

HOW to get the most out of Your Pipe

Break it in gently... right from the start. Moisten the inside of the bowl before filling. Smoke the first two pipefuls slowly, allowing the pipe to cool before refilling. This helps to form the "cake" in the bowl.

... Load it with Old Virginia PIPE TOBACCO and Relax

There's nothing like cool smoking, slow burning "Old Virginia" to put you on good terms with yourself... top-flight smoke for men who know.

For Rolling Your Own... Try OLD VIRGINIA FINE CUT

Ch'town Garrison Rifle League

Amherst To Enter Central League

AMHERST, N.S., Nov. 5 — (CP) — A meeting of hockey fans here recently decided to enter a team in the Central Hockey League if it is formed. Ex-mayor N. S. Sanford was named president of the Amherst Ramblers Club. It is planned to engage Frank Porter to manage the team. To date \$1,000 has been subscribed by hockey fans to back the club.

Sport Briefs

NEW YORK, Nov. 3 — (AP) — Irish Bob Murphy, 173, San Diego, Calif., knocked out Dick Wagner, 166 1-2, Toppenish, Wash. in the first round of a scheduled 10-rounder at St. Nicholas Arena tonight. Dr. Alexander Schiff ruled Wagner unable to continue because of a lacerated mouth.

SHERBROOKE, Que., Nov. 3 — (CP) — Bobby Fillion, former winger of Montreal Canadiens of the National Hockey League, has gone to Sherbrooke Saints of the Quebec Senior Hockey League where he will join his brothers, Marcel and Denis.

Take Steps To Have Transport Plane Reserve

By H. L. Jones
Canadian Press Staff Writer

OTTAWA, Nov. 6 — (CP) — Steps are being taken by R. C. A. F. officials and civilian agencies to provide Canada with a reserve of transport aircraft which could be used for air lift work in an emergency.

A plan by which the Government may acquire transport-type planes and turn them over to civilian operators on a loan or lease basis has already been discussed by high Government officials it was learned today. The R. C. A. F. favors the idea.

Spokesmen for the Air Industries and Transport Association at its meeting just held at Montebello, Quebec, said the matter is a keen issue between civilian operators and the Defence Department.

Possibilities of the plan were not discussed formally at the convention but the scheme is due for discussion at the next meeting of the A. I. T. A.

However, the whole tenor of the Montebello convention stressed Canada's need for transport aircraft. This was pointed up by Transport Minister Chevrier, Air Vice-Marshal F. R. Miller, air member for air operations and training, R.C.A.F., and various delegates of civilian operators.

Mr. Chevrier told the delegates that if war came suddenly the Air Force would call in its reservists from civilian operations, would probably take over suitable surplus aircraft and would seek civilian air-line aid in any necessary air-lift operations.

Visitors Return To New Westminster, B. C.

Word has just been received of the safe arrival in New Westminster, B. C., on Oct. 15th, of Mrs. E. B. Drake and party who toured across the Dominion to Prince Edward Island during the past three months. Mrs. Drake, accompanied by her daughter, Mrs. J. F. Ironside, and two charming children, John and Margaret, left New Westminster, B. C., on July 17th, visiting in Spokane, Wash., Calgary, Winnipeg and reaching Owen Sound, Ont., on Aug. 3rd, where Mrs. Drake was in attendance as a representative from B. C., at a Woman's Conference of the Churches of Christ (Disciple) in Canada from the 3rd to the 8th inclusive.

Following the conference the party continued their journey eastward visiting in different cities on their way, including Saint John, arriving at New Glasgow, Prince Edward Island on Aug. 19th, where a most happy two weeks were spent. Mrs. Drake, formerly Ethel Binns, visited among friends far and near on the island. She, with her two sisters, Mrs. L. M. Binns, Saint John, N. B., and Mrs. E. N. Hill, New Glasgow, also visited the place of their birth at Beach Grove Inn, recalling many happy memories of the past.

Included in the party on the return trip on Sept. 4th were Mrs. Binns, Mrs. Hill and Mr. and Mrs. Stewart Binns, the latter having come over for the Labor Day holiday. After leaving Saint John on Sept. 6th, the Drake party visited in White Plains, N. S., and other American cities before reaching Calgary, Alta., on the 27th, at which place they were met by Mrs. Ironside's husband, Mr. J. F. Ironside and after spending a delightful ten days in that city they again set out for the West Coast arriving there well and happy, and Mrs. Drake, es-

Expect Climb In Canada's Domestic Use Of Wheat

OTTAWA, Nov. 6 — (CP) — Canada's domestic wheat requirements are expected to climb in the new crop year, but there still will be plenty left for export.

The Bureau of Statistics estimated today that in the 1950-51 crop year Canada will need about 155,000,000 bushels of wheat, an increase of some 23,000,000 over last year.

Mainly, the reason for the increase is not so much human demands, as animal. With the world market for beef and pork buoyant and with a greater supply of low-grade wheat available in Canada, livestock feeders are expected to use more wheat as feed than a year ago.

The higher domestic demand for wheat won't mean smaller amounts available for exports. With this year's crop placed at 465,300,000 bushels and a carry-over of some 113,200,000 available from last year's harvest, Canada will have a total supply of 578,500,000.

If realized, this would make for an increase of some 109,000,000 bushels from a year ago and the biggest supply since 1944. Based on the Bureau's estimated domestic needs, wheat available for export and carry-over into the 1951-52 crop year would total 423,500,000 bushels, a jump of some 85,600,000 from last year's 337,900,000.

Most of Canada's wheat is sold on foreign markets through the multi-national international wheat specially, feeling that it was good indeed to see and visit ones home town once more after an absence of thirty-nine years.

agreement. Canada has an agreement quota of 215,000,000 bushels in the 1950-51 year and likely will sell another 50,000,000 to countries not members of the agreement.

That would leave her with a carry-over of some 158,000,000 bushels, sharply above last year's 113,000,000.

Currently, she is selling her wheat to Britain and other member nations of the international agreement at the maximum price of \$1.80 per bushel in United States funds.

So far, exports of wheat and wheat flour since the new crop year began Aug. 1 are down from sales during the first two months of last year's crop year.

During August and September, shipments of wheat totalled 26,500,000 bushels, compared with 23,500,000 last year, while flour exports in terms of wheat dropped to 6,400,000 from 7,700,000.

Urges Farmers Take More Pride In Work

AMHERST, N. S., Nov. 6 — (CP) — Agriculture Minister A. C. Taylor of New Brunswick Saturday urged Maritime farmers to take more pride in their work and have more faith in the agriculture industry.

Mr. Taylor addressed a joint banquet of the Maritime branch of the Agriculture Institute of Canada and the Nova Scotia Agricultural College Alumni in connection with the Maritime Winter Fair.

In reference to his recent tour of Denmark, Sweden and Finland, he suggested that this country develop a system of co-operatives similar to those in European countries.

Mr. Taylor said: "I find Canadians are discouraged. We should take some of our farmers who are always crabbing to Finland to see
