QUEEN'S MP AT UNITED NATIONS GENERAL ASSEMBLY

Some members of the Canadian delegation to the 13th session of the United Nations General Assembly in New York are seated at their desks. Left to right are: Mrs. W. T. Hayden of Halifax, N.S., Canadian representative on the fourth (trusteeship) committee; the Hon. W. J. Portillo, vice-chairman of the Canadian delegation and representative on the special political committee; the Hon. Sidney E. Smith, secretary of state for external affairs, chairman of the delegation; Jean Morin of Montreal, P.J., representative on the

UK May Underbid Canada On Aircraft Sale To NZ

By J. C. GRAHAM
Canadian Press Correspondent
WELLINGTON, N.Z. (AP)—A prospective order for Canadian aircraft for New Zealand defence forces is being met by strong competition from Britain.

New Zealand is considering the purchase of Argus aircraft from Canada for submarine hunting, instead of ordering more frigates.

Two modern antisubmarine frigates of the Whitley class are already on order. It was planned to order two more, but action on these has been held up until the use of aircraft instead is investigated.

Each Whitley class frigate costs a total of £4,000,000 (\$10,800,000). Four Argus aircraft could be bought for little more than the price of a single frigate. The government is impressed with the vastly greater area of ocean they could patrol and the saving in manpower involved.

COUNTER PROPOSITION

A British company, however, has put forward a proposition to supply a greater number of aircraft at a lower price. A. V. Roe and Company, of England, is offering eight Avro Shackletons at less than the \$10,300,000 price of a single frigate or four Argus aircraft.

Although the Canadian machine is much more expensive than the Avro Shackleton, it is being offered to New Zealand on very favorable terms amounting to installment buying. This is an important consideration to New Zealand, suffering at present from an acute shortage of overseas exchange.

RCN To Provide Junior Matriculation And Courses

A broad revision of educational services has been adopted by the Royal Canadian Navy in a further step toward meeting the challenge presented by current and future developments in naval ships, aircraft, weapons and equipment.

The effect of the new educational services will be not only to enhance the career opportunities of individual officers and men, but to strengthen and enlarge the over-all educational foundation and professional capability of the Navy's personnel.

MATRICULATION

The most important innovation will be the concentrated RCN Junior Matriculation Course, scheduled to begin next January in HMCS Naden, Esquimalt, B.C. Selected young men who are prospective officer candidates will have less than junior matriculation standing will be enrolled in the course. Examinations will be set and marked by the B.C. Department of Education. Successful students may qualify for HMCS Venture, College Militaire Royale de St. Jean and university.

Another academic course will prepare candidates to write the Grade 13 examinations set and marked by the B.C. Department of Education. On successful completion of this course, the candidate may be selected for university or Canadian Services College training.

Both courses are limited to men under 24 years of age on January 1 of the year a particular course begins.

CORRESPONDENCE

Correspondence courses will not be dropped. Available to all who wish to take them will be Naval Junior Matriculation Courses and Examination in five subjects—mathematics, physics, chemistry, French and English.

These courses and examinations will be of particular benefit to officer candidates, giving them the opportunity to acquire correspondence and evening courses but whose records of service have earned them recommendation as officer candidates. The course is seven months long and is comparable to senior matriculation.

OLDER MEN

The Branch Officer course is for older men who, by reason of age, are not eligible for the junior or senior matriculation courses but whose records of service have earned them recommendation as officer candidates. The course is seven months long and is comparable to senior matriculation.

With the co-operation of provincial departments of education and universities, a Naval Adult Education Program will offer correspondence and evening courses in a wide variety of academic, technical and vocational subjects. The program will be available to all personnel on a voluntary basis. Its main purpose is to enable serving officers and men to add to their career prospects, through spare-time study.

Individuals will be required to pay the nominal fees charged to the adult education courses, but the Navy will set up the machinery to handle enrolments, publish a catalogue listing the courses available, and provide assistance in the form of counsel, guidance and coaching by instructor officers.

