Cement Paving Begins At Cornwall

Work on the Trans-Canada Highway between Cornwall and the North River Causeway reached the cement pouring stage this week. The workman on the left, with hose in hand, sprays a protective coating on a section of wet concrete that has just been levelled off.

A self-propelling cement cutting machine makes a narrow groove two inches deep across the hardened concrete at intervals of 20 feet. A hose pours a continuous stream of water on the extremely hard cutting wheel at the left front. The groove is later filled with tar. (Photos by Margaret Mallett)

DAIRY MANUFACTURERS DISCUSS PROBLEMS

Divide On Milk Subsidies

OTTAWA (CP)—Dairy manufacturers, faced with prospects of declining sales abroad, split Tuesday on the merits of trying to capture foreign markets through the use of government subsidies.

J. P. Coyle of Toronto, speaking for evaporated milk producers before the National Dairy Council,

described subsidized exports as a poker game with the jackpot going to the country with the biggest bankroll.

If Canada used subsidies to cut export prices, competing countries would follow suit. Soon there might be a vicious race to boost subsidies with countries holding the greatest supply of ready cash winning out.

T. B. Cooper of Montreal, speaking for the cheese manufacturers, said they agreed that subsidized exports are not desirable but are

"very likely necessary" as a means of coping with a trend in other countries. Otherwise, the rising cost of production in Canada would rule out export outlets which Canada had enjoyed in previous years.

STOCKS RISING

W. Leet of Montreal, representing milk powder producers, said his group estimated that Canada is meeting such tough competition abroad from low-price exports of

Coming Events

••Buying and cleaning timothy daily. McGuigan & Boyle.

••Regular Dance Crapaud Rink, Wednesday night.

••Dance cancelled in Cambridge Hall, Wednesday night.

••Dance in St. Andrew's Hall, Mt. Stewart, every Thursday.

••Lot 65 Parish Chicken Supper, Bingo and Dance, Thursday, September 16th. Meals served from 5.

••Buying young pigs; also feeder cattle. Paying market price. Plus MacDonald, Mt. Stewart.

••Visitation, other L. O. L. Lodges, in Crapaud District, visit at Lorne, this Thursday evening.

••St. Teresa's Chicken Supper, September 29th, instead of September 22nd.

••Buying live Poultry every Thursday until noon. W. M. MacEwen, New London.

••Benefit Dance in Iona Hall, September 16th, for Harold MacGuigan, who lost his house by fire.

••Dance at Mt. Ryan Hall at Johnston's River every Friday, Burke's Orchestra.

••Provincial Plowing Match and Fair, Dundas, September 15th and 16th. Two full days of competition and entertainment.

••Raymond Wadman and his Augustine Cove Skyliners will be in Borden Town Hall, Wednesday, Sept. 15 at 8:30 p. m. Sale of candy. Admission 40 and 25.

Police Told Evacuation In H-Bomb Raids Their Job

\$200 Million Wheat Crop Loss In Sask.

SASKATOON (CP)—Saskatchewan's wheat crop has been cut by between 100,000,000 and 125,000,000 bushels by bad weather and rust this year with a resultant loss of probably \$200,000,000, Premier Douglas said Monday night.

He suggested in an address to the annual conference of the provincial government's trade and industry council that there should be long-range planning on a national basis to offset wide income fluctuations in areas like Saskatchewan and the Maritimes where the economy was vulnerable to weather and other conditions.

As an example of wide fluctuations in income, he cited \$250,000,000 of crop productive value wiped out by one night's frost in 1950.

TORONTO (CP)—The Chief Constables Association of Canada was told Tuesday regular police forces are totally inadequate to cope with a mass withdrawal of men, women and children in event of an air attack.

Maj-Gen. F. F. Worthington, federal civil defence co-ordinator, said the burden of any such withdrawal would fall on the shoulders of the police. "You must have a large number of auxiliaries."

He said mass evacuations would take place in some parts of Winnipeg and Vancouver soon as part of a general plan to test civil defence measures in cities across Canada.

Maj-Gen. Worthington said a withdrawal of "strategic dispersal" will be needed in an H-bomb attack. Four factors making such a plan possible are sufficient warning time, co-operation among administrations, police backed up by a well-organized civil defence group and a well-informed, co-operative public.

Chief Verdon W. Mitchell of Halifax reported on replies to a questionnaire sent by a police committee on civil defence to 56 municipalities last spring.

NEED DRASTIC REVISION
At that time they were spending a total of \$128,604 on civil defence.

CONSTRUCTION STARTED ON BIG FISH MEAL PLANT NEAR SOURIS

Construction has started in Souris on what is ultimately expected to be the biggest fish meal plant in Canada. To operate in conjunction with the Albert Griffin Fish Cannery, the new plant is being constructed about two miles out of the town on the railway line and will have a private siding.

