GREEN BAY SCHOOL

The following is the report for the month of March for Green Bay School.
Grade X. 1. Rea Flood.
Grade IX. 1. Barbara McQuaid, 2. Joan Costello.
Grade VIII. 1. Earl Costello, 2. Linus Flood, 3. Leroy McQuaid.
Grade VII. 1. Evelyn Flood, 2. Peter Murray.
Grade VI. 1. Phyllis McQuaid.
Grade V. 1. Maurice McQuaid.
Grade IV. 1. Myrna Murray, 2. Paul Murray.
Grade III. 1. Eileen Flood.
Grade I. 1. Manfred Ohlandt.
Highest average in the senior grades, Barbara McQuaid, 87.2 per cent.
Highest average in the junior grades, Eileen Flood, 89.6 per cent.
Teacher, Miss Rosline T. Flood.

ed and soft. Unpressed pleats fall from the cummerbund waist. The color was a pinky red. The hat bonnet style — so pretty — was made up of lace, satin and brilliants.

ST. ANN'S SCHOOL

Following is the report of St. Ann's School for the month of March.
Grade VII. 1. Bernadette Walsh, 2. Earl Walsh, 3. Justin Gallant.
Grade VI. 1. Brian Bolger, 2. Gerard Gallant.
Grade V. 1. Bernice Gallant, 2. A. I. Rose Walsh.
Grade IV. 1. Phyllis Bolger, 2. Fred Perry.
Grade II. 1. Dorinda Trainor, Reggie Gallant (equal) 2. Anne Murray.
Grade I. 1. Norbert Gallant, 2. Hughie Perry, 3. George Trainor.
Highest average in the Senior grades, Brian Bolger 82 per cent.
Highest average in the junior grades, Rose Walsh, Norbert Gallant, 90 per cent.
Teacher Genevieve Doyle.

MacKenzie - MacKenzie Wedding Is Solemnized

A very quiet but beautiful wedding took place at the Salvation Army Citadel, Charlottetown, on Friday March 29th, 1957, when Muriel (Allen) MacKenzie, daughter of Mr. Lemuel Allen and the late Mrs. Allen, formerly of Boughton Island, exchanged marriage vows with Warren MacKenzie, son of Mr. and Mrs. John M. MacKenzie, formerly of Cardigan North. The double-ring ceremony was performed by Captain John Carter.

NORTH WILTSHIRE

Mrs. Bruce Deacon was hostess to the Members of the North Wiltshire auxiliary of the Women's Missionary Society of the United Church on April 4th. The meeting opened with the president presiding. The worship period was led by Mrs. Leonard Bowness, assisted by Mrs. Ralph Noye and Mrs. W.R. Clark. The special program for April as outlined in the Missionary "So Send I You", the hymn, "Jesus Christ Is Risen Today" was followed by scripture lesson from Matthew 28: 1-10 and John 20: 19-21 also Acts 1: 1-8 and 12-14. Comment read by leader was followed by Bible readings from Acts 2: 41-47 and Acts 4: 32-35 Hymn 164, "The Church's One Foundation" was sung. "Presentations" and "Questions for Discussion", by leader and members closed this part of the meeting. The business period was conducted by the president who passed leaflets, "A Lively Hope" to the committee for an Easter Church Service. Roll call was answered by eight members and one visitor. Minutes of the previous meeting were read and approved. A receipt for \$2.00 from the temporary Federation was read by Mrs. Bowman, also a thank you from a member who is ill. The community friendship secretary reported 10 visits to homes and hospitals, 5 sympathy cards and 4 treats sent during the month. Mission Band leader reported having a meeting last month and one member paid dues and passed in Sunshine Pennies. The supply quilts made and 15-31 received from the travelling apron for supply work. Mrs. W.R. Clark invited members for next meeting when Mrs. R. Clark will have charge of the worship period and Mrs. Mitchell the program. The lunch committee is Mrs. W. R. Clark and Mrs. R. Clark. Easter envelopes were opened and amounted to \$14.46. The meeting closed with the Mizpah benediction and lunch was served by the committee in charge assisted by Mrs. Deacon.

HAVE RIGHT GEAR

Chimpanzees have the necessary sound equipment for speech but all attempts to teach them to talk have failed.

HAPPY TRAVELER

Some of the best dressed women we know have to buy with an eye to the budget. So they select wisely, always endeavoring to have at hand one or two magnificent basics that will always look right whatever the occasion, the setting the season. These are pearls of great price, long-term investments in chic that pay endless dividends in short, handknitted or hand-crocheted clothes. Ann Fleischer who pioneered in handsome hand-knits, does this one in ribbon and gives it a neat neckline of lacy scalloped design and a self belt. This suave sheath is a wonderful traveler occupying little suitcase space and emerging ready for immediate wear, whatever the climate or season.

Past...
...that's the manager's chair!

The Royal Bank is looking for young high school graduates with their eyes on the manager's chair and who will study to win advancement. Bisted below are good reasons why the "Royal" offers young men exceptional career opportunities and a solid future. Discuss this advertisement with your parents... ask your local manager to tell you more about the opportunities for young men at the Royal Bank.

