AMONG THE civil servants attending the final organizational meeting yesterday for the Federal Services Division participation in the first United Appeal here in October are, left to right, E. J. Kipping, Dalvay; A. W. MacDonald, Charlottetown, and John Martin, Charlottetown, public relations officer. The meeting was held at the Charlottetown Hotel.

'CAMPAIGN IN CAMPAIGN'

United Appeal's Federal Services Div. Organized

Participation of the Federal Services Division in the P.E.I. United Appeal is a campaign within a campaign, collecting money "from our own people" and not costing the United Appeal anything, F. L. Wagstaff told civil servants yesterday at their final organizational meeting for the appeal.

K. M. Johnston, chairman for the civil servants campaign, presided at the meeting which was held at the Charlottetown Hotel.

Mr. Wagstaff, of the comptroller of the treasury office in Ottawa, and here to help organize for the campaign, outlined the role each member of the executive committee will play in the appeal from the chairman, who will have complete responsibility for the operation, to the departmental organizers.

The executive organizer, D.N. Bell, will have general direction of the activities of the executive committee, and carry out the policy outlined by the chairman.

Chief liaison officer, George Cheverie, will have four liaison officers working with him, and is to see that the operation of all departments is running smoothly.

ONLY CANVASS

Mr. Wagstaff noted that any organization not in United Appeal would not canvass government or federal service departments.

Jack Ambler, executive organizer of the P.E.I. United Fund told the meeting that the Federal Services Division had "moved faster than anyone up to this time" as far as organizing for the appeal. He hopes to have an office to work from soon, he added.

IS ENTHUSASTIC

R. E. Seller, president of the P.E.I. United Fund, also addressed the meeting, saying he was becoming more and more enthusiastic as the unfolding of organization took place.

Mr. Wagstaff described United Appeal as a kind of unselfish selfishness where man expresses his generosity in a "mobilization of human decency."

"By the people and for the people, United Appeal is truly Canadian and truly democratic," he said. The contribution of the individual to society is the very essence of democracy.

"We are not the last nor the only word, but we are the best until a better one comes along," he concluded.

Representatives from the Red Cross, St. Vincent's Orphanage and Mt. Herbert Orphanage also spoke briefly.

Shipping Levy By Marketing Board Said Of Importance

A meeting of the P.E.I. Potato Marketing Board was held last night to discuss a court ruling that a levy of one cent on every hunderweight of potatoes leaving the province, imposed by the board, is not applicable. Agriculture Minister Andrew B. MacRae attended the meeting.

Queens County Magistrate James B. Johnston recently made the court ruling. The money is used to promote the potato industry on the Island.

Mr. MacRae, who could not be reached following the meeting, said earlier that he did not know what the outcome of the meeting would be, but stressed the importance of retaining the board.

The minister said that the board is the key instrument in retaining the preferred railway rates on shipments of potatoes to Montreal and Toronto. Tne special rate keeps this province in top competitive shape on the Central Canada markets, he said.

Mr. MacRae said the spud growers of that area are naturally not happy about the special P.E.I. freight rates, and the rate could easily be lost without the marketing board. He said just one shipment by an individual might cause the loss of the rates.

Hog Judging Not Affected

The outbreak of hog cholera in Ontario and Quebec will not disrupt the hog judging at the Provincial Exhibition here, Hon. A.B. MacRae, minister of agriculture, said yesterday.

Mr. MacRae said the disease is generally prevalent among feeder hogs that may change hands several times before going to market. The hogs shown at the exhibition are all pure bred. He stressed however, that hog growers should limit their visits to the barns of other growers to eliminate chance of spreading of any infection should it strike here.

The minister noted also the importance of cooking any garbage that is to be fed to hogs.

So far, however, the disease has not infected any hogs east of Quebec and this province should be safe if extreme care is taken, he concluded.