Despite the very appreciable increase in educational opportunities offered, the new naval educational services will not require any increase in either facilities or instructor officers.

AGRICULTURAL NEWS

FEEDING DAIRY CATTLE

Scientists have determined the nutrient requirements of dairy cows and the best means of producing those nutrients. We now know what nutrients the different feeds contain and how much of each the cow can utilize. Feeding trials have shown that when the proper principles of nutrition are applied, the maximum quantity of milk is produced and the feed is used most efficiently.

MINERALS

During the past decade considerable scientific information has been secured on the mineral requirements of dairy cows. In addition (Continued on page 12)

Seek Septoria Resistant Oats

OTTAWA — Plant breeders and pathologists of the Canada Department of Agriculture are giving Septoria disease top priority in their oat breeding program. To date, none of the several hundred varieties tested under field and greenhouse conditions in eastern Canada show satisfactory resistance to this disease.

Septoria disease in oats is widespread over the whole of eastern Canada and is particularly severe in the Atlantic Provinces. According to F. J. Zillinsky of the Central Experimental Farm, it is one of the most serious diseases of oats.

Starting as purplish grey spots on the young oat leaves in June, the disease develops rapidly. It produces irregular greyish or brownish grey blotches on the leaves and leaf sheaths, thus interfering with the food producing functions of the leaves.

As the oat plant matures, Septoria spreads to the stem causing straw weakness and increases the tendency of the crop to lodge. Under severe conditions the blumes and seeds are also affected, showing up as grey or black spots.

Spores which cause the infection are produced on old oat stubble and straw debris and are carried by the wind to young growing plants.

Seed treatment and chemical sprays are either ineffective or not commercially practical as a disease control measure.

SANTA WILL WATCH PANTS

BARNSELY, Eng. (AP)—Santa Claus said Sunday the next time he takes off his clothes it will be in private.

The last time Santa—played by Len Shaw—looked off his pants there were a few hundred people watching.

Shaw, a department store Santa, had been listening to the kiddies and what they wanted for Christmas. The show was televised throughout the store.

After the last kiddie had left, Shaw went to get out of his red suit. He thought the TV show was over.

It wasn't.

To Seek Teller In 60 Countries

OTTAWA (CP)—Sixty countries will be circled with pictures, a description and news of a \$10,000 reward for the capture of bank teller Boyne Johnston, wanted in connection with disappearance of \$250,000 in cash from a bank here.

Johnston, 25-year-old native of nearby Renfrew, Ont., who was a trusted employee of the main imperial bank of Canada branch here, has been missing since early last week when a warrant charging him with theft of the cash was sworn out.

The dark, handsome young teller was traced to Montreal but since has dropped from sight. It has been speculated that he escaped into the United States, or that he slipped through the police net and made his way to Toronto.

Johnston left his wife in Renfrew Oct. 26 saying he was going hunting. He was seen in the capital a few hours later. The following day the money was missed. Johnston as a trusted employee had a key to the bank.

New Cuban President Will Seek Peace For His Country

HAVANA (AP)—Cuba's president-elect, Anders Rivero Aguiar, said Tuesday he will try to bring peace to Cuba by ending the long and bloody rebellion led by Fidel Castro.

But any peace overtures face almost certain rejection. Castro had declared in advance that Rivero Aguiar's election would mean only a continuation of the policies of President Fulgencio Batista.

Castro tried to thwart Monday's election by boycott and threats, and apparently succeeded in scaring thousands away from the polls.

Rivero Aguiar, a soft-spoken lawyer and longtime protégé of Batista, will take over Batista's job Feb. 24.

570-1 LEAD

Latest unofficial returns gave him a 54-1 lead over his nearest opponent.

Army headquarters reported votes from 5,032 out of 8,321 precincts showed:

Rivero Aguiar 651,839; Carlos Marquez Sterling 136,674; former president Ramon Grau San Martin 103,208; Alberto Salas Amaro 38,024.