It is being erected under the supervision of a Mr. Holga, a native of Iceland who was brought to this country by the Federal Government for whom he is presently erecting a plant in Pictou. He is accompanied by his son and expects to be joined shortly by another Icelander who is now in Winnipeg.

The new plant will be 130 feet long and 40 feet wide, of frame construction closed in with aluminum siding and roofing. The machinery, most modern in existence, is already on hand ready for installation. It operates on a new process first extracting the fish oil. The plant is expected to be in operation not later than the end of November.

HUGE CAPACITY

It will have a capacity of 100 tons of fish meal per day and will also provide a carload of fish oil every four days.

A fleet of trucks will be used to carry fish purchased all over the province to the Griffin plant for filleting and the offal will then be moved to the fish meal plant for processing. It is expected that heavy purchases of herring will be made in the Egmont Bay area this fall as the herring run is usually heavy there.

WILL USE CAPLING

Primarily the new plant will use capling, hitherto unused, and herring. If the volume of fish offering warrants the plant will operate on a 24-hour basis with 10 men to each shift.

They started moving the gravel to the site this week and yesterday the needed cement arrived in Souris by steamer from Newfoundland.

Mr. Holga is resigning from his Government position to go into partnership with Mr. Griffin in the new project. Yesterday he left

Chain Store Sales Increase In July

OTTAWA (CP)—Chain stores in six trades reported higher dollar volume of sales in July than in the same month last year, the bureau of statistics said Tuesday.

Chain grocery and combination food stores led the increase with a 23-per-cent jump to \$78,600,000 from \$63,914,000.

Chain variety store sales registered the next highest increase—eight per cent—going to \$16,010,000 from \$14,864,000.

Expect Early Start On Big Gas Pipeline

NEW ORLEANS (CP)—The way will likely be cleared by the year end for building of a natural-gas pipeline from Alberta to eastern Canada. N. E. Tanner, president of Trans-Canada Pipe Lines, Limited, indicated Tuesday.

Trans-Canada, with authority to build the line, at present plans to start construction next spring. Mr. Tanner said in an address prepared for delivery to the Independent Natural Gas Association.

A number of conditions remained to be fulfilled before Dec. 31, mainly to satisfy federal and provincial agencies regarding financial arrangements, but "we have every confidence in our ability to satisfy the requirements before that date."

The project, as outlined by Mr. Tanner, involves 2,200 miles of pipeline—a 36-inch line from Alberta to Winnipeg and a 30-inch line from Winnipeg proceeding north of the Great Lakes to Toronto, with a 24-inch easterly to Montreal. A 24-inch spur also is contemplated from Winnipeg south to Emerson, Man., to serve the Minneapolis area by connecting with Northern Natural Gas Company.

Spring commencement on the main line anticipates completion to Winnipeg and south to Emerson by next fall, and cross-country operation to Toronto and possibly Montreal, by late 1966.

103 Search And Rescue Unit Is Not Moving To S' side, Ottawa Reports

OTTAWA (CP)—The RCAF has cancelled a planned move of No. 103 Search and Rescue unit from Greenwood, N.S., to Summerside, P.E.I.

Main reason for the change, an announcement Tuesday said, is temporary shortage of accommodation at Summerside while the navy is operating an Avenger anti-submarine squadron from that base.

Other planned moves involving the two bases have gone ahead as scheduled. No. 1 air navigation school has shifted from Summerside to Winnipeg, and the Maritime operational unit has moved from Greenwood to Summerside.

Summerside airport also confirmed that the planned move of 103 Search and Rescue unit from R.C.A.F. Station at Greenwood, N.S., to R.C.A.F. Station, Summerside, P.E.I., has been cancelled and the unit will remain at its present operational base.

Number One Air Navigation School has already moved from Summerside to Winnipeg and the Maritime operational unit shifted from Greenwood to Summerside.

National Dairy Council Officers

OTTAWA (CP)—Grant M. Carlyle, 41, of Calgary, Tuesday was elected president of the National Dairy Council. He succeeded J. J. Creighton of Tatamagouche, N.S.

H. T. B. Cooper of Montreal and F. D. Sanderson of Regina were chosen vice-presidents.

Regional directors elected at the annual meeting:

Quebec: F. L. Hart, K. H. Olive and Laurent Poupart, Montreal; Pierre Oote, Quebec; J. P. Nadeau, Granby.

Nova Scotia: A. E. Johnson, Halifax; J. J. Creighton, Tatamagouche.

New Brunswick: T. I. Riley, Campbellton.

Prince Edward Island: J. A. Simmonds, Charlottetown. Directors at large include C. G. MacLennan, Truro, N.S.

FORGETFUL SURGEON

LONDON (CP)—The current issue of the British Medical Journal reports that a surgical glove was found in a man's lung during a chest operation. It had been there since an operation 12 years ago. When it was removed, the patient recovered.

wood to Summerside. Previously announced plans called for the Central Navigational School to move from Summerside to Winnipeg and for the Search and Rescue at Greenwood to shift to Summerside. The C.N.S. move (Continued on page 15, col. 1)

TV AIDS SEARCH

RYDE, Isle of Wight (CP)—Underwater television is to be used in the search for a new-design plane which crashed into the sea near here from the 21,000-ton carrier Albion.

