

### McNamara's Resignation Called For

PHILADELPHIA (AP)—Barry Goldwater has called for the resignation of U. S. Defence Secretary Robert McNamara, urged an all-out bombing of Hanoi industrial complexes and blamed Governor William W. Scranton and Nelson Rockefeller, both Republicans, for his defeat in last year's presidential election.

In a taped television interview shown here, Goldwater also said the Johnson administration has turned down his request to visit South Viet Nam as a reserve general in the U.S. Air Force.

Speaking from his home in Phoenix, the former Arizona senator said the resignation of McNamara "would be the best thing that could happen in our war effort. He has had too big a say in making foreign policy."

Goldwater, a Republican soundly beaten by President Johnson in the 1964 election, said the war in Viet Nam could be ended in a relative few months if "we would say to Hanoi (North Viet Nam) 'You are no longer a sacred place.'"

He urged heavy bombing of "not the cities—we are not people killers," but industrial targets.

Goldwater said the attacks by Rockefeller, of New York, and Scranton of Pennsylvania, describing him as trigger-happy and out to destroy social security hurt most of his effort to win the presidency.

"They said it so often that people believed it," he asserted.

### Drug Testing Is Discussed

OTTAWA (CP)—Testing new drugs on humans requires not only scientific and medical skills, but also a sense of morality and intellectual honesty, a group of Canadian drug manufacturers was told here.

Dr. L.I. Pugsley, associate director of the federal food and drug directorate, told the 51st annual meeting of the Pharmaceutical Manufacturers Association of Canada.

"The use of a new drug compound for the first time in man is an exacting procedure, requiring the highest scientific and medical skills. It also requires a fine sense of morality and intellectual honesty which places human values above material gain."

The association, founded in 1914, is made up of 53 member companies selling about 85 per cent of all prescription drugs bought by Canadians.

Dr. Pugsley said it is mandatory for companies to submit information to the directorate prior to clinical testing, including the objectives of the testing, the identifying name or mark of the new drug, and its chemical make-up. Most manufacturers were anxious to fulfil the requirements of the regulations, but even more co-operation was needed.

### Student Faces Robbery Charge

QUEBEC (CP)—Claude Poirson, 20, a student acquitted on a capital murder charge last June, appeared in court charged with robbery with violence.

Poirson was alleged to have assaulted Mrs. Jacques Bourassa of suburban Ste. Foy Monday and to have stolen her purse.

In June, he was acquitted of the capital murder of Brother Oscar Lalonde, 50, a porter at the Classical College at Matane-Que. Brother Lalonde was clubbed to death in April, 1964.

Crown Prosecutor Roch LeFrancçois Tuesday opposed bail. He said Poirson has already served sentences for robbery, housebreaking and desecration of a corpse.

However, Judge Henri Jolicoeur decided to allow bail on a property bond of \$1,500 or \$1,000 in cash. He set preliminary hearing for Nov. 10.