It looked as though about half the 2,870,000 voters shared the polls. The rebels had warned that anyone who voted ran the risk of being shot.

Rivero Aguiar, 53-year-old son of a farmer, began his political career as Batista's political secretary 18 years ago. He served as minister of agriculture, minister of education and ambassador to Peru. Batista last year made him prime minister.

Five Appear On Drunk Charges

A Bayfield street man was re-arrested for one week when he appeared in City Police Court Tuesday morning facing a charge of being drunk and disorderly.

Magistrate K.M. Martin ordered Charlottetown Police to charge the man and hold him in custody.

Five men appeared on charges of being drunk and incapable. A fine of \$30 and costs or 40 days was given an Orlebar Street man convicted on the charge.

A city resident of no stated address was sentenced to serve 10 days in the Queen's County Jail. A Hillsboro Street man was fined \$5 and costs or two days.

A charge against a Pond St. man was dropped when he submitted a signed document that he had taken the pledge. A city man who gave his address as the C.A.A. grounds was committed to the county jail on a previous commitment.

A Douglas Street youth was fined \$10 and costs or five days when he appeared on a charge of failing to stop at a red traffic light.

GATT To Discuss U.S. Give-Aways

GENEVA (Reuters)—Members of the General Agreement on Tariffs and Trade have decided to discuss the United States policy on disposing agricultural surpluses at its annual conference next year, it was learned Tuesday.

This was decided at a closed plenary session of GATT last week.

Canadian delegate Maurice Schwarzmant said the issue was closely related to the United States policy of excessive agricultural protectionism.

City Man Heads Island Jewellers

Earl Taylor of Charlottetown was elected president of the Prince Edward Island Jewellers Association at the annual meeting held Monday evening.

Other officers elected were: Jack Williams, Charlottetown, vice-president; Mrs. Bert Patterson, Charlottetown secretary; Vic Pepler, Montserrat, treasurer.

The group discussed at great length plans for the coming National Jewellery Week November 21st-29th.

Two films, provided by the Watchmakers of Switzerland, were shown.

Cuts made in the film by the Quebec Censors Board.

The world premiere was to have marked the opening of French Film Week here. Instead a first-night audience was shown Montparnasse 19, which had one of the most successful runs among 1958 French movies.

Andre Roche, member of the organization committee of the film festival, told the audience that the Quebec censors had cut 4,000 feet of film, representing 40 minutes of projection, from Maxime. The result, he said, was an unintelligible intrigue.

COMING EVENTS:

- Dr. Fortune Hall every Wednesday night. Webster's Orchestra.
- Bingo in Morell Parish hall, Wednesday, November 5th. Jack Pot \$25.00. Sponsored by C.W.L.
- Dance, Millview Hall Thursday November 6th. Weatherbies Orchestra, Charlottetown. In aid of Springhill Disaster Fund. Door prize.
- Hot Goose Supper, Wednesday, Nov. 5th. Crapaud Hall, Auspices R. John W.A.
- Hot Turkey Dinner, Uigg School Hall, Thursday, November 6th, 5 to 9 p.m. Proceeds school improvement.
- Unloading cement Tuesday and Wednesday; also car of lime. P. Noye and Co., Hunter River.
- Hot Chicken Supper, Corran Hall, Wednesday, November 5th. Serving from 4:30. Sponsored by C.W.L.
- Shur-Gain Amateur Cavalcade, Ballast Hall, 8 p.m., Tuesday, November 18th. Send entries before November 12th, to: Mrs. Preston Gillis, Beatons Mills P.O., P. E. I. Sponsors: Melville W. L. and North Pinette W. L.
- Ellis Bros. Hunter River, unloading car, sow ration, pig starter, hog concentrate, pig grower, fitting ration, dry and freshening ration and fattening feed pellets. Special price off car Wednesday a.m. and Thursday.

