This is one of the most pleasing periods of farm life of the year on many farms of the Island. A time of eager expectation tinged with enough concern to make it attractive. For the youngsters it is a time of extreme joy, wonderment and happiness in the yearly crop of lambs and calves are making their appearance. Here at Savage Harbour the first lambs of the year arrived at the farm of Mr. and Mrs. John Morrison on Tuesday, bouncing twinnish of fun and frolic, having a greasy little self and making life little more pleasing for those who watch their playful antics. The first of the calves to greet the Harbour as its home pasture arrived at the farm of Mr. and Mrs. Valentine MacIntyre on Valentine Day.

Nine hands were the choice of the crowd which included most of the top-notchers of this area. Mr. John D. MacInnis of Point DeDoche emerged as the grand champion, but he sure showed the signs of the battle he had been through. Mrs. Arance Murphy, past master in the art of handling the spotted challengeboards threw off a host of challengers to win a spot in the play-offs against the renowned John D. True. MacInnis won, but it was certainly one of those eyelash victories. Other prize winners were Miss Thekla MacKay, Mrs. Charles Murphy, Mrs. Helen Campbell, Lester Gunn, Joe MacKay, Joe S. MacKay, Reg. A delegation from Savage Harbour motored to Charlottetown on Thursday with the purpose of finding out just where the Harbour stood on the Rural Electrification Scheme of the Provincial Government. Some doubt was creeping into the minds of many citizens as to whether or not the Harbour was holding its place in the list of Districts approved by the Commission. The delegation talked with officials of the Maritime Electric Company and the Public Utility Commission and they were given much encouragement. It is felt that barring another visit from Edna or one of her more warlike sisters, Savage Harbour will have the power by midsummer, or before.

Mr. and Mrs. Charles Campbell and daughter Shirley Ann have returned to their home in Savage Harbour after a pleasant week's holiday at Peter's Road where they were the guests of Mrs. Campbell's parents, Mr. and Mrs. Peter MacLennan.

Montague Junior Board Of Trade Meeting Held

The regular bi-monthly meeting of the Montague Junior Board of Trade was held in the town hall last evening. Mr. Alan Nelson was appointed to take charge of the meeting. Following the reading of the minutes, reports were heard from the roadside table committee and from the sign board committee. Both reported progress had been made and were hopeful of completing the projects within a short time. Considerable discussion took place on the program of training within the board, and it was proposed that the members as a group undertake different phases in training. It was also pointed out that as a group it should be taking an active interest in the affairs of the town, and attend the council meetings to learn from the Mayor and Council how to conduct meetings, how they solve the many civic problems with which they are faced, the principles of financing, municipally, the general structure of town planning, and in short get an insight into the whole complex problem of town government. It was then proposed that a few should attend council meetings during each month to acquire a part of this knowledge, and gradually through this process all would have an opportunity of attending council meetings and learn from the council the many problems it had to face. At the same time the board would also have some idea, in the face of these problems at what point and time it might be able to offer any assistance to the Town Council if it should require it, and through the co-operation of the two bodies bring the difficult matter to a satisfactory conclusion.

Strikes appear all over the country and if one were to judge from the present output the latest to join the ranks of the idlers is the crew at the Savage Harbours Lamb Factory. Only four of the rollicking fuz balls have put in their appearance so far. A year ago on some of the farms thirty of the playful babies could be counted at this time.

Among the welcome visitors to Mt. Stewart during the week was Mr. John A. MacDonald of Cable Head, known affectionately by thousands throughout the Island as Jock. Mr. MacDonald a veteran of both World Wars was that happy knack not only of making friends but of holding them. Quartermaster of the famous "regiment" D of the P. E. I. Highlanders, he became famous among a famous crew. Father of a large family himself and under the urgency of war, he readily adopted all the boys of the company as his very own. To supply their needs was his task and never did he fail them. None of the boys of Regiment D ever suffered from cold feet either figuratively or literally. It is said that he could produce two pairs of socks for each man from a tin hat. A fine old gentleman whom a multitude of friends hope will enjoy a full measure of health for many years to come.

Reviews Progress Made In Fishery Plants At Souris

The expansion of the fishing and allied industries in Souris were reviewed yesterday in the Legislature by Mr. William Acorn, (L-First Kings) when he spoke on the Draft Address. He was the 20th member to take part in the debate.

Mr. Acorn said that with nine draggers and three smaller craft, there had been seven and a half million pounds of ground fish landed at Souris, representing 2,400,000 pounds of processed fillets. Replying to the Opposition amendment which called for something to be done to stop the exodus of young people from the Province, he said that last year the average number of employees at the fish plant was 180 with 60-70 more in the strawberry season with a payroll of \$175,000. In addition to this there were 45 men employed on the draggers at an average of \$3,000 each per season. He went further to state that two young men who had learned the potato chip business in Ontario had returned to the Island to start a potato chip factory at Souris.

The member from Souris told also of the new fish-meal plant that is expected to go into operation this year and will employ another 250 men. The potato chip plant which now employs 12 men will also be expanded to employ twice that number.

He urged the Government to investigate the possibility of building a boat lift where draggers could be repaired between trips to sea. He said that a boat lift would eliminate the costly procedure of having to take the boats to Pictou for repairs. He also pointed out the need for an unemployment office in Souris.

R. R. Bell: "You have no unemployment in Souris."

Mr. William Acorn

Mr. Acorn: "Yes we have seasonal unemployment and some of those who sent in their applications six weeks ago are still waiting for their cheques," he added. "I believe a great deal of these delays could be eliminated if we had a local office." Mr. Acorn made reference to the new high school which has been built at Souris and said that its construction would have been an impossibility without Government assistance. A general review of several of the articles mentioned in the Speech from the Throne was heard from the Souris member. He said that the road program was progressing favorably but he could see the need for expansion in the snow removal department.
