary civilian casualties and was inhumane.

Two hours later, the rebel delegation had agreed to stop using mortars and grenades and the army had promised it would stop firing artillery. Then the insurgents in this seven-week-long civil war were taken back to their own lines by an army escort and light firing resumed.

However, heavy fighting continued in the city of Tripoli itself.

De Gaulle Returns To Very Cool Reception In Algiers

ALGIERS (Reuters)—Premier de Gaulle returned Wednesday night to a distinctly cool reception after inspecting the Moroccan border.

Scattered boos greeted the general as his motorcade entered the centre of the capital after a drive from the airport.

De Gaulle, who arrived here Tuesday for a three-day tour, his second since assuming power June 1, Wednesday night was clearly headed towards a showdown with the right-wing Algerian public safety committee over "integration" of Algeria into France.

Said a committee member: "If the integration position is not clear within a month, we may start trouble."

FEAR EQUAL RIGHTS

Some European settlers fear de Gaulle means to give the Moslem population equal rights in the semi-autonomous Algeria.

There were shouts of "Guy Mollet to the Gallows" as the motorcade drove through Algiers—a reference to the former Socialist premier who was pelted with rotten tomatoes when he visited the capital early in 1956. Mollet is travelling with de Gaulle on this trip.

Toronto Blues Singer Weds Governor-General Of Ghana

TORONTO (CP)—The parents of a former Toronto blues singer were waiting here anxiously Wednesday for a telegram that would bring them news of their 25-year-old daughter's marriage to 51-year-old Lord Listowel, governor-general of Ghana.

Mr. and Mrs. Sam Wise were to have flown to Accra to see their blonde, blue-eyed Stephanie married to the once-divorced peer but moving into their new home prevented the trip.

Mr. Bessie Wise said: "A call came through from Ghana yesterday (Tuesday) immediately after the wedding, but the line was so bad we couldn't hear what Stephanie was saying."

After that, explained Mrs. Wise, Lord Listowel became a regular visitor to Paris where her daughter was appearing.

The family is planning to visit Ghana to see the couple. After that they hope Lord Listowel and his bride will visit them in Toronto.

PM TO OPEN CNE

TORONTO (CP)—Prime Minister Diefenbaker will open the Canadian National Exhibition Aug. 20, it was announced Tuesday.

PC's Flatten Motion By Liberals On The Budget

OTTAWA (CP) — A second want-of-confidence motion on the federal government's budget policies was flattened in the Commons late Wednesday by the overwhelming Progressive Conservative majority.

After seven days of debate, the House voted 161 to 47 against a Liberal non-confidence motion. On June 26, a vote of 146 to 43 defeated a CCF motion.

Liberals and the CCF joined against the government in the two votes hinged on policies set out in Finance Minister Fleming's budget of June 17.

The Liberal motion charged that the budget "failed" to cope satisfactorily with the recession despite a forecast record peace-time deficit of \$648,000,000, and that the government is moving towards greater trade restrictions.

SPRIT OF CONFIDENCE
Mr. Fleming, speaking just before the vote was taken, said the

budget was prepared in a spirit of confidence in Canada's future.

As to the allegation that the government was moving towards greater trade restrictions, he said the budget "does not move Canadian policy in the direction of protectionism."

Before Mr. Fleming spoke, Lionel Chevrier (L—Montreal Laurier) criticized the government on the claim it was not taking action on federal-provincial fiscal matters.

Before the March 31 election, he said, certain definite commitments were made by Progressive Conservatives—especially in Quebec—on fiscal relations. But so far there had been no indication of any legislation or of a federal-provincial conference.

He said this showed contradictions in the policies of the Conservative government.

NOTHING CONSTRUCTIVE
Mr. Fleming said the Liberals had put forward virtually nothing of a constructive nature in the debate on their non-confidence

motion.

Of the Liberals' concern for the provinces, Mr. Fleming said the Liberals "should remember how harshly they treated the provinces while they were in office."

Of the charge that the Conservatives had not coped with the recession, Mr. Fleming said the Liberals have been "glorifying in gloom."

If the Opposition continued trying to destroy confidence in Canada and succeeded, the deficit would be larger, Canada's credit would not be helped by irresponsible statements.

Mr. Chevrier said the prime minister had caused "a series of humiliations of his cabinet ministers."

CHANGED ATTITUDE
He said a "sudden change" in the attitude of Mr. Diefenbaker to allow a debate on the North American Air Defence agreement with the United States had "embarrassed" External Affairs Minister Smith and Defence Minister Pearkes.
