

Old Saws in Rhyme.

Actions speak louder than words ever do; You can't eat your cake and hold on to it, too. When the cat is away, then the little mice play; Where there is a will there is always a way. One's deep in the mud as the other in mire; Don't jump from the frying-pan into the fire. There's no use crying over milk that is spilt; No accuser is needed by conscience of guilt. There must be some fire wherever there's smoke; The pitcher goes off to the well till it's broke. By rogues falling out honest men get their due; Whoever it fits, he must put on the shoe. All work and no play will make Jack a dull boy; A thing of no beauty is ever a joy. A half loaf is better than no bread at all, And pride always goeth before a sad fall. Fast bind and fast find, have two strings to your bow; Contentment is better than riches, we know. The devil finds work for hands idle to do; A miss is as good as a mile to you. You speak of the devil, he's sure to appear; You can't make a silk purse from out of sow's ear. A man by his company always is known; Who lives in a glass house should not throw a stone. When the blind leads the blind both will fall in the ditch; It's better born lucky than being born rich. Little pitchers have big ears; burnt child dreads the fire; Though speaking the truth, no one credits a liar. Speech may be silver but silence is gold; There's never a fool like the fool who is old. -Detroit Free Press.

WHAT AILS YOU?

Do you feel dull, languid, low-spirited, listless, and insupportably miserable, both physically and mentally; experience a sense of fullness or bloating of the stomach in the morning; tongue coated, bitter or bad taste in mouth, irregular appetite, dizziness, frequent headaches, blurred eyesight, "floating spots" before the eyes, nervous prostration or exhaustion, irritability of temper, hot flushes, alternating with chilly sensations, constipation, biting, transient pains here and there, cold feet, drowsiness after meals, wakefulness, or disturbed and unrefreshing sleep, constant, indescribable feeling of dread, or of impending calamity? If you have all, or any considerable number of these symptoms, you are suffering from that most common of American maladies—Bilious Dyspepsia, or Torpid Liver, associated with Dyspepsia, or Indigestion. The more complicated your disease has become, the greater the number and diversity of symptoms. No matter what stage it has reached, Dr. Pierce's Golden Medical Discovery will subside it, if taken according to directions for a reasonable length of time. If not cured, complications multiply and Consumption of the Lungs, Skin Diseases, Heart Disease, Rheumatism, Kidney Disease, or other grave maladies are quite probable to set in, and sooner or later, induce a fatal termination. Dr. Pierce's Golden Medical Discovery acts powerfully upon the Liver, and through that great blood-purifying organ, cleanses the system of all blood-taints and impurities, from whatever cause arising. It is equally efficacious in acting upon the Kidneys, and other excretory organs, cleaning, strengthening, and healing their diseases. As an appetizing, restorative tonic, it promotes digestion and nutrition, thereby giving vigor to both flesh and strength. In malarial districts, this wonderful medicine has gained great celebrity in curing Fever and Ague, Chills and Fever, Dumb Ague, and kindred diseases. Dr. Pierce's Golden Medical Discovery CURES ALL HUMORS, from a common Itch, or Eruption, to the worst Scrofula, Salt-Rheum, "Fever-sores," Scaly or Rough Skin, in short, all diseases caused by bad blood are conquered by this powerful, purifying and invigorating medicine. Great Eating Disorders rapidly heal under its benign influence. Especially has it manifested its potency in curing Tetters, Bozems, Erysipelas, Bolls, Carbuncles, Sore Eyes, Scrofulous Sores and Swellings, Hip-Joint Disease, "White Swellings," Gout, of Throat, Neck, and Enlarged Glands. Send ten cents in stamps for a large Treatise, with colored plates, on Skin Diseases, or the same amount for a Treatise on Scrofulous Affections. "FOR THE BLOOD IS THE LIFE." Thoroughly cleanse it by using Dr. Pierce's Golden Medical Discovery, and good digestion, a fair skin, buoyant spirits, vital strength and bodily health will be established. CONSUMPTION, which is Scrofula of the Lungs, is arrested and cured by this remedy. If taken in the earlier stages of the disease, from its marvellous power over this terribly fatal disease, when first offering this now world-famed remedy to the public, Dr. Pierce thought seriously of calling it his "CONSUMPTION CURE," but abandoned that name as too restrictive for a medicine which, from its wonderful combination of tonic, or strengthening, alterative, or blood-cleansing, anti-bilious, febrifugal, and nutritive properties, is unequalled not only as a remedy for Consumption, but for all Chronic Diseases of the Liver, Blood, and Lungs. For Weak Lungs, Spitting of Blood, Shortness of Breath, Chronic Nasal Catarrh, Bronchitis, Asthma, Severe Coughs, and kindred affections, it is an efficient remedy. Sold by Druggists, at \$1.00, or Six Bottles for \$5.00. Send ten cents in stamps for Dr. Pierce's book on Consumption. Address, World's Dispensary Medical Association, 605 Main St., BUFFALO, N. Y.

