VARIETIES.

PERCUSSION CAPS SUPERSEDED. A new composition has lately been invented by Messrs. Winiwarter and Gersheim, of Vienna, for the purpose of superseding the ordinary percussion caps, and, in many instances, the gunpowder charge also. The most prominent feature of these gun primers, as the composition is called, are the absence of a metallic coat or cover, and their uniform explosive power, the materials being of such a nature that, after a detonation, no residue whatever is left behind. The materials which form the new composition are fulminating mercury, chlorate of potash, and sulphide of antimony, the dangerous properties of which ingredients are diminished by the application of collodion, which is used as a cement, and it is the ingenious employment of this substance which constitutes the chief peculiarity of the invention.

THE MORMONS.—If recent accounts from Great Salt Lake City be not exaggerated, Mormonism is working its own cure. That which persecution failed to do in Illinois, and which the constitution and laws of the United States have not reached in the Rocky Mountains, internal dissension seems in a fair way to accomplish. The community of the Latter Day Saints is a house divided against itself, and it cannot stand.—It is a wonder that it has not ere this shown symptoms of decay. With no evil or moral code for their guidance and government, but what is based upon the pretended revelations of a gross imposter, it is remarkable that so large a body of people should have remained so long subject to this base delusion. Internal dissensions are now prevalent in Utah, and threaten to scatter the Saints as wide and as completely as the confusion of tongues did the builders of Babel.

INDIA RUBBER TEETH.—The Scientific American says that this article, in the form of purified white India Rubber, has been patented in England for making artificial teeth, gums, and palates. It adds:—'The adhesion is complete, it can be moulded with perfection to suit every inequality of the gums and teeth, and supplies an artificial periosteum, as it were, to the teeth, when they become painfull by the wasting away of the gum. Added to these is the elasticity of the material which completely obviates the inconveniences that arise from any movement with artificial teeth made by other means."

According to Hunt's Merchants' Magazine, the amount of money circulating in the United States is $292,477, 257, being $13 for each inhabitant. It was $11 in 1826 and in 1836; and in 1830 only $2 20.

BEHAVIOUR IN COMPANY.—On the subject of behaviour in company, Legh Richmond gave the following excellent advice to his daughters: "Be cheerful, but not gigglers. Be serious, but not dull. Be communicative, but not forward. Be kind, but not servile. Beware of silly, thoughtless speeches; although you may forget them, others will not. Remember God's eye is in every place, and his ears in every company. Beware of levity and familiarity with young men; a modest reserve, without affectation, is the only safe pa h. Court and encourage serious conversation with those who are truly serious and conversible: and do not go into valuable company without endeavouring to improve by the intercourse permitted to you.—Nothing is more unbecoming, when one part of a company is engaged in profitable and interesting conversation, than that another part should be trifling, giggling, and talking comparative nonsense to each other."

An Alderman once called upon Dr. Francis, when the following dialogue took place: "Doctor I have a strong tendency to the gout; what shall I do to arrest it?" "Take a bucket of water and a ton of anthracite, three times a week." "How?" "Drink the former and carry the latter up three pairs of stairs." We have not heard that he needed advice afterwards.

A Gardener in New York has succeeded in obtaining a variety of the Prarie Rose, as fragrant as the old Damask Rose. This will be highly esteemed.

Johnson says he never was in a tight place but once, and that was when he had a mad bull by the tail. Had he held on, it would have dragged him to death over a stubble-field, while if he had not held on the critter would have turned round and gored him to death. The question now is, which did Johnson do—hold on or let go!

It would require several horses to draw all the strings of a piano-forte to concert pitch, the strain upon them, when in perfect tune, being about seven tons.

THE good husband keeps his wife in the wholesome ignorance of unnecessary secrets. He knows little who will know all he knows.

I KNOW nothing that more moves us to tears than the hearty kindness of a dog, when something in human beings has pained or chilled us.

