CHARLOTTETOWN'S GREAT CORNER

FOR BARGAINS

That the Bargain Corner stands unapproached and unapproachable in its allround bargain giving, hundreds are testifying daily. And that we are making steady progress may be noticed by the large, carefully selected and up-to-date stock of every department. In our Children's Clothing Room we have a nice assortment of Spring Suits, both home-made and imported. They are all prices from $1.00 a suit up to as high as you would wish to go. Our Boys' 3-Piece Suits range in price from $2 50 to $8.50, and our men's—well all we can say about our Men's Clothing is **COME AND SEE.** We promise you will not be disappointed.

We have been making special strides after the Hat and Cap Trade of the Town, and if quantity, quality, assortment, style and price will do it, there is no question but that we will get there.

For our Custom Tailoring Department we have the best workmen, the best cutters, the best assortment of cloths on the Island This is no idle talk, but a fact which cannot be gainsaid; and it would afford us very much pleasure to have you add your testimony this week to the hundreds of others that ours is THE Tailor Shop of the City.

THE SHEEP INDUSTRY IN AMERICA.

"Farming" for May reports that the sheep industry in the United States, at the present time, is not in a flourishing condition. Since the Democratic party came into power, the number of sheep in the country has been reduced by nearly 9,000,000 head. This is owing, probably, to the change in the tariffs, and to the effects of the contemplated change before it came. The flocks have been reduced by about one fifth. This is a serious reduction, and one that cannot be made up even in several years. The influence which this large reduction should have upon the sheep industry in this country should be favorable, for it should lessen the competition in the export trade from this country to England. The trade between England and Canada in sheep has been much on the increase of late, and, if it should still further increase, so much the better for our flockmasters. It is not improbable that the protective tariffs in the United States will be made higher, and the people may again give more attention to the sheep industry; but, even so, as already stated, some time must elapse before the shepherds can restore the numbers even that they have lost.

QUERIES.

The following questions are asked by the Montreal Gazette. Perhaps the Patriot, the Guardian or other organs of the Opposition here will answer them:

Will a Liberal free trade tariff for Canada make a market anywhere for an extra bushel of wheat grown in Canada?

Will it enlarge a cheese factory or establish a new creamery?

Will it develop an unopened mine?

Will it cause a new mill to be built anywhere?

Will it give employment to an additional workingman?

Will it bring a new customer to a merchant's store?

Will it help you to earn a dollar anywhere or anyhow?

Nervous Prostration.

Cured effectually by Scott's Sarsaparilla.

His heart was affected.

"Overwork as a student at college brought on an attack of nervous prostration," says Mr. Gilbert, a railway missionary. "I was exceedingly nervous and if I exerted myself my heart commenced to flutter violently, and I was warned that even ordinary exercise endangered my life. But thanks to Scott's Sarsaparilla I feel better than I ever expected to feel, for I can now address a meeting without effort, can walk a brisk pace for two hours or more without exhaustion and am free from that distressing palpitation. In my work I have oftentime recommended Scott's Sarsaparilla, and have seen many cases where its effects have been most marked."

Scott's Sarsaparilla acts like magic in restoring shattered nerves because it rebuilds the nerve centres. Nervous headache, nervous dyspepsia and all nerve derangements wear on the system. Scott's Sarsaparilla makes new blood and muscles and strong nerves. Of all druggists, $1 per bottle. Dose from half to one teaspoonful.

M Donald, who was convicted of fire raising at Blenheim, Ont., has been sentenced to fourteen years in the penitentiary. Half a dozen incendiaries have been sent to penitentiary lately in Canada, and all for long terms.

TIRED MOTHERS find help in Hood's Sarsaparilla, which gives them pure blood, a good appetite and new and needed **STRENGTH.**

A dose of precaution taken daily in one of our wide-wheel baby carriages—will do the little one more good than anything you can feed it with a spoon—Mark Wright & Co.

PEAKE'S STATION NOTES.

Owing to the cold late spring, the farmers of this district are backward with their work; yet the most of them expect to be through seeding about the 1st of June.

Mr. Robert McDonald, who has been in Boston, Mass., for the last six years, is home on a visit to his parents. Mr. McDonald is one of our most successful young Islanders abroad.

Our school is in a very prosperous condition. Mr. W. J. McDonald, who has taught here with success for the past six years, intends leaving the profession at the end of the term. He intends doing business in the stand lately occupied by A. A. McDonald.

Mr. J. F. McDonald, J. C. McDonald and R. L. McDonald, teachers, are home for vacation.

Mr. B. D. Hayden has made a great addition to his hitherto comfortable residence by building a magnificent kitchen, American style.

