SECOND READING OF REDISTRIBUTION BILL

Came up Unexpectedly Yesterday.

SPEECHES MADE BY MULOCK, TUPPER, AND OTHERS

And the Debate Was Finally Adjourned.

[SPECIAL TO THE EXAMINER.]

OTTAWA, June 17.—The Redistribution Bill came up for a second reading rather unexpectedly.

It was expected that the supplementary estimates would be the first order, but the Redistribution Bill was first taken up; the reason being that Mulock, who has charge of the bill will have to be away next week.

Speeches were made by Mulock, Tupper, and Patterson, when the debate was adjourned.

Reciprocity With Barbadoes.

[SPECIAL TO THE EXAMINER.]

WASHINGTON, June 17.—The Reciprocity Treaty between the United States and Great Britain in relation to trade between this country and the British colony of Barbadoes was signed at the Department of State yesterday.

The French Cabinet.

[SPECIAL TO THE EXAMINER.]

PARIS, June 17.—Senator Pierre Waldrick Rousseau has accepted the task of constructing a French Cabinet, M. Delcasse having declined.

The Caledonia Mine Disaster.

[SPECIAL TO THE EXAMINER.]

HALIFAX, June 17.—By the disaster in the Caledonia mine, reported yesterday, eleven lives were lost. The fire is still burning.

Fatality in Germany.

[SPECIAL TO THE EXAMINE.]

STETTIN, June 7.—A terrible disaster has occurred on River Oder. The passenger steamer Blucker was run into and sunk by the steamer Peslitz and thirty persons were drowned.

Senator Wark's Wife Dead.

[SPECIAL TO THE EXAMINER]

ST. JOHN, June 17—The wife of Senator Wark died at Fredericton yesterday.

Dreyfus Buys an Estate.

ANTWERP, June 15.—A friend of the Dreyfus family is authority for the statement that Dreyfus, through his friends, has bought an estate between Brussels and Antwerp, where he intends to reside when his present troubles are over. Begium has always championed Dreyfus, and at one time the Belgium press was so strongly opposed to the French policy in his case that the cordial relations between the two countries were seriously threatened.

TAXING THE CITY FOR COUNTRY WORKS.

SIR,—The subject matter of Mr. Geo. E. Hughes' letter is well worthy the earnest consideration of citizens. In several letters to the press I have myself protested against this injustice to Charlottetown. To ask the city taxpayers to maintain, at their own expense, all our public works and institutions and then to be taxed to maintain public works in the country, is nothing short of piracy. The B. N. A. Act authorizes direct taxation for provincial purposes. The city, as a part of the province, is presumably equally liable with the country to taxation. This taxation being for provincial purposes the city has the same claim for public works as the country. In handing over to the corporation the charge and maintenance of city works, the revenue from city sources was also placed with the City Council Now that the government have taken the revenue, and a larger one, to themselves, it would become the city to hand them back the remainder and let the Government undertake the expense of our streets and other public works. This is only reasonable. If a proposition were made to tax the country for moneys to repair the streets of Charlottetown we would be promptly told that we were a set of pirates. Why then tax the city for funds to repair country roads?

Very few of our citizens have been careful to estimate the extent to which Provincial revenue properly belonging to the city has been spent in the country. The Government expenditure of 1898 amounted to $277,462.98. Of this amount $225,444 98 consisted of Dominion subsidy and general revenue to which Charlottetown constituting one tenth of the province is entitled to a just proportion.....$22,544

Income tax (arrears included) paid by Charlottetown.....	3,500
Estimated from Liquor Licenses..	6,000
Electric and Steamship taxes.....	1,000
Total.....	$33,044

Our receipts from the Local Government may be summed up as follows.

Public Schools.....	$ 7,402.00
10 per cent of cost of administration of justice.....	1,700.00
10 per cent Executive Council..	48.00
10 per cent Prince of Wales College.....	500.00
10 per cent Hospital for Insane..	1,973 00
10 per cent Legislation.....	740.00
10 per cent miscellaneous paupers, poorhouse, postage, provincial building and offices	1,930.00
Stenographer, etc., 10 per cent	115.00
Total.....	$14,408.00
Allowance to Fire Department..	650.00
One half cost of Charlottetown Ferries $6,401.06 less half receipts $2,870.....	3,531.06
Total.....	$18,589.06

In this statement we only claim our equitable portion of the subsidy and general revenue to which we contribute. On the other hand we debit ourselves in the full proportion for every branch of the public service for which we are liable—in the item of our own ferries assuming full half the nett cost; and yet after deducting this $18,589 06 from the $33,044, which properly belongs to us from the local treasury, this leaves the alarming balance of $14,455.00 taken annually from the city to be squandered in the country. By claiming, as I might justly do, that our receipts should embrace the whole bank and electric corporation revenues, I could make this show much more in our favor. But by giving every detail against ourselves it will be seen that we are even then fleeced without mercy; and our councils and our public men say Amen.

SEWERAGE CONSTRUCTION.

SIR,—The Guardian today re City Sewerage has been misinformed or is certainly astray when it says "that delay in construction is caused by the contractors not having the necessary appliances for taking care of the water. I learn from some of the contractors that they are not going to take care of water until they strike it, and others of them will not take care of it for fun until they are in a position to close up the ditches. The statement of the Guardian that "the work is being delayed for want of pipe" is perfectly correct and for no other reason.

ONE WHO KNOWS,

Riots in India.

BOMBAY, June 15.—The riots in the Tinnevelly district of the Madras presidency between the Maravars and Kullars on the one hand, and the Shamars on the other, are assuming alarming proportions. They have already spread over an area of a hundred square miles. Several large villages have been burned almost under the eyes of the troops, who were summoned from Trichinopoly. The soldiers scarcely succeeded in saving the lives of the villagers. The risings and burnings continue.