Rules for Building Barns.

These buildings are often erected very much at random, and without a careful estimate of their needs, and with an imperfect knowledge of any useful details. The following twenty brief rules, if observed, would often save money, meet requirements, and afford conveniences, although others might be added: 1. In the first place, ascertain what will be wanted in the proposed barn. 2. Calculate the room required for hay at 609 cubic feet on an average for a ton, and nearly the same for the unthreshed grain. 3. Determine granary room by allowing one and a quarter cubic feet to the bushel in the bins. 4. For cattle and horse stalls, allow for stalls at least three and a half or four feet wide for cattle, and five feet for horses; and fourteen feet for entire length including passage manglers. 5. Then provide room for hay and grain bags, space for straw, a-a for threshing floor, room for tools and horse-power, size of granary, entire space for cow and horse stables, root cellar, silo, and manure sheds. 6. In arranging all these, place the threshing floor convenient to the grain bays, and the granary contiguous to or below them; the feed rooms, roots, meal or ensilage, on a level with and near the animals; and give heavy products the first place for convenient position. 7. Provide for good working space for horse forks, and hay carriers. 8. Having thus laid the general plan, select if practicable gradually sloping ground for the barn so as to give ready access to the stables, cellars, etc., below, on one side; and to the principal floor above, by a slight embankment, on the other side, for ready access of wagons. 9. Every barn should be at least a two story one, the basement may include cattle stables, sheep pens, root cellar, cistern, water-troughs, soil and area for manure. 10. The next story above may have central floor for drawing in crops, tool rooms, horse stalls, granary, harness room, including horse power. 11. Chutes should be provided for throwing down hay from the second or third story to the animals below. 12. All barns should have good eye-troughs connected with spacious under-ground cisterns, if water is needed. 13. A space of a foot between the basement walls and the earth outside, filled with broken stones or coarse gravel, will effect good drainage down to the drain below, and prevent heaving of the walls by frost. 14. Every granary should be graduated inside, so as to show at a glance the number of bushels it may happen to contain at any time. This graduation may be quickly made at any time by multiplying the cubic feet by 45, and dividing by 56.

Mr. George Johnston, of Ottawa, the Dominion statistician, has written the following note on a matter at once of local and national interest. He writes to "Laetide" in the Montreal Gazette: "The growth of Canadian cities has been the subject of congratulation during the past week, consequent upon the census recently taken by the authorities of Toronto, which city has now a population of 167,000. Compared with the figures of the census of 1881, this is an increase of 8.6 per cent., taking into account the annexed towns and villages. Opportunely comes an estimate of the populations of several cities in the United States based upon the vote cast at the recent Presidential election. Comparing the increase of Montreal and Toronto with that of the several cities of the United States, we find no reason for the belief some entertain that Canada would do better as part of the American Union than she has done by preserving her own identity and 'padding her own canoe.' The comparison shows the following relative yearly increases during the past seven years: Toronto, 11.5 per cent.; Montreal, 6.5 per cent.; Baltimore, 6.6 per cent.; Chicago, 6.1 per cent.; Buffalo, 5.0 per cent.; Cleveland, 4.6 per cent.; San Francisco, 5.0 per cent.; Boston, 2.4 per cent.; Philadelphia, 2.4 per cent.; New York, 3.1 per cent.