We see by the late issue of the Patriot that our "Bard" is again up to time with an address to the Liberal army before the battle of the 23rd of June. The Liberals' hope for victory must be very small, indeed, when they allow "the man of Parradies" from Peakes to encourage and inspire confidence in their ranks with his innocent little pieces of literature. However, no one can blame the bard. This is the time of the year when the trenches in the roads require filling up. Therefore, our Bard will reap a golden harvest for his little "parrady."

Mr. Joseph Dunn, our leading merchant, has his large store well stocked with a choice selection of goods, and is ready to supply the wants of his many customers.

We are pleased to see Mr. George McDonald, hale and hearty as ever, back to the village again. He will do business here in company with W. J. McDonald.

Our genial blacksmith, Mr. P. Goodwin, is very busy at present in his line of trade.

Our respected postmaster, Mr. Allen McDonald, is head agent for the Massey-Harris Manufacturing Company here, and sells quite a lot of carriages and machinery for the company.

CORRESPONDENT.

May 18th, 1896.

—Montreal Gazette: There was no part of the Premier's address that evoked heartier applause than his declaration that he would stand by the constitution on the Manitoba school issue. If the reception of his words is accepted as an indication, the English-speaking people of Montreal are agreed that the spirit of the federation compact governs the case of the Manitoba minority, who ask for separate public schools for conscience sake, and they are agreed, too, that the time has come for Parliament to act. This action, when it is taken, will be on the lines laid down in the judgment of the Imperial Privy Council, the ultimate court of appeal on constitutional questions, the most unprejudiced tribunal in the Empire, or in the world, and whose opinion was given after an exhaustive argument in which all that either side could advance was set forth.

The late Mr. Disston, of Philadelphia, had assurance in thirty-three companies to an aggregate of $1,694,825. He had $100,000 in the British Empire Mutual; in addition a like sum in each of the three largest New York companies; also $30,000 in the Canada Life, and $30,000 in the Michigan Mutual, $25,000 in the Standard and $20,000 in the Provident Savings.

—Halifax Herald: The two following utterances should be read together:—

"Our policy is death to protection."
—Sir Richard Cartwright.

"Our people hope for a liberal victory."
—Washington Post.

As they stand, they stand well together, and the declared policy of Sir Richard justifies the expressed "hope" of the Washington people. But the Washington Post also knows that Sir Richard Cartwright has not only declared his policy to be "death to protection," but has also declared it to be life to unrestricted reciprocity or commercial union, with discrimination against the Mother Country, which would be the beginning of a practical move towards annexation; and it also knows that Mr. Laurier and other grit leaders back Sir Richard up in his "continental" course. Hence the hope and desire expressed by so many United States papers for a victory "for our friends, the Canadian Liberals."

—Toronto Mail and Empire: Attorney General Longley, of Nova Scotia who is going to cast in his lot with the Liberals, says he would prefer to be in Opposition for the first two or three years of his Parliamentary career. He has taken the right course to ensure that his wish will be gratified.

IN THE STATES AND IN CANADA

An Object Lesson for Our Farmers.—Let Them Study This Carefully.

If there is one assertion more than another that free traders are fond of impressing upon the Canadian farmer it is that under no circumstances can a protective tariff be of any benefit to the farmer. They say that while the farmer has to pay the duty on every dollar's worth of imported manufactured goods he uses, that his own farm products cannot be protected in the same way. Is this assertion true? We think not, and to prove that it is not we ask our readers to look carefully over the following list of prices of farm produce in Toronto and Chicago and say candidly which is the better for the Canadian farmer. Any person can readily verify them:

	Toronto.	Chicago.
Wheat, red, from farmers waggon, per bush	80c	61c cash
Rye	58—60c	36c
Oats	27c	18¼c
Barley	34c	30—33½c
Butter per lb	13—15c	7½—9½c
Eggs per doz	10—11c	9—13c
Potatoes, per bush	17—20c	12—15c
Sheep, per head	$4.75—$5.25	$2.50—$3.80
Lambs	$4 50—$5.00	$3.75—$5.00
Fat cattle, per lb	4c	3½—4¼
Hogs, per cwt	$3.95—$4.00	$3.05—$3.60
Veal, per lb	6½—8c	5½—6c

If our farmers are as wise as we think they are they will hesitate a very long time before they will vote to let the farmers of the United States have free access to the markets of this country.

FARRER AND LAURIER CONSULT.

