CANADA
PROVINCE OF
PRINCE EDWARD ISLAND
IN THE PROBATE COURT

The 4th day of August A.D. 1955.

In Re Estate of LOUISA F. CLARKE late of Charlottetown in Queens County in the said Province, Widow, deceased, testate.

To the Sheriff of Queens County or any constable or literate person within said County

GREETING

Whereas upon reading the petition on file of William E. Bentley of Charlottetown aforesaid, Barrister, the Executor of the above named Estate, praying that a citation may be issued for the purpose hereinafter set forth: You are therefore hereby required to cite all persons interested in the said Estate to be and appear before the Judge present at a Probate Court to be held in the Court House in Charlottetown in Queens County in the said Province, on Monday the 13th day of September next coming, at the hour of ten o'clock, Standard Time, forenoon of the same day to shew cause if any they can why the Accounts of the said Estate should not be passed and the Estate closed as prayed for in said petition and on motion of William E. Bentley, Esquire, Proctor for said Petitioner.

AND IT IS HEREBY ORDERED that a true copy hereof be forthwith published in some newspaper published in Charlottetown aforesaid once in each week for at least four consecutive weeks from the date hereof and that a true copy hereof be forthwith posted in the following public places respectively, namely, in the hall of the Court House in Charlottetown aforesaid, at or near the Royal Bank of Canada in Charlottetown aforesaid and at or near the Bank of Nova Scotia in Charlottetown aforesaid, so that all persons interested in the said Estate as aforesaid may have due notice thereof.

WITNESS His Honour Harold Leonard Palmer, Judge of the said Probate Court at Charlottetown in Queen's County, the day and year first above written.

By the Court.

(L.S.)

(Sgd) Frances B. Viningcombe
Registrar.

New York Stocks

NEW YORK (AP) — The stock market advanced Friday in a rebound from Thursday's sharp decline, but it was a slow-motion affair.

Prices were mixed at the opening. Then aircrafts rallied enough to encourage a rise in the rest of the list.

Aircrafts later lost their power and closed mixed under the adverse effect of profit-taking.

Steels were higher along with the rubbers, utilities, coppers, most chemicals, the railroads, oils, airlines, movie issues, and the building materials.

Gains went to between 1 and 3 points. Losses seldom exceeded a point.

The Associated Press average of 60 stocks advanced 80 cents at 172.40.

Volume came to 1,690,000 shares, second lowest total this year.

Chrysler was at the top of the most active list off ¾ at 87¼ with 39,400 shares traded. The stock lost 2½ Thursday, and after the close directors declared the usual dividend and said nothing about splitting the stock as Wall street had hoped.

In a quiet Canadian section, International Nickel dropped ¼.

On the American stock exchange Royalite Oil fell ⅝ and Lake Shore and Giant Yellowknife both advanced ⅛.

Montreal Stocks

MONTREAL (CP) — Prices drifted into softer territory as industrial transactions slowed to a near standstill at the close of the stock market Friday.

Walker dropped 2¼ to 73 while Shawinigan at 72½, Bank of Commerce at 46, Canadian Cottons at 17 and Bank of Nova Scotia at 61½ each fell 2 points. Gatineau and Bank of Montreal each dipped 1½ to 31½ and 50½, respectively. Off 1¼ were Consolidated Smelters at 36½ and Asbestos at 43.

Dominion Magnesium and International Power each moved up 4 points to 26 and 188, respectively.

Banks, utilities and papers slumped and base metals moved irregularly lower. Steels and senior golds were mainly steady.

Mines fluctuated in a 20-cent range in relatively active dealings. There were no outstanding features.

The stock exchange's closing averages show banks off 0.85 at 51.75, utilities off 2.3 at 138.4, industrials off 2.0 at 289.8, combined off 2.0 at 239.4, papers off 15.57 at 1407.74 and golds off 0.04 at 82.00.

Toronto Stocks

TORONTO (CP)—Uraniums, recovering from a poor day Thursday moved slightly higher with a number of small gains on the stock exchange Friday.

Gains of pennies went to Bicroft, Faraday, Can-Met, Gulch, Lorado, Radiore, Rayrock and Nesbitt-Labine. Pronto and Algom went the other way, taking fractional losses.

Hudson Bay, with a gain of 1½, headed the better issues in base metals. Most other seniors dropped fractions. An active Manitouwadge

ESSAY PRIZE WINNER

While his father, Mr. Pius Callaghan looks on, Scout Harry Callaghan, city, is presented with the prize for the best essay on what it means to be a Scout by Mr. W. Hayward, manager of the Charlottetown branch of the Bank of Nova Scotia. The bank is paying the cost of attendance at the World Scout Jamboree at Niagara Falls for the essay winner. (Barter's Film Lab)

Continued from page 1

Strong Island

Hon. Mr. Cullen pointed out that if the 1931 agreement with Great Britain allowing for unrestricted shipping within Canadian Coastal waters were removed, the agreed charges entered into with the Canadian Railway companies would go out of existence overnight. He based this assertion on the fact that it was on these competitive water rates that the agreed charges were established.

