J. W. MORRISON.  
Oct 6, 1879.—3i e w

## NEWS BY TELEGRAPH.

CANADIAN.

MONTREAL, Oct. 23.

Mr. W. H. Kerr, Q. C., will move tomorrow morning, in Court of Queen's Bench, in Sir Francis Hincks' case to have several points reserved for consideration of a full Bench. Motion for a new trial will also be made.

This afternoon the directors of the Merchants' Bank declared a three per cent. dividend on the past half year's business. It is understood on "the street" that the earnings were somewhat over that figure, and that some of the directors favored a 3 1/2 per cent. dividend.

AFGHANISTAN.

CABUL, Oct. 23.

The fire in Bala Hissar is nearly out. The powder magazine will probably be saved.

Over 1,000 stand of arms were brought in under General Roberts' proclamations. Bala Hissar will probably not be re-occupied. The Gen. contemplates its entire destruction.

NEW YORK, Oct. 23.

A London despatch states that the Cabinet Council, yesterday, considered a plan for the ruling of Afghanistan, which shall place a native ruler over that country, supported by England, said ruler to be supplied with funds for the support of a subsidiary army to be officered by British, an English resident to be placed at Cabul, the revenues to be collected by natives under British superintendence.

EUROPEAN.

PESTH, Oct. 23.

In official circles it is confessed that the protocol of a treaty between Germany and Austria has been signed by the Chancellors and the Emperors of the respective countries.

UNITED STATES.

STRONGVILLE, OHIO, Oct. 23.

Yesterday morning a murderous assault was made on Jacob Nuller, a German farmer, aged 60, his wife and an idiotic son. Nuller was killed outright; his wife received three wounds on the back of her head and three in her breast and in her hip. The son, aged 10, was shot in the left breast and received a blow on the head by some dull instrument. It appears that Nuller heard a noise in the night, rose up, and was shot dead, his body being riddled. Mrs. Nuller was the next victim. The son was sleeping in the rear of the room occupied by his parents. Another son named Lewis, aged 24, was arrested and confesses the deed. His mother will probably die. A property dispute was the cause.

CUMBERLAND, Md., Oct. 23.

Early this morning a freight train on the Pittsburg division of the Baltimore and Ohio Railway was wrecked by a rail breaking three miles east of Connellsville. Six men riding on the gondola car were buried under the debris. J. Cheston Lynn, of Cumberland, aged 27, a musician of considerable local notoriety, was killed; his body was frightfully mangled. Wm. Coulter, brakeman, of Cumberland, was extricated in two hours and forty minutes; he was severely injured. Four other men, laborers, were badly injured. The loss to the railroad is several thousand dollars.

RICHMOND, Ind., Oct. 23.

The Hessian fly has greatly damaged the growing wheat in many localities of Southern Indiana, and South Western Ohio.

PITTSBURG, Oct. 23.

An accident occurred on the Pittsburg and Lake Erie Ry., last night near Bridge-water Station, in which a freight train was badly wrecked, 12 cars thrown from the track and G. C. Lemmon, brakeman, was instantly killed.

Stella, Lillie and Mary Dunn, three little girls, attempted to set off a railway signal torpedo, by pounding with a boulder. The explosion fatally injured Stella, aged three; a fragment destroyed Lillie's eyes, and Mary, aged seven, who handled the torpedo, escaped serious injury.

THE INDIAN TROUBLE.

WASHINGTON, Oct. 23.

Secretary Schurz to-day received a telegram from the Governor of Colorado, in which he says "information from South Western Colorado satisfies him that most of Ouray's warriors were in the Thornburgh fight. To surrender the criminals, Ouray must surrender his tribe, which he is powerless to do. They adhere to him for protection only, and will not submit to punishment, neither will they surrender the White River Utes, who are bound to them by the closest ties and are no more guilty than themselves. They whipped Thornburgh's command, and now Merritt retires, and it cannot be disguised that the fighting men of the tribe are hostile and flushed with victory, that they are savages, that they take no prisoners except women, and their trophies are not banners but scalps. If the policy of military inactivity continues our frontier settlements are liable to become scenes of massacres. Unless the troops move against the Indians, the Indians will move against the settlers. Must 300 miles of border settlements be subjected to this peril? The General Government is doing nothing to defend our settlements. They state that they cannot defend all this

border except by attacking the enemy. In behalf of our people, I represent this danger to you, and urge that the Government recognize that a war with barbarians now exists which involves the lives of numerous exposed thriving settlements. It can be terminated only by a most vigorous and uninterrupted warfare."