Atlantic Provs. Seen Good Bet

HALIFAX (CP)—Paul A. Norton, vice-president of the New York Life Insurance Company said Monday night his company considered it good business to invest in the Atlantic area.

He told the fall dinner meeting of the Halifax Trade Board that New York Life invested \$4,000,000 in Nova Scotia industry during the last few years. He praised the board and the Atlantic Provinces Economic Council for their efforts in promoting the Atlantic economy.

Film Showing Is Cancelled

MONTREAL (CP)—A scheduled world premiere of the French movie Maxime was cancelled Monday night because of

Fox And Mink Show Opens In Charlottetown

The annual Silver Fox and Mink Show of the Prince Edward Island Fur Breeders' Association opens this morning in the fox pavilion at the exhibition grounds at 9:00 a.m. It is the 27th live fox show and 10th live mink show to be held in this building.

The entries include 185 foxes of various types, and 250 minks. The fox entry is surprisingly large, considering that the industry has now dormant since 1951, but it is now showing signs of real life.

The judge for the foxes will be Pavin Cass, Summerside, and the judge for the mink will be William MacFarlane of the Hudson Bay Company, Montreal.

Among the exhibitors are Archie Nelson and W.R. Church of New Brunswick, and S. Messinger of Bridgewater, N.S.

Stewart Wright will officiate as secretary.

From the appearance of the entries that were placed in the cages yesterday afternoon, this show will be the best in years. Among the biggest exhibitors are George A. Callbeck of Summerside, with foxes and mink, also Lloyd Lockroy, Ernest Mill and Son, and Lowell Hancock.

VISITS LIONS

Jack Kunitzky, district governor of Lions International, will pay a special visit to the Charlottetown Lions Club today.

Mr. Kunitzky will meet members of the city club at the Queen Hotel where he will advise the club on matters pertaining to Lions administration and the organization's humanitarian service program. The district governor will also install new members.

This work involves the construction of a close-faced cribwork structure of 10' square timber. It will measure 20 feet in width and will consist of 2 cribs fully ballasted with lengths of 90 feet and 100 feet. They will be separated by a span 15 feet in length and an approach 25 feet long which will consist of 10' square timber sills and stringers.

A four-inch spruce flooring will be laid over the whole of the structure and the approach. Four-inch sheathing will be placed and secured between the fenders along both sides and outer end of the cribwork structure. It will extend from the low water spring tide level to the top of the wheel guard on the east side and to the floor string level on the west side.

Three ladders, ten-inch square timbered fenders and four cast-iron bollards of concrete bases will be placed along the structure.

Approximately 17,100 feet (Board Measure) of flooring and 9,400 feet (Board Measure) of sheathing will be used in this project.

Plans and specifications were

'Mom' Whyte Is Convicted

OSHAWA, Ont. (CP)—Mrs. Bertha (Mom) Whyte, 41-year-old grandmother who pledged never to turn a child away from her door, was convicted Tuesday of failing to register her home for orphans, waifs and stray youngsters.

She received a suspended indefinite sentence while a similar charge against her husband Bert was dropped. Defence counsel Anthony C. Bazos of Toronto said he would appeal the verdict of Magistrate R. B. Baxter.

The Whytes were charged under the Ontario Children's Boarding Home Act which requires the registration of a home in which there are five or more unrelated children.

Mrs. Whyte has repeatedly said she would refuse to conform to provincial requirements because the cost of alterations would force her to reduce "my family" of children, which numbered 98 at last count.

Contract Let In Magdalenes

The Hon. Howard C. Green, Minister of Public Works, has announced that a contract for \$39,824.00 had been awarded to Les Entreprises de L'Est Ltée, Cap aux Meules, Madeleine Islands, Quebec, for construction of a breakwater at Gros Cap, Quebec.

Les Entreprises de L'Est Ltée submitted the lowest bid on the project in response to the Department's advertising for public tenders. Specified completion date for this project is June 1959.