Mr. Cullen summed up his presentation by saying that Prince Edward Island, which has only the two primary industries of farming and fishing along with a small tourist industry, is dependent for its very life on low cost transportation.

Mr. Donald Mundle, Q. C., counsel for the Commission asked Mr. Cullen to give a brief history of the Government's experience with the Newfoundland shipping trade. The Minister said that this venture was being carried on by the Provincial Government without the aid of a Federal subsidy. He reported that the shipping has operated at a loss for the past three years, at the rate of thirty-two, eight and seven thousand dollars respectively. He said that during the present year the service was being carried on a per diem charter basis. He expects a loss again this year.

On reply to further questioning from Mr. Mundle, regarding the effect of the St. Lawrence Seaway on Maritime coastal trade, Mr. Cullen said that he was not in a position to express an opinion on this matter except to say that a processing firm which has been anticipating the setting up of a plant in the Province, stipulated that such a plant must be near a [illegible] indicating that they intended to use the waterway for carrying their products.

POTATO RATES

Mr. Eldric V. Campbell, secretary of the Potato Dealers Association of Prince Edward Island substantiated the evidence of lower shipping costs through competitive shipping. He agreed that such rates tended to keep rail rates down. When asked by Mr. Mundle, Mr. Campbell estimated that about 50% of the Island crop is shipped to Montreal and central Canadian points. He said that the approximate value of last year's crop was in the vicinity of $10,000,000.

Mr. Rand H. Matheson, manager of the Maritime Transportation Commission who prepared the brief for the Atlantic Provinces, introduced evidence which showed that previous to 1953, the railways were asking for increased freight rates almost on a yearly basis. It was because of these yearly increases that the competitive rates of water and truck began to manifest themselves, with the result that the agreed charges to certain designated points was instituted.

It was the usual procedure, said Mr. Matheson, for the Railway to carry on such an agreement so long as the water and truck competition was in existence but during the winter months when this means of transportation could not be used and at a time when most of the potato crop was being moved, the railways would revert to their former rates.

After further consultation with the railway management and when the potato industry agreed to give the railway 100% of their business the year around, the agreed charges came into effect on a yearly basis. Later it was found possible to arrange for concessions that would allow the same rate for all potatoes no matter from what part of the Province they were shipped.

Mr. Mundle wanted to know from Mr. Matheson what would be the rates by water to Montreal compared to those in effect under the agreed charges. Mr. Matheson said that he did not have that information available but he felt that it was not in the best interests of the potato industry to ship, say, 5,000 tons of the product at one time. It would tend to have a depressing effect on the market and to this, there would be added the problem of storage.

ST. LAWRENCE SEAWAY

In answer to a question concerning the effects of the St. Lawrence Seaway on coastal shipping, Mr. Matheson replied that the matter had not been taken under consideration as yet but as he saw it, there was the possibility of potatoes being taken by water to the central markets of Canada and the U.S. and there was every reason to believe that the rates for transportation would be cheaper.

Mr. Arthur Simard appearing for the Railway asked Mr. Matheson if the Railway under the agreed charges can terminate the terms of its agreement, to which Mr. Matheson replied that either the Railway or the potato industry could upon three months notice terminate this agreement.

WEST POINT FERRY

Mr. J. O. C. Campbell appearing for West Point Ferries Ltd., said that it might appear that the submission made by the Ferries Company would fall outside the scope of the inquiry. He felt, however, that the Commission had the power to exercise wide discretions.

He pointed out that one of the things in which the Government is interested, is in fostering and keeping alive the shipbuilding industry and if such a service were begun it would involve the building of a new ship or the remodelling of a ship which might be bought for this purpose. It would also help the industry by having the ship repaired annually in some Canadian shipyard.

"You must pierce the cellophane curtain surrounding the terms of reference and change from red to black the figures found on the ledgers of Canadian shipyards", said Mr. Campbell. He went on to prove two points: 1. That a ship was needed; 2. That it was indirectly the responsibility of the Federal Government to provide and maintain such a service.

Mr. Campbell in quoting from the terms of Confederation noted that it was part of the agreement to maintain continuous service, summer and winter with the mainland or in other words, he said, "it was the Government's intention that in so far as possible the Island would become a part of the mainland."

RECALLS RAILWAY STRIKE

The railway strike experienced a few years ago was an instance pointed out by Mr. Campbell showing that the Federal Government had not kept its agreement of continuous service since it had seen fit to entrust the operation of the Borden Ferry to the Canadian National Railway. He pointed out that the Island had no assurance that such a strike would not re-occur.

Justice Spence reminded the Government counsel that by the same token there was no assurance that the crew of a vessel, if it were provided, would not go on strike and the service would be similarly disrupted at West Point.

Mr. Peter M. MacCaull, Ellerslie, who appeared as a witness said that he was president of the West Point Ferries Ltd. that had been formed in 1949. He related the position of farmers in the western part of the Island whom he said could reach Moncton 75 miles shorter than by way of Borden. He said that the distance from West Point to Buctouche, N. B., was comparable to that between Wood Islands and Caribou. Mr. MacCaull felt that such a service would be a great boon to the tourist industry in the western part of the province.
