

Helium From Saskatchewan Is Latest Canadian Export

SWIFT CURRENT, Sask. (CP) Two hundred cylinders of helium, Canada's newest export, leave here this week for Australia. The gas was discovered in 1958 by a British American Oil Company crew, and is the only source, apart from the United States, in the free world. American helium is found mostly near Amarillo, Texas, is used almost entirely within the United States and what it is available for export is controlled by federal government regulations.

There are no such controls in Canada, with the result that G. Clayton Arthey, Canadian Helium's general manager, predicts a bright future for the commercial sale of Canada's helium. About 75 per cent of the plant's production will be exported. Canadian Helium was formed in 1962 by B.A. Oil, British Oxygen and l'Aire Liquide de Paris. Process design began immediately and pieces of the plant were prefabricated in Liquid Air's Montreal factory and shipped to Swift Current for construction.

A four-inch pipeline brings the gas under three miles of prairie for separation into helium, carbon dioxide and liquid nitrogen. Commercial markets for the liquid nitrogen have also been established, and the company says it hopes production will be able to keep up with demand. Most important feature of the gas is its richness—1.9 per cent as compared with 3 per cent in most wells in the United States. The percentage composition is one of the highest in the world.

PERMITS UP Discovery of helium has raised the interest of oil companies in the last two years and the Saskatchewan department of mineral resources reported last week that since 1961 the number of exploration permits in force in the area has increased to 50 from three. Thus far this year, bonus bids for exploration of private mineral sites in this part of the province have brought the provincial government \$2,700,000, and Resources Minister A.G. Kuzak calls the impetus generated by the helium discovery, "an exciting thing for Saskatchewan and Canada."

The space age has brought with it new uses for helium—in rocketry, advanced medical techniques, laboratory work and scientific studies. Mr. Smallwood, in an address at the official opening of a cooperative egg-grading plant at Peppercorn, near here, said the basic foods such as meat, eggs and poultry. N.B. French-Speaking Group Stiffens Attitude On Rights

By DAL WARRINGTON Canadian Press Staff Writer French-speaking New Brunswickers, about one-third of the province's population, give no outward support to Quebec's separatist movement but there are signs their attitude toward "French rights" is stiffening.

The opposition Progressive Conservative party, holding its annual meeting in Fredericton, heard pleas from French-speaking delegates for the protection of their "rights" in the legislature, the courts, the schools and the civil service.

Roger Savoie, a 23-year-old law student at the University of New Brunswick, introduced a resolution from the floor asking the party to consider making

such protection Progressive Conservative policy. Only one "nay" was reported when it came to a vote but there was some lively debate. Fred McLean, a member of the legislative from Carleton, said French is already spoken in the House when anyone wishes. KINGSBORO

Rev. Alvin Robertson, Aylesford, N.S., spent a few days with relatives in Kingsboro and was the guest speaker at both services Sept. 29 in Kingsboro and South Lake churches.

Miss Marilyn Dixon, daughter of Mr. and Mrs. Roy Dixon, Bothwell, has successfully passed her RN, examinations and has accepted a position on the staff of the P.E.I. Hospital, Charlottetown.

Mr. Daniel Murphy one of Elmira's senior citizens is undergoing treatment in the Souris Hospital.

Mr. and Mrs. Gordon MacLeod and daughter Ruth, Brookfield were Sunday visitors with Mrs. MacLeod's sisters, Mrs. Russell Garrett, Red Point and Mrs. Irving Baker, Lakeville, and her brother Ervin Robertson, Kingsboro.

Mr. and Mrs. Royston Muggford and family, Charlottetown visited recently at the home of Mr. and Mrs. Clinton Stewart, Kingsboro.

Mrs. Bruce Stevenson, has entered the Souris Hospital for treatment.

The Kingsboro Church Chorus presented a sacred musical program on Sept. 26th, which was enjoyed by a large audience. Both vocal and instrumental numbers were included. Brief messages were given by Fred Rose and Russell Garrett.

Miss Mary Strachan, Charlottetown visited recently in East Baltic, and with friends in Elmira.

Abel Robertson, Oshawa, Ontario arrived by plane to spend 4 weeks with his parents, Mr. and Mrs. John W. Robertson, Kingsboro.

Miss Jennie Stewart returned to Boston, Mass., after spending the summer at her home in Kingsboro.

Mrs. Robert Baker, Lakeville is recovering in the P.E.I. Hospital where she has had a patient after being transferred by ambulance from the Souris Hospital.

BRISTOL

Mr. and Mrs. Joseph Roach will move to the city residence for the winter months, to escape the severe weather and snow-filled country roads. Country folks will find city life expensive where their retirement cheques will not go so far.

Years ago when the hunting season got underway trappers considered it good if they caught one racoon in the season. The fishing season is coming to a close now and most of the fishermen do not have fish for their own winter use. There is no such thing as the good old dry fish anymore, and mackerel bring three cents each do not pay the fishermen for going after them.