Solid facts that spell "opportunity" for you in the Royal Bank:

- The "Royal" is North America's fourth largest bank. More than 880 branches are in operation and new ones are being opened all the time. During the past four years we have opened 94 new branches, each one creating new managerial positions... and resulting promotions for young Royal Bankers.
- "Influence" plays no part in advancement at the Royal Bank. Our senior officers from the Chairman and President down started as juniors in small branches and advanced on merit alone.
- Home study banking courses are available to all staff members. Successful candidates advance quickly. Practical experience plus the banking course is equivalent to a university course in Commerce.
- For young men interested in gaining international banking experience, the Royal Bank has 77 branches abroad... in New York, London, Paris, Central and South America, Cuba and the West Indies.
- We have generous pension plans that compare with the best, as well as group, health and hospital insurance, at low cost to employees.

Get our booklet "Your Future in Banking" at your local branch or write Head Office for a copy.

THE ROYAL BANK OF CANADA
Canada's Largest Bank

Charlottetown Branch L. D. MacKay, Manager.
Branches also in Hunter River, Mount Stewart, Summerside and Tyne Valley.

Maple Syrup Prices Went To Extremes Last Few Years

By JANE BECKER
Canadian Press Staff Writer
MONTREAL (CP) — A bumper maple syrup harvest in Quebec province is causing concern to farmers, wholesale buyers and provincial agricultural experts who are worried about the price situation.
The harvest is expected to total 40,000,000 pounds of syrup and sugar compared with 35,700,000 pounds in 1946.
If sold for what agriculture department officials term a fair price—from \$4.50 to \$5.50 a gallon—the product could bring \$16,000,000.

MOTIVES OF SPRING
I looked in wonder as more snowflakes fell.
Cloaking the roads in an asper mantle.
Folk drove through fields and round high banks of snow
Waving as they passed my kitchen window.
Then March drove Jack Frost away down the lanes.
No more lacy patterns on window panes
One sunny morning I heart a wee rill,
A-litling it's way to the old saw-mill.

The men in the barns, young things are tending
A robin on the bough, Spring sign lending
We'll waken, one morning to join the shoot
The land, is drying, and the boats are out.
E. B. WALL,
Baltic, Lot 18.

SCATTERED OPERATION
The Quebec industry, which produces 85 per cent of Canada's harvest, is a small and scattered operation. Apart from one cooperative at Plessisville, each farmer conducts his own business.
And substitute products are crowding store shelves.
"Buyers who don't know the difference could wreck the Quebec industry, unless our products are priced and packaged competitively," said Mr. Methot.
The department is pressing for new ways of putting up syrup.

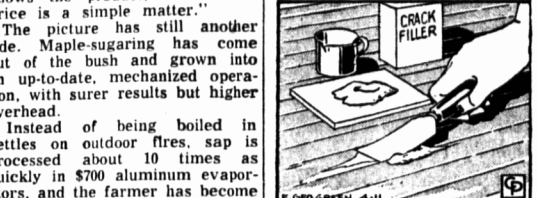

Plan To Detect Doppler Effect Of Tornadoes

Editor's note: The deadly tornado long has plagued weather forecasters because of its elusiveness. How radar is helping track down this most vicious of all storms is outlined in his second of three articles on man's battle against the weather.
By FRANK CAREY
WASHINGTON (AP)—The U.S. weather bureau is planning a variation of the "radar speed" technique in a new attempt to detect tornadoes before their deadly funnels can be seen by the human eye.
The plan is to try to apply to the sleuthing of tornadoes—the most violent of all storms—the same kind of radar set that cop use to detect a speeding motorist on the highway. It's called a "doppler effect" radar.
Bureau tornado hunters plan to have the radar ready by June, normally the beginning of the maximum tornado season.

HEAVY COST
Scientists at Cornell University are modifying the radar for the bureau in this newest electronic.
Traditional gallon cans are being scrapped for one-pound tins which can be emptied before flavor deteriorates. A strict grading system is to be started. And the farmer is being urged to expand his sales as much as possible to local markets, "where he knows the demand, the buyer knows the product, and a fair price is a simple matter."
The picture has still another side. Maple-sugaring has come out of the bush and grown into an up-to-date, mechanized operation, with surer results but higher overhead.
Instead of being boiled in kettles on outdoor fires, sap is processed about 10 times as quickly in \$700 aluminum evaporators, and the farmer has become accustomed to selling about half his crop for export.
Many observers doubt whether he will take kindly to suggestions of a "smaller and better product," concentrating on the village storekeeper instead of huge concerns across the border.

ARTHITIS ANCIENT
Arthritis, the crippler of limbs, has afflicted mankind since the earliest centuries.

WIFE PRESERVERS

When preparing a surface for re-finishing, use a crack filler for filling cracks or gouged places in floors, furniture or woodwork. Cracks in plaster should be filled with patching plaster.
