LADIES' NAMES.

There is a strange deformity,
Combined with countless graces,
As often in the ladies' names
As in the ladies' faces.
Some names are fit for every age,
Some only fit for youth,
Some passing sweet and musical,
Some horribly uncouth;
Some fit for dames of loftiest grades,
Some only fit for scullery maids.

Ann is too plain and common,
And Nancy sounds but ill;
Yet Anna is endurable,
And Annie better still;
There is a grace in Charlotte,
In Eleanor a state;
An elegance in Isabelle,
A haughtiness in Kate;
And Sarah is sedate and neat,
And Ellen innocent and sweet.

Matilda has a sickly sound,
Fit for a nurse's trade;
Sophia is effeminate,
And Esther sage and staid;
Elizabeth's a mtachless name,
Fit for a Queen to wear—
In castle, cottage, hut or hall,
A name beyond compare;
And Bess and Bessie follow well,
But Betsey is detestable.

Maria is too forward,
And Gertrude is too gruff,
Yet coupled with a pretty face,
Is pretty name enough;
And Adelaide is fanciful,
And Laura is too fine,
And Emily is beautiful,
And Mary is divine;
Maud only suits a high-born dame,
And Fanny is a baby name.

Eliza is not very choice,
Jane is too blunt and bold,
And Martha somewhat sorrowful,
And Lucy proud and cold;
Amelia is too light and gay;
Fit only for a flirt;
And Caroline is vain and shy,
And Flora smart and pert;
Louisa is too soft and sleek,
But Alice gentle, chaste and meek.

And Harriet is confiding,
And Clara grave and mild,
And Emma is affectionate,
And Janet arch and wild;
And Patience is expressive,
Aud Grace is old and rare,
And Catherine warm and dutiful,
And Margaret frank and fair;
And Faith and Hope and Charity
Are heavenly names for sisters three.

THE MORMONS.

A letter from a Mormon citizen to an American paper states:—"Ten thousand saints have been added to the settlement during the season. Merchandise is plenty, and held at high rates; leather and some other manufactories have been established; a full set of beet sugar machinery, direct from France, had arrived, accompanied by practical operatives; many new buildings had been constructed, harvests had been very productive and abundant. So far for mere temporal matters. The theological or spiritual news is far more important. A new era seems to be dawning upon mankind, or perhaps, we should say womankind. Lieut. Gunnison, in his work upon Mormons, which should be read by every body, told us that in 1843, Joseph Smith, the prophet, had a revelation in reference to the Mormon system of plurality of wives, or "marriage for time and eternity." This revelation was made to the prophet Joseph, but its publication was interdicted, until another revelation should be given to the chief seer of the Mormon church. That interdict, it seems, has been taken off; for Governor Brigham Young, in the presence of 2,500 saints and sinners, in the great tabernacle of the "chosen people," proclaimed the law of marriage; and then, with that vigor which has characterized the Mormon conquest at Salt Lake, sent out to the heathen lands of Europe, Asia, Africa, Australia, the West Indies, the Pacific Islands, and the old United States, one hundred missionaries. Professor Orson Pratt has been given the charge of the States, east of the Rocky Mountains, and particularly to convert all the ladies to the beauties of the plurality system of marriage."

THE TELEGRAPH LINES OF THE WORLD UP TO 1853.—The extent of telegraphic communications, completed and in operation throughout the world, at the beginning of the present year, may be esitimated as far as can be gathered from the returns, at nearly 40,000 miles. Of this amount there were nearly 4,000 miles in Great Britain, of which 100 miles only were underground, with about 400 or 500 miles in course of construction England, Scotland, and Ireland, and as many more projected. In America there were 20'000 miles of telegraph completed and in operation, with 10, 000 more in process of construction. Russia has just commenced her system of telegraphs between St. Petersburg, Moscow, and Cracow, and the ports of the Baltic and Black seas. About 4,000 miles are about to be constructed in India. The only unsupplied portions, that will soon present themselves on a telegraphic map of the world, will be Australia, Africa, and China.

A well known Metropolitan printer, speaking of the advantages of the "art preservative of all arts," says—On one occasion an old woman from the country came into his printing office with an old Bible in her hand. "I want," said she, "that you should print it over again. It is getti'n a little blurred, sort of, and my eyes isn't wot they wos. How much do you ax?" "Fifty cents." "Can you have it done in half an hour?—wish you would; want to be gettin' home; live good ways out of town." "Certainly." When the old lady went out, he sent round to the office of the American Bible Society, and purchased a copy for fifty cents. "Lor' sakes a-massy!" exclaimed the old lady, when she came to look at it, how good you've fixed it!—it's e'en-a most as good as new! I never see nothin' so curious, as what printin' is!"

PROSPECTUS OF THE Charlottetown Gas Company.

PROVISIONAL COMMITTEE:

Hon. DANIEL BRENAN, Chairman;

Hon. Charles Young,	Hon. W. W. Lord,
Hon. Charles Hensley,	Hon. Joseph Pope,
Francis Longworth, Esq.,	James Walkinshaw, Esq.,
Mr. James Anderson,	Henry Haszard, Esq.,
Hon. George Birnie,	Mr. George Beer,
James D. Haszard, Esq.,	George DeBlois, Esq.

