- Will be leading hogs at the following points each Thursday: Emory Wigmore, Bradabane, Hunter River, until noon. Summerside until 1.30 P. M. and Kennebec until 3 P. M. MacEwan and Casley.

Newfoundland yesterday became a member of the Canadian Swine Breeders Association and joined her three sister Maritime Provinces in the Maritime Division of the Association through motions passed at the annual meeting of the Association held at the Charlottetown Legion hall.

Presided over by Mr. Carl Roberts, of St. Adolphe, Manitoba, the meeting was attended by over 100 members from Alberta to Prince Edward Island. Directors of the Association from all Provinces except British Columbia and Newfoundland were present and submitted their provincial reports.

Swine registered in the Newfoundland Live Stock Registry were voted eligible for admittance to the Canadian Registry. This motion was passed after it had been stated that Newfoundland swine were all Canadian registered about two generations ago and their standards were about equal

Promoted To Rank Of Wing Commander

OTTAWA, June 6 — (Special) — Promotion of Squadron Leader Morris B. MacKinnon, son of Lt. Col. D. A. MacKinnon D.S.O. of Charlottetown to the rank of Wing Commander was announced in R.C.A.F. orders here today. Wing Commander MacKinnon is now posted to the R.C.A.F. supply unit in Ottawa which supervises distribution of equipment to stations across Canada.

Wing Commander MacKinnon came to R.C.A.F. headquarters, Ottawa, after two and a half years' training in the branch of the air arm to which he is now assigned. For two and a half years he was posted as Canadian liaison officer attached to the United States Army Air Force at the Wright-Patterson field at Dayton, Ohio.

In the course of his duties, he travelled extensively with the U. S. Army Air Force, visiting the Berlin air-lift, the United Kingdom, Alaska and many points in the continental United States. He was closely associated with co-operation between the R.C.A.F. and the U.S.A.A.F. in all fields of action.

With his family, Wing Commander MacKinnon will be visiting Charlottetown early in July.

Labrador Retriever Embarrasses Owner

EDMONTON, June 6 — (CP) — Patsy, an eight-month-old Labrador retriever is embarrassing its owner, C.V. Humphreys. Today he ran this advertisement in Edmonton papers: "Miss anything? If you live in Windsor Park (district) we probably have it; we have a busy retriever."

Patsy has scrounged sweaters, a cowboy hat, a scatter rug, a panda doll, a mixing bowl, a bucket, a carpenter's apron full of nails and miscellaneous shoes, rubbers and gloves.

WANT WORK PROJECTS

TEL AVIV, Israel, June 6 — (CP) — Israel proposed today that the United Nations' spend more money for work projects and less for direct food grants to Arab and Jewish Palestine war refugees in Israel. The proposal was made in final talks between a touring relief mission and the Israel Government.

Reds Are Purged From Public Life In Japan

TOKYO, June 6 — (AP) — The Japanese Government today purged from public life the brains of Japan's Communist Party. Gen. MacArthur, Allied occupation commander, called the signals.

The Reds took the banning of all 24 Politburo members meekly. There was no retaliation. They apparently feared that further violence would speed threatened outlawing of the Communist Party, which the Government said Sunday was coming as a result of attacks on five American soldiers at a Red rally May 30.

The Allied occupation commander ordered the ban of the 24 Red leaders in a letter to Prime Minister Shigeru Yoshida. Yoshida summoned his Cabinet into extraordinary session, and it immediately

Little Hope Held For 22 Still Missing

By Tom Chase
MIAMI, Fla., June 6 — (AP) — Thirty-seven survivors of a twin-engine plane which plunged into the Atlantic were safe tonight aboard a U. S. Navy destroyer.

The bodies of six others were recovered. Little hope was held that the remaining 22 occupants would be found alive.

Pilot Joseph Halsey, co-pilot William Holleran and the steward were among those rescued from the plane, owned by Westair Company of Seattle.

10 Hours In Water
The 37 were picked up by the destroyer Sautley nearly 10 hours after the plane crashed into the Atlantic, about 275 miles east northeast of Miami, with 62 Puerto Rican migrant workers and three crew members aboard.

The pilot of a navy plane in the search area got in touch with Halsey aboard the destroyer and quoted him as saying he was "doubtful that any other survivors would be picked up."