Montreal, May 18.—The famous Ned Farrer is again on deck, and, of course, this does not mean anything good for Canada. The late editor of the Toronto Globe loitered round the St. Lawrence hall for a while this morning, after which he was closeted for over an hour with the Hon. Wilfred Laurier, and no one pretends to say what took place between the grit leader and the New York Sun's emissary to Canada, but this is what has been related on the best authority. It is stated that the letter which appeared in the New York paper and signed by Mr. Glen, who represented South Ontario in the House of Commons, was in reality the production of Mr. Farrer, and that the statement made to the effect that if Mr. Laurier attained power at Ottawa the American manufacturers could sell Canada $100,000,000 worth of goods every year, was nothing more or less than an appeal to the manufacturers of the New England and middle states to come down handsomely for Laurier during the present compaign Your correspondent is also informed that Farrer has the names in his pocket of fifty American manufacturing concerns that have offered to plank down $20,000 each, which means a liberal boodle fund of a round million, but, like shrewd Yankees, these foreign corruptionists have attached a rider to their infamous proposition. They want a written pledge from the grit leader, or some one in authority, that the protectionist policy of the present Canadian government shall be completely reversed and the American manufacturers shall be free ly admitted into the Dominion. It now remains to be seen if the grit leader will be able to give the desired pledge to his American friends.

Among the results of a study of the wealth production and consumption of the United States of America, given by George B. Waldron, statistical editor of the Voice, New York, are those we summarize below. He repudiates the notion that the poor are growing poorer across the lakes, notwithstanding the bitter experience of the working classes these last two or three years. That the rich are growing richer, among our neighbors, there seems to be no doubt. Here is a striking fact, however—supposing his estimates to be correct—that out of a total of 12,690,152 families in the United States, over 4,000,000 families live on incomes of less than $400 a year. This will hardly be believed by the average American, that in a country so distinguished for large incomes and free spending, a third of the heads of houses, are, like Auburn's village preacher, "passing rich on forty pounds a year." But Mr. Waldron goes on to say that more than half the families in the United States get less than $600 a year, which is equally hard to believe. Mr. Waldron proceeds: "Only one family in twenty, that is, say 634,000 families in all, gets more than $3,000, and this class absorb one third the annual product of the nation, and nearly two-thirds of the total annual increase in the nation's wealth."

The Egg Trade.—A late Toronto despatch says: Mr. Thomas Robinson, of West Hartlepool, England, the biggest importer of eggs in the world has interviewed the heads of the department of Agriculture with a view to developing the Canadian egg industry. Mr. Robinson imports between two hundred and three hundred million eggs into Great Britain every year. At present he depends upon Russia for his supply, but as that country is very large and the means of transportation are inferior, the Russian eggs are of an inferior quality frequently when they reach the London market and Mr. Robinson believes that with our facilities of transport Canada should prove an admirable field for the development of the egg business.

Boils

It is often difficult to convince people their blood is impure, until dreadful carbuncles, abscesses, boils, scrofula or salt rheum, are painful proof of the fact. It is wisdom now, or whenever there is any indication of

Impure

blood, to take Hood's Sarsaparilla, and prevent such eruptions and suffering.

"I had a dreadful carbuncle abscess, red, fiery, fierce and sore. The doctor attended me over seven weeks. When the abscess broke, the pains were terrible, and I thought I should not live through it. I heard and read so much about Hood's Sarsaparilla, that I decided to take it, and my husband, who was suffering with boils, took it also. It soon purified our

built me up and restored my health so that, although the doctor said I would not be able to work hard, I have since done the work for 20 people. Hood's Sarsaparilla cured my husband of the boils, and we regard it a wonderful medicine." Mrs. Anna Peterson, Latimer, Kansas.

A By Law in Addition to the Present By-Law for Sanitary Purposes, for the Purpose of More Effectually Enforcing Cleanliness in the City.

Be it enacted by the City Council of the City of Charlottetown as follows:—

1st. That upon the refusal or neglect of any owner or occupier of any house, warehouse, cellar, yard, field or other place in the said City to remove any dirt, manure, animal or vegitable substance, stagnant water, filth or refuse matter of any kind off and from such premises, after receiving 48 hours notice from the Sanitary Officer to remove the same, it shall be the duty of the Sanitary Officer, and he is hereby authorized and required to cause the same to be removed at the expense of the owner or occupier so notified as aforesaid. After such removal as aforesaid, the Sanitary Officer shall forthwith demand payment of the cost of removing the same, and unless paid on demand, shall sue therefor before the Stipendiary Magistrate; and a like remedy for the collection thereof as for the enforcement of the penalty under the By-Law for Sanitary Purposes, Chapter XVII., shall be applicable for the recovery of the amount thereof.

2nd The remedy above provided, shall be in addition to the remedies provided under the By-Law for Sanitary Purposes, and nothing herein contained shall be construed to prevent any person being prosecuted for a breach of said By-Law as well

W. E. DAWSON, Mayor. H. M. DAVISON, City Clerk
