

Production Is Shaking Annual Slump

CLEVELAND (AP) — Steel production is shaking off its usual summer slump and starting to climb, with the automobile industry leading the way, Steel says.

"Production in early August is higher than it has been for the like period in any year except 1965, when strike hedge stocking was an artificial stimulant," says the metalworking weekly published Sunday.

Walter J. Campbell, the magazine's president, commenting last Wednesday on price increases by leading steel firms, said it would have only a modest effect on the cost of consumer products. He estimated increases would add "only \$1.50 to the cost of steel in an average automobile."

Production of ingots and castings in the week ended Aug. 6 was estimated at 2,430,000 net tons, compared with 2,644,000 tons in the same week last year and 2,300,000 tons in 1964.

"On the foreign steel market, the magazine says six-month imports this year totalled 4,629,904 tons, a six-per-cent drop from 4,938,361 tons in the first half last year.

Steel's composite price on No. 1 heavy melting scrap dropped 17 cents last week to \$30.85 a gross ton.

Six U.S. Planes Are Shot Down

By ROBERT D. OHMAN SAIGON (AP) — American authorities announced Communist ground gunners shot down six U.S. planes over North Viet Nam Sunday, equalling a record they set Aug. 13, 1965. Then the gunners put up a hail of anti-aircraft fire to ward off rescue helicopters.

Peking's New China news agency declared in a dispatch from Hanoi that seven planes were shot down and some of the pilots were captured. Of the eight pilots involved by American count, only two were known to have escaped.

A military spokesman said three of the other five were seen to fall out, but no parachutes were seen for the rest.

Most of the action came within a 50-mile radius of Hanoi.

The destruction of the planes came after a week of no losses. The total announced, lost over the north rose to 325.

Although ground action was reported light, U.S. headquarters disclosed the beginning of a new sweep in the far north by several thousand American and South Vietnamese marines.

The new operation, code-named Colorado, began Saturday in Quang Tin province, 30 miles northwest of the big marine camp at Chu Lai. The South Vietnamese marines almost immediately ran into a Communist battalion of perhaps 800 men and, in a two-hour fight, killed 71 and captured 27. Ten miles ahead of the advancing task force, Guam-based B-52 bombers rained down 750-pound bombs Sunday in the path of the Communists.

Farther north, a U.S. marine spokesman said, Viet Cong terrorists massacred 10 Vietnamese civilians in the village of Cam Van because they refused to co-operate with the Communists.

President Has Replied To Criticism

MONTREAL (CP) — H. K. Macdonald, president of the Canadian Highway Safety Council, has replied to criticism from the Quebec Automobile Club that he seemed to be defending the automobile manufacturers.

The club had said in a communique that in several statements concerning car safety, Mr. Macdonald had taken a position against what it called a current campaign to make car manufacturers build safer cars.

Mr. Macdonald said in an interview that he fully agreed with the club's drive for safe cars.

"The council has always encouraged the use of safety belts and of all other items likely to reduce the consequences of an accident," he said.

The controversy had arisen, he said, because of what he called the "second accident," or the impact of the persons inside a car when the car hit another object.

"Although we favor the use of techniques which would assure greater safety in automobiles, we believe that the greatest effort must be made to avoid the first accident, the one involving the vehicle and an outside element."

WINS VOTE
NEW DELHI (Reuters) — Prime Minister Gandhi won 267 of 614 votes of confidence in the lower house of Parliament Thursday. It was the first non-confidence vote since Mrs. Gandhi became prime minister six months ago. A Communist motion accused the government of selling out to the U.S. and eroding India's independence, dignity and political morality.

DIED OUT FAST
The passenger pigeon, now extinct, was probably the most common bird through most of the U.S. and southern Canada east of the Great Plains 200 years ago.

EATON'S TUESDAY IS