Halsey said that "none of the passengers understood English and so couldn't understand ditching instructions."

All survivors were reported "in good condition."

Halsey said that one engine of the converted C-46 cargo-type plane "unexpectedly failed due to mechanical trouble and the second engine then began to lose oil pressure, causing failure."

Other searchers also were doubtful tonight that other passengers would be found alive.

The Sautley radioed Coast Guard headquarters in Miami that only two life jackets were found during a thorough search, extending as far as the Windward and Leeward Islands.

Seas were reported choppy and "prospects of further recoveries are doubtful," the destroyer advised, adding that according to present plans she probably would disembark survivors at Charleston, S. C.

To Investigate
In Washington, Government aviation experts moved swiftly to investigate the crash.

The plane plunged into the sea while en route from San Juan, Puerto Rico, to Wilmington, N.C. The migratory workers aboard were among more than 5,000 being flown to the United States to help in crop harvests.

Irving H. Mansfield of Millville, N. J., treasurer of Westair Company, said "we had plane-loads yesterday going both to Michigan and New Jersey for agricultural harvests, but it is my understanding this group was going to Michigan."

Passed Inspection
Reports from San Juan said the present C-46 passed inspection satisfactorily before taking off yesterday on its ill-fated flight.

Lieut. J. M. Waters of Annapolis, N.C. skipper of a Coast Guard plane, told reporters in Jacksonville, Fla., that "the survivors were all sitting down in theirrafts and seemed to be taking things calmly. One man waved to us."

The Sautley will remain in the area until it is relieved by the 165-foot Coast Guard cutter Aurora, steaming toward the search area from Savannah, Ga.

No passenger list was immediately available and the name of the steward was not announced.

Princess Margaret, on an official visit to Canterbury, England, shakes hands with Dr. Hewlett Johnson, right, the "Red Dean of Canterbury" and an open champion of communism. Making the introduction is the Archbishop of Canterbury, Dr. Geoffrey Fisher.

Bumper Tourist Year For PEI Anticipated By Federal Officials

OTTAWA, June 6 — (Special) — Volume of enquiries by letter and telephone received recently at the offices of the Canadian Travel Bureau here, indicate 1950 will be a bumper tourist year for Prince Edward Island.

Today, the office of D. Leo Dolan, director of the Travel Bureau, stated that enquiries from prospective visitors to Prince Edward Island were running about 20 percent higher than in 1949. While not a perfect barometer, enquiries in past years have proved the best guide for summer tourist planning.

One feature which contributes to the number proposing to visit the Island Province this summer, Bureau officials said, was the doubling of the ferry service between Cape Tormentine and Borden. Elimination of long waits at the height of summer would attract people who otherwise would change their plans on learning of delays in ferry crossings in former years.

A second factor militating in favor of a good tourist season for the Island, Travel officials said, was the additional volume of publicity the Province had been receiving in various ways in the past few months. They added that not all Provinces will show an increase in tourist traffic this year. Some sections report decreases in reservations, principally those from the United States.

Veterans Affairs Debated In House Of Commons

OTTAWA, June 6 — (CP) — Veterans Minister Gregg said today in the Commons he believes that more and more employers are beginning to realize that veterans of the First World War "can give just as valuable service today as they could have given 20 or 25 years ago."

"Valuable work is going on from day to day in seeking employment and breaking down the resistance of employers to putting these older men to work," said Mr. Gregg.

He spoke during continued study of the estimates of his department.

During the last two years, the National Employment Service, with the help of the Veterans Department and other agencies, found 160,000 jobs for older veterans. They were not permanent jobs and the figure represented one, two or three jobs for the same man.

Labor Minister Mitchell said the National Employment Service has put special emphasis on the placement of returned soldiers and handicapped people.

"I think we may well be proud of the people employed in the employment service of Canada," said Mr. Mitchell.

To Purchase Stores
Members adopted a bill establishing a \$4,000,000 capital fund for the purchase of stores for the Transport Department. Transport Minister Chevrier accepted an Opposition suggestion that the figure be cut from \$5,000,000 to \$4,000,000.

Mr. Chevrier also agreed to Opposition requests that ratification of an international meteorological treaty signed by Canada in 1947 be delayed pending study of the document by the External Affairs Committee.