Commercial Intelligence.

THE CATTLE TRADE.

Cable advices received at Montreal from London and Liverpool during the past few days report an improvement in the cattle market, more especially for choice beefs. This is probably owing to the falling off in Canadian exports of late. Freights on cattle are freely offered at \$4 to Liverpool and Glasgow, but shippers only offer £3 10.

BRITISH MARKETS.

LIVERPOOL, Oct. 21, 5 p.m.

	s	d	s	d
Flour, per cwt (100lbs)	14	6	17	0

White Winter	11	0	12	0
Club	11	10	12	6
Corn, new	5	0	11	0
Pork	50	0	0	0
Lard	35	9	0	0
Beef	80	0	0	0
Cheese	62	0	0	0
Barley	5	3	0	0
Oats, per cwt	6	8	0	0
Peas, per cwt	7	5	0	0
Bacon	33	0	34	0
Tallow	36	0	6	0

ANOTHER ADVANCE IN SUGAR.

Refiners have advanced the price of granulated sugar to 10c., and at that figure there is a brisk demand. There is also an active enquiry for refined yellows, the lowest grades of which bring 8c. each, being an advance of 1/2c since last week.

THE COTTON MARKET—AN ADVANCE.

A London cable says:—Advices from the United States have stimulated the Liverpool cotton market, and futures have rapidly advanced one quarter per cent. The market is active at the advance.

WORKING NIGHT AND DAY.

Parks' Cotton Mills run all day and late into the night. Both of the Nail Factories are running night and day.—St. John Sun.

THE ENGLISH WOOL MARKET.

LONDON, Oct. 23.—In the wool market a brisk inquiry is experienced and considerable purchases of English wools have been made for America at a penny per pound.

FOREIGN FRUIT MARKET.

Spanish advices by cable received here to-day report an advance of 25 per cent. on Malaga fruit, causing a corresponding advance in the Canadian market, and we now quote prices firm with an upward tendency.

THE N. P.

The sugar trade is lively at present. The Customs House is doing a rushing business. Truckmen and others are experiencing lively times. The West India merchants are making money as they have not made it for five years before. From the 16th inst. to the 21st inst., about two THOUSAND hogsheads of sugar were forwarded from this port to Montreal. A hundred hogsheads have been shipped to Boston. At this rate, the protective policy will not take even ten years to bring about Sir John's patriotic purpose—to say nothing of the "Chronicle's" twenty years.—Hx. Herald.

ADVANCE IN THE PRICE OF IRON.

A correspondent of the London "Standard" of Oct. 22, at Wolverhampton, says circulars are out from more iron manufacturers announcing a further advance in prices. Telegrams are coming in from Scotch and North of England shipbuilders and others ordering the immediate dispatch of heavy quantities of iron.

THE LONDONDERRY MINES.

We understand that the Londonderry Iron Works are again in full operation. The furnaces are in full blast, the rolling mill hard at work and business active in the several mines. We are informed that the Works will require 60 to 70 tons coke and an equal quantity of coal, from the Albion Mine, daily, to keep them going. The I. C. Railway has been obliged to "box up" a large number of flat cars, for hauling coke.

TRADE REVIVAL.

The most pleasing feature in the many evidences of a general revival of business chronicled in these columns during the past few weeks, is that the present activity in most of our trade departments arises from a legitimate and healthy consumptive demand. The cumbersome stocks of merchandise which accumulated in this country during the speculative era of 1874 and '75, and which weighed like an incubus upon the mercantile world, blocking up and stagnating every avenue of commerce, have been worked off, and we are now replenishing the limited supplies of many leading staples from our own factories which previously were manufactured abroad. This has undoubtedly added immensely to the business revival which obtains throughout the Dominion to-day, and which seems to be leading us on to still better times. The enforced economy which has been so rigidly practiced for the last four or five years, appears to be relaxing, and under a general restoration of confidence, people who have been curtailing their outgoings and without everything not virtually indispensable, are now commencing