THE superiority and advantages of Gas over every other method yet discovered for lighting Towns are so self-evident and so universally acknowledged, that it would be superfluous to dilate on the subject; and it is only surprising that, while every Town and considerable Village in Great Britain, as also many Towns in the neighbouring Provinces, are lighted by Gas, this, the Capital of Prince Edward Island, should be still in darkness.

To supply this desideratum, it is now proposed to form a Joint Stock Company—to be Incorporated by an Act of the Legislature—with a subscribed Capital of £6000, in 1200 Shares, of £5 each, to be managed by a body of Directors, annually chosen by the Shareholders.

As many of the inhabitants of Charlottetown may be comparatively unacquainted with the practical results of Gas Companies, it may be proper to observe, that a Joint Stock Company for the purpose of lighting the Town with Gas, can hardly be called a *speculation*; because it is now ascertained, by reference to the annual Reports and Dividends of the Gas Companies of Great Britain, and some of the neighbouring Colonies, that wherever they have been managed with ordinary prudence and economy, they have yielded a certain and steady return of annual interest on the capital invested.

Previous to bringing the scheme before the public, the Provisional Committee had been in correspondence with competent parties, both in the neighboring Provinces and in Great Britain, and from the information thus obtained, and the estimates they have received, they are of opinion that the Land, Buildings, Apparatus, Machinery and Pipes requisite to enable the Company to go fully into operation, may be acquired and completed for and with the proposed capital.

To enable the Company to commence operations at once, and on the most advantageous terms, it has been resolved that a deposit of £1 5s. per share be paid on the allocation of shares, and that no further call be made, till the Act of Incorporation be obtained; and that such further calls shall be payable by such instalments, and at such intervals, as the Directors may judge most convenient for the Shareholders and the requirements of the Company.

Although certain spirited individuals were prepared to subscribe the whole of the requisite Capital, it is deemed but fair to give the public an opportunity of participating in the advantages of the undertaking; and for this purpose the Subscription List will remain open at the Office of Mr. LAWSON, Interim Secretary to the Committee,—more than one-half of the Shares being already subscribed.

JOHN LAWSON, In. Secretary.

February 3, 1853.

In addition to its greater economy, Gas Light may also be pronounced safer than any other ordinary Light. It produces no sparks—it cannot be carelessly placed in contact with bed curtains, or substances easily ignited, and it requires scarcely any attention. It may be turned down in an instant to the most minute speck of flame, ready to be restored to full brilliancy when necessary, by the simple turning of the stop cock; and even when it escapes by the carelessness of an attendant, or a defect in the fittings, it at once indicates the accident to the whole household, by the disagreeable smell which it occasions.

From the large quantity which must be mixed with atmospheric air before it becomes explosive, it is scarcely possible that this accident should occur, in any ordinary apartment, even if the Gas were allowed to escape for the purpose. And as its smell so instantly indicates its presence in cellars, or other confined situations, where it may have escaped in quantity from the accidental breaking, or leakage of a pipe, it is only by the greatest carelessness, or ignorance, that a light will be approached to it, before it has been allowed to escape by the free admission of air. There is no such thing as the bursting of a pipe, or the blowing up of a Gasometer.

RELATIVE EXPENSE.—The relative cost of Gas has been generally considered not to exceed one-third to one-half the cost of tallow candles.

EMIGRATION TO AUSTRALIA! Shares in the Emigrating Company of P. E. Island.

THE Committee of Management of the "Emigrating Company of Prince Edward Island," having, in accordance with the power and authority vested in them, concluded an agreement with an able and experienced Ship-builder, (Mr. Francis Auld of Rustico,) in virtue of which Agreement he is bound to build, for the said Company, a good, substantial, and sufficient vessel, of about 200 tons burthen, to be launched on, or before the 1st September, 1853, and which vessel, it is calculated, will be ready to sail from P. E. Island, for a Port in Australia, on or before the 1st OCTOBER, 1853; and all the SHARES in the said Company not having yet been subscribed for, or taken up, Do hereby give notice, that *Copies of the Articles of Agreement* are left with MR. STEPHEN BOVYER, of Charlottetown, MR. WM. McKAY, of Cavendish, and MR. O. CURTIS, of Curtisdale, who will, each, afford all necessary information concerning the objects of the said Company; and who have power, individually, to dispose of Shares in the said Company, to a certain limited extent, to such individuals as may apply for them, and are, at the same time, prepared to comply with, and abide by, the Rules and Articles of the said Company.

N. B.—It is expected that all who may wish to take any part of the unappropriated SHARES, will perceive the propriety of securing them without delay; for the sooner the Subscription List of the Company shall be filled up, the sooner will it be practicable to expedite and complete all the arrangements necessary to ensure the departure of the Company's Vessel from P. E. Island at the appointed time in the Fall.