In the veterans debate, Mr. Gregg said his department plans a "modest" advertising campaign this year to encourage the employment of older veterans.

He paid tribute to the Corps of Commissioners and to the Board of Governors which make the Corps a success. The Corps provided a place of service for men who had maintained their integrity, discipline and trustworthiness but who had no special skill and perhaps were not too strong physically.

No Accommodation
He told Howard Green (PC—Vancouver-Quadra) that the Veterans Department was not able to provide for the hospitalization of the widows of veterans. In veterans hospitals, only a limited number of women veterans could be accommodated.

In reply to requests from Mr.

Ruest Charged As Accessory Before The Fact

QUEBEC, June 6 — (CP) — Genereux Ruest, crippled watchmaker who appeared as a witness in the murder case of Mrs. Rita Guay killed in the time-bomb destruction of an airplane Sept. 9 was arrested here tonight as an accessory before the fact of murder, it was announced by Provincial Police.

Crown Prosecutor Noel Dorion said tonight that Ruest, 42, will be arraigned here tomorrow on a charge of "deliberately helping" J. Albert Guay to kill his wife by putting together a detonating device of a time-bomb placed on a plane on which Mrs. Guay was a passenger.

Mrs. Guay was killed along with 22 other passengers and crew members of a Canadian Pacific Airlines plane when the aircraft exploded in the air and crashed into the side of a hill at Sault au Cochon.

Guay, Quebec jeweller, was convicted of murdering his wife and has been sentenced to hang June 23.

Guay Makes Statement

Mr. Dorion, Crown Prosecutor at Guay's trial earlier this year, said he could not say whether Ruest's arrest was a result of a statement made in Bordeaux Jail cell at Montreal where he is awaiting execution.

Premier Duplessis said in a press conference recently that Guay had made a statement and that it had been considered by Provincial authorities.

Mr. Dorion also refused to say whether other persons were involved in Guay's statements.

No decision concerning a request for a stay of execution for Guay has been made, Mr. Dorion said, but a decision on this matter is expected in a few days.

"It will depend on whether Guay's presence as a witness will be necessary," he said.

Ruest testified at Guay's trial last February that he had put together a detonating device for Guay, after Guay had told him it was to be used for blasting tree stumps.

Ruest, who is now being held in Provincial Police cells here, is the brother of Mrs. Arthur Pitre. She testified at Guay's trial that she put a parcel for Guay on the plane the morning of the crash.

Guay was tried on charges of killing his wife for the love of Marie-Ange Robitaille, a 19-year-old waitress.

A full statement by the Attorney-General's Department in the Guay case is scheduled to be made tomorrow.

Seeks Balance On Vessels Sold Gov't

HALIFAX, June 6 — (CP) — W. Laurence Sweeney of Yarmouth, N.S., opened action in the Exchequer Court of Canada here today to recover \$193,866 from the Federal Government as a further payment for four ships acquired from him in 1942.

The Government previously paid Mr. Sweeney \$321,133 for the vessels and denies any balance is due.

The case was originally heard by the late Mr. Justice Gerald O'Connor but he died before rendering a decision.

Mr. Sweeney claims two ships, the J. E. Kenney and the Laurence K. Sweeney were each worth \$150,000; that the W. D. Sweeney was worth \$175,000 and that a partially-built craft, the M-522, was worth \$40,000.

Five Nominate In Two N.S. Federal By-Elections

HALIFAX, June 6 — (CP) — Five hats are in the ring tonight for two Federal by-elections to be held in Nova Scotia June 19. Four candidates filed nomination papers today and a fifth filed earlier.

The contests are in the farming constituency of Annapolis-Kings and in the dual riding of Halifax.

All three big parties will battle for the Halifax seat—left vacant by the appointment of Gordon E. Hebert to the Senate—but the C. C. F. is abstaining in the Annapolis-Kings campaign.

Angus A. Elderkin, Liberal, who filed nomination papers Saturday, was declared elected for Annapolis-Kings on a recount following last June's general election. The Nova Scotia Supreme Court, however, upheld the contention of George Nowlan, Progressive Conservative candidate, that the polling was void because of irregularities and ordered another election.