434 persons have been arrested so far in Premier Gen. Fazlollah Zahedi's efforts to smash a Red spy ring channeling American and Iranian military information into Russia.

OTTAWA (CP)—Weekly earnings in manufacturing at the start of July averaged \$57.39 compared with \$56.60 a month earlier.

HALIFAX (CP)—The North Atlantic Treaty Organization anti-submarine exercise New Broom II ended Tuesday.

OTTAWA (CP)—The Canadian Congress of Labor predicted Tuesday next winter's unemployment will be 50 per cent worse than this year's unless the federal government takes quick action.

INGONISH, N.S. (CP)—Highway problems of the four Atlantic provinces were under discussion here Tuesday as the Eastern Canadian Association of Highway Officials opened its annual meeting.

TEHRAN (AP)—War Minister Abdollah Hedayat said Tuesday

Queen Mother To Visit Ottawa

OTTAWA (CP)—Queen Mother Elizabeth will visit Ottawa between Nov. 12 and Nov. 17 as the guest of Governor-General Vincent Massey.

The queen mother will visit the capital after a United States visit. Details of her stay in Ottawa have not yet been completed. An early announcement of the program here is expected.

Queen mother Elizabeth is expected to reach New York on the liner Queen Elizabeth Oct. 26. She is to sail from there aboard the same ship Nov. 18.

HUGE STATE

Western Australia, one of the six Australian states, has an area of 975,000 square miles.

Mystery Solved By Woods Fire

CANSO, N. S. (CP)—A four-year mystery has been solved because of a woods fire.

Joseph Richard, 74, disappeared from his home in Little Dover Dec. 15, 1951, when he went out to check his rabbit snares.

A heavy snow storm occurred and he was never seen again. His body was found Monday by several berry pickers about five miles from his home, uncovered by a recent woods fire.

A coroner's jury decided death was due to exhaustion and exposure.

Youthful Stowaway Returns From Europe; Is Guest On TV Program

NEW YORK (CP)—Eleven-year-old Eugene Hart, fresh from an unauthorized free ride across the Atlantic and back, promptly encountered stormier seas on television Tuesday.

The dark-haired, 72-pound Brooklyn youngster tried hard to satisfy his mother's demand that he advise other little boys not to run away. But his eyes were still sparkling with the excitement of the adventure that began when he boarded the liner United States in New York 11 days ago, "just to look around."

The vessel sailed before his presence was noticed and Eugene spent the trip under the benevolent watchful care of the ship's

SAILED WITH 17 CENTS

He still jingled two of the original 17 cents with which he left home. The other 15 went for the subway fare from Brooklyn to Manhattan, the only part of the trip which he was a paying passenger.

A reporter on the TV program asked Eugene why he had gone away.

"Grandmother threw a knife at me," the boy remarked casually. The statement later proved exaggerated.

Nobody was more startled than the boy's mother, Mrs. Hildegard Hart, who was standing beside him. Viewers saw her grab his arm and give him a shaking.

ONLY RUBBER KNIFE

The mother later told reporters the knife was "only a little rubber one" and that if the grandmother threw it, it was done playfully.

Eugene said the food was wonderful and that "I'm about to burst now." Only one thing marred the trip—he was seasick two days.

Listeners to the TV program found a poignant note when the boy asked his mother if she could stay home with him Tuesday and she replied that she had to work.

Some viewers telephoned NBC offering to aid the boy but Mrs. Hart managed to spend the morning with him and reported late for work.

NOW IS THE TIME TO START ON YOUR HUSBAND IF YOU WANT THE SCREENS DOWN BY XMAS

TORONTO (CP)—Minimum and maximum temperatures

Sydney	44	65
Yarmouth	56	52
St. John's	42	54

HALIFAX (CP)—The Dominion public weather office here says there was rain Tuesday in Nova Scotia and southern New Brunswick. This was caused by a disturbance centred south of Yarmouth. Temperatures were as much as 14 degrees below normal. Yarmouth reported a high of only 52 degrees while Fredericton was 52 far above with 53 degrees. The disturbance is moving rapidly east followed by clearing skies. A high pressure area over northern Ontario is approaching, promising sunny skies for Wednesday and Thursday.

Regional forecasts:
Prince Edward Island: Clear, with a few cloudy intervals; risk of frost early Wednesday morning; little change in daytime temperatures; northeast winds 15. Low-high at Charlottetown 40 and 60.

High tide today at Charlottetown at 12:32 p. m.
Summerside tide eighteen minutes later than Charlottetown.

High tide today at the North Shore at 7:48 a. m. and 7:31 p. m. Sun rises today at 5:51 a. m. and sets at 6:25 p. m.

(The time is Atlantic Standard.)