ROMANCES generally end with a marriage. And many young girls, when they leave school, would wish to go through the romance of life—as they do most romances—by beginning at the end.

The Christian *Inquirer* has this sensible remark—"The giddy *belle* and the overworked seamstress are extreme forms of the same mental empoverishment."

British Periodical Publications.

FORWARDED by mail, under the provisions of the late Post Office Law, at merely nominal rates.

1. *The London Quarterly Review (Conservative).*
2. *The Edinburgh Review (Whig).*
3. *The North British Review (Free Church).*
4. *The Westminster Review (Whig).*
5. *Blackwood's Edinburgh Magazine (Tory).*

These Reprints have been in successful operation in the United States for 20 years, their circulation is constantly on the increase, notwithstanding the competition they encounter from American periodicals of a similar class, and from the numerous *Eclectics* and Magazines made up of selections from foreign periodicals. This fact shows clearly the high estimation in which they are held by the intelligent reading public, and affords a guarantee that they are established on a firm basis, and will be continued without interruption.

Although these works are distinguished by the political shades above indicated, yet but a small portion of their contents is devoted to political subjects. It is their *literary* character which gives them their chief value, and that they are confessedly far above all other journals of their class. *Blackwood*, still under the masterly guidance of Christopher North, maintains its ancient celebrity, and is, at this time, unusually attractive, from the variety of its Review and other literary notables, written for that magazine, and first appearing in its columns, both in Great Britain and in the United States, such as "The Lost Tales of Castaneda" and "My New Novel," (both by Bulwer), "My Peninsular Medal," "The Green Hand," and other serials, of which numerous favorable notices are issued by leading publishers in this country, have to be reprinted by those publishers from the pages of Blackwood, after it has been issued by Messrs. Scott and Co., so that the Subscription List of that Magazine may always rely on having the earliest rending of these fascinating tales.

WONDER OF THE WORLD.

Gravel Cured of five years standing

Messrs. Curtis & Perkins, Bangor, Me.

Gentlemen—I have been entirely cured of the Gravel, by the us of your *Cramp and Pain Killer.* I commenced taking the Cramp and Pain Killer in the Spring of 1847. I had been a great sufferer for ten years previous, some five years of the time I suffered beyond all my powers to describe.

During this time, I have had medical aid, and tried various spe- cifics, but found very little relief until I obtained your Cramp and Pain Killer. In one month after I commenced using it, I began to grow better. I continued to use it for a year, all the time improving until I was entirely cured. MILES STAPLES.

Prospect. Me., Jan. 29, 1851.

We, the undersigned, are well acquainted with the above case, and certify to the facts contained in the statement of fact:

CHARLES CLIFFORD,
HANNAH CLIFFORD,
STANTON ELLIS.

Doctor Toby, a regular practising Physician, of East Machias, writes us under date of March 20, 1847: "Please send me half a gallon of your Cramp and Pain Killer—it is the best medicine to cure what it is represented to, that I everused."

The Doctor first made use of it in his own case, for a severe sprain in the ankle joint, received by upsetting of a stage, and found immediate relief, and has since used it in his practice.

Read the following. It speaks for itself.

RHEUMATISM CURED.

I certify, that I was afflicted with a violent Rheumatic pain in the small of my back, which entirely disabled me, so that I could not get up without the greatest pain and effort; nor could I walk without a cane, and but very little with. I applied Doctor Johnson's Anodyne Liniment, or Liquid Opodeldoc, and several other remedies, without any relief. After suffering in this way about a week, I purchased a bottle of *Cramp and Pain Killer*, prepared by Curtis & Perkins, Bangor, and after *three applications* was entirely relieved and free from pain, and am now entirely well. I also cured a friend of mine, who had been suffering for a long time with a lame side, with the same bottle. I believe it the best medicine in the world, and am happy to add my testimony in its favor

OLIVER TOWNE.

N. B.—Be sure and call for CURTIS & PERKINS' Cramp Pain Killer. All others bearing this name are base imitations.