Mr. Elderkin, an apple-grower, sat in Parliament until the court brought down its decision. Mr. Nowlan, who had won the Annapolis seat in a 1948 by-election

Assurance Re Bank Agency Given By Governor Towers

Mr. Graham F. Towers, C.M.G., Governor, Bank of Canada, President Industrial Development Bank.

Liberal Women To Meet Today

OTTAWA, June 6 — (CP) — Feminine activities in the political arena will be reviewed tomorrow at the fourth biennial convention of the National Federation of Liberal Women.

A heavy opening-day agenda has been drawn up for the 200-odd delegates to the three-day gathering. Business sessions will continue until Friday. Delegates will reconvene for a joint banquet with the National Liberal Federation Saturday.

Morning sessions tomorrow will be devoted to registration, appointment of committees and reports from the president of each of the Association's provincial branches. Both Newfoundland and the Yukon will be represented for the first time.

Mrs. Nancy Hodges of Victoria, Speaker in the British Columbia Legislature and Women's Federation president, will officially open the convention at the afternoon session and present her annual report.

Fur Smuggling Ring Smashed

SUDBURY, Ont., June 6 — (CP) — Lands Department officials said today they have smashed a \$90,000 fur-buying ring which smuggled Northern Ontario beaver pelts to the United States.

R. C. M. P. and United States secret service agents, were reported seeking a New York man whom they believe was the buyer.

At the same time, department officials disclosed that a shipment of 1,235 skins, bound from Sudbury to New York, was seized two weeks ago in North Bay.

They alleged that 1,821 skins were purchased without a buyer's permit in Cochrane and 2,072 in the Sudbury area. In each case, the furs were valued at roughly \$45,000 altogether. It is reported that the pelts were shipped to freezing-locker plants in several United States cities.

The Department's officers said they believe the aim of the transactions was to escape payment of a \$7.50 manufacturing tax which the U. S. Government levies on each imported beaver pelt.

Five Nominate In Two N.S. Federal By-Elections

following the resignation of Rt. Hon. J. L. Halsey, again is Progressive Conservative standard-bearer in this campaign.

The Halifax contest is a three-way fight among Liberals, Progressive Conservatives and the C. C. F. Samuel Balcom, president of the Board of Trade, represents the party in power. Lloyd Allen, a contractor and R.C.A.F. veteran, is Progressive Conservative speakerhead, and Rev. J. W. A. Nicholson, retired United Church minister, is the choice of the C.C.F.

MONTREAL, June 6 — (CP) — Four candidates today filed nomination papers for the June 19 by-election in the Federal constituency of Montreal-Cartier.

The seat was made vacant through the death of Maurice Hart, Liberal.

The four contestants are Leon D. Crestohl, K. C. Liberal; Maurice Hebert, Progressive Conservative; Kalmen Kaplansky, C. C. F.; and Harry Binder, Labor-Progressive.

Mr. Graham Towers, Governor of the Bank of Canada, announced definitely last night that an agency will be re-opened in Charlottetown as soon as the proposed Federal building has been constructed. Mr. Towers, accompanied by Messrs. W. D. Black and E. J. Tarr, directors of the Bank, arrived in Charlottetown late yesterday on the first leg of a tour which will take them to Summerside, Fredericton, Saint John, Moncton, Sackville, Amherst, New Glasgow, Halifax, Lunenburg and St. John's, Newfoundland.

Mr. Towers recalled that the Bank had been forced to close its Charlottetown establishment on September 30, 1947, when it was unable to renew the lease on the premises then occupied or to locate other suitable accommodation.

"The fiscal agent's functions of the Bank have been carried on effectively in the meantime by the Eastern Trust Company in Charlottetown," Mr. Towers said. "Arrangements, however, are being completed to obtain space in the proposed Federal building and the Bank will resume operations on a full agency basis at the earliest possible moment after its construction."

Mr. Towers' party was met by Mr. A. Pickard, who represents Prince Edward Island on the board of directors of the Bank. The group will visit Summerside tomorrow and will return to the mainland Friday to meet other directors. Meetings of the Boards of Directors of the Bank of Canada and the Industrial Development Bank will be held in Saint John and Halifax.

Noteworthy Career
Graham Ford Towers, C.M.G., has been Governor of the Bank of Canada since it came into being sixteen years ago. He was chosen