Most of the fishermen have become carpenters, working one farmer in this vicinity grows a nice field of tobacco this season. It was on high ground and had more protection from the frost.

Mr. Harry McEwen was in the city last week on business.

TOOK DAY OFF George Washington is credited with being the first U.S. president to proclaim Thanksgiving Day a national holiday.

Mr. and Mrs. Lauric Bertz, Fredericton were Sunday visitors with relatives in this area. They were guests of Mr. and Mrs. Wallace Rose, East Baltic.

Chester Bruce, Kingsboro left recently on return to Toronto, Ont. after spending the summer at his home here.

Mrs. Alice Ladner and family, Charlottetown were recent visitors with her mother Mrs. Reggie Rose and Mr. Rose, Kingsboro.

Miss Hilary Muggford, Montserrat, N.B. visited briefly at the home of Mr. and Mrs. Clinton Stewart, Kingsboro.

George E. MacDonald, Charlottetown was a recent visitor with friends in Kingsboro. He also visited his sister Mrs. Anne Paquet who is a patient in the Souris Hospital.

Mr. and Mrs. Philip Robertson, Charlottetown were recent visitors with relatives in Kingsboro.

'64 CHEVY II

STYLISH PRACTICALITY

WITH V8*GO

Just one look says here's a car that fairly bubbles with style. Practical? See for yourself! Just load in five hefty friends, and their luggage. Then take the wheel. Chevy II offers a real boom on room, corners like a dream, parks on far less than a dime's worth of space. When it comes to go, the 4- and 6-cylinder engines are packed with seat—and as for the optional 195-hp Turbo-Fire 283 V8... well, just try it!

SELF-INDULGENT SAVINGS

Want your savings served in style? With a dash of extra spice thrown in for good measure? You get the most with Chevy II. Why, even the savingsest Chevy II of 'em all, the budget-conscious Chevy II 100, pulls all the most-wanted features at your beck and call... check 'em and see. Comfort-giving goodies such as dual sun visors, independently-operated outside-air ventilators, foam-cushioned front seats in wide spacious interiors. But the savings go way beyond that. Whether you choose the penny-saving Chevy II 100 or the top of the line Nova, you save when you buy, save when you drive. And Chevy II has traditional Chevrolet trade-in value! Both purses and people are pampered with Chevy II.

*A maximum performance extra-cost option!

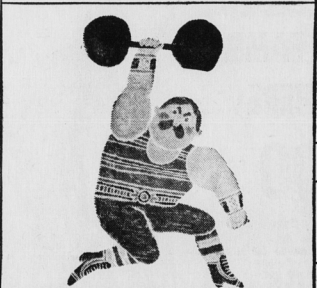

A GENERAL MOTORS VALUE Chevy II 100 3-Door Sedan Be sure to see Bonanza on the CBC-TV network each Sunday. Check your local listing for channel and time. ISLAND CHEV. - OLDS. LTD. Fitzroy Street DIAL 894-6577

POWER TEAMS APLENTY

Choose from three brands of Chevy II go: a standard Four (Chevy II 100 Sedans only), a Six and a V8. Each, including the V8 with its strapping 195 hp, is a Scrooge on regular gas. 3-speed Synchro-Mesh transmission is standard, Powerglide* automatic a great option, and for the dashing—a 4-Speed* floor shift available with the V8.

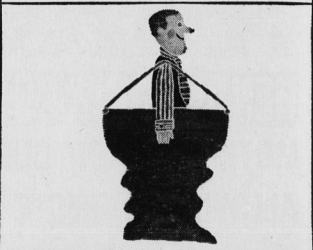

MIGHTY PHYSIQUE

How's this for toughness? Unitized all-welded Body by Fisher bolts solidly to the single-unit front end. Tight as a drum. (And who ever heard a drum squeak?) Rigidity is exceptional. Resultant low weight gives better power response. One-piece front fenders unbolt for easy replacement. Doors are sealed to keep out dust, moisture and wind.

DELIGHTFUL DURABILITY

Inside, Chevy II's interiors are virtually stain proof! Just wipe the vinyl with a damp rag, the fabric with cleaner and voila! Outside, flush-and-dry rocker panels, the latest in rustproofing. Together, they'll keep your Chevy II neat and nifty.

WONDERFUL WORLDS OF SPACE

Pick the peeks you'd like to pack and put 'em in a Chevy II. You can road more mileage with every one. And for even greater load-toting ability see the trim Chevy II 100 or Nova station wagon!

BUDGET WATCHERS

Chevy II pinches pennies on the go and waiting for you at the curb! Built to last with long-life exhaust system, Delectron generator, larger self-adjusting Safety-Master brakes. Try Chevy II!

REMEMBER A CHEVY II IS A CHEVY TOO!
