

A SMART YOUNG WOMAN.—A large manufacturing company in Chicago employs a young lady only thirteen years of age as paymaster. She has paid out since last May a quarter of a million of dollars, keeping the time sheets, pay roll, and a private account-book with and for each of the three or four hundred men employed. She receives the money weekly from the bank to the amount of 4,000 dollars to 5,000 dollars, carries the transaction of paying all the men through, and settles and makes her balances with the cashier. She knows every man in the establishment, the force being divided into eleven departments, each having its responsible foreman. She commands a salary of 625 dollars per annum, takes two music lessons each week, and attends an evening course at a commercial college, where she has a scholarship. Nor does this produce any strain of her intellect. She is in the most robust and vigorous health, never has a day's sickness, and stands ten hours each day at her desk.

CHARLOTTETOWN LITERARY AND DEBATING SOCIETY.—The adjourned debate on the question of the propriety of granting Bounties, took place, pursuant to notice, on Friday evening last. The attendance was not so large as on the previous evening, but there was, notwithstanding, a very interesting discussion. Nearly every one present appeared to be in favor of granting a Bounty, and, at the close of the meeting, the following Resolution was put and carried:—

Resolved, That, in the opinion of this meeting, the granting a Bounty for the encouragement of the Mackerel Fishery should meet with the approval of our Legislature.

The next meeting will be held in the Infant School Room on Friday evening, 29th inst., at 8 o'clock. Subject for debate—"Which is the more happy—a barbarous or a civilized man?"

P. S. MACGOWAN, Sec'y.

OCEAN TELEGRAPH.—We are promised plenty of competition in the matter of electro-telegraphic communications between Europe and America. Although the French capitalists do not seem to move on with their Brest and New York Company, there are three other companies in course of formation. They are, 1st, "The American Atlantic Cable Telegraph Company," the capital of which is one million sterling, the head-quarters being at New York, and which will join Cape St. Charles and Lisbon by the Bermudas and the Azores, a distance of 3,227 miles; 2nd, "The Ocean Telegraph Company," established in England, to join Falmouth and Halifax, a distance of 2,500 miles, capital six hundred thousand pounds; 3d, "The North American Telegraph Company," 1,950 miles long, to join the coast of Scotland with Canada, by the Faroe Islands and Labrador. These companies will be enabled to profit from the experience gained by that which carried out the first great undertaking, and will therefore save both time and money. The inevitable consequence must be a great reduction from the present enormously high tariff of electric messages.

STRONG LANGUAGE.—President Johnson's Washington evening organ said recently of the Administration:—

"If necessary, its strong and iron hand will be invoked to stay the course and prevent the consummation of radical treason. The great oath of the President to protect and defend the constitution will not be forgotten, and the people who sustain him with their 500,000 majority of the voting population, north and south, will not forget him. Events have already brought the government to the very verge of another revolution. If the radical majority in Congress pursues its treasonable course much longer, the government, in order to sustain itself, will have to arm its supporters. At the call of the President all his friends, north and south, and the army and navy will respond. In such a contest the issue cannot be doubtful. Congressmen may be valiant fighters on the floor of Congress, but when they come to lead their consorts into the field it is another thing. The real armies and great soldiers of the republic will be found fighting under the flag. We advise the opposition of the determined and fixed fact that Andrew Johnson will serve out his constitutional term of office."

A MILLION DEATHS FROM FAMINE IN EASTERN INDIA.—Under the above startling heading the *Friend of India* of Nov. 29 has the following:—

"Mr. T. Ravenshaw, Commissioner of Orissa, has sent the Bengal Government a report of the famine in that Province. Never has so heartrending a picture been drawn. An official whose bias, if it exists, must lead him to tone down the horrible facts estimates the loss of life from want of food and its consequences at from 500,000 to 600,000, and in some places at three-fourths of the whole population. This is among the four and a half millions of Orissa alone, where the official reports show the deaths to be still going on at the rate of 160 a day.

The mortality was not less severe proportionally in the adjoining district of Midnapore, with its population of half a million. In Ganjam, with nearly a million of people, the calamity was comparatively light, but famine, disease and debility swept away thousands. The same is true of Chota Nagpore. We have a reliable record of the deaths of paupers from famine stricken districts in Calcutta. Add to all these the mortality in the other districts of Bengal from Saugor Island to Patna and the borders of Nepal, and we have a record of the loss of life which exceeds in horror and extent that of any one of the six great droughts of India during the last century. Before the destroying angel takes its final flight the tale will have mounted up beyond a million known deaths."

THE PAPAL CROWN.—There are four Pontifical tiaras or triple crowns. One the gift of Napoleon I. to Pius VII.; it weighs 8lbs. avoirdupois, and is worth £10,000 sterling; the second dating from the pontificate of Gregory XVI., and worth only £40; the third presented by the papal guard to Pío Nono, and estimated at the value of £900; the fourth the grandest and richest of all, being a present made to the Pope in 1854 by Isabella of Spain, and valued at \$35,000, or over £21,000 English. It contains no fewer than 18,000 diamonds.

INQUESTS.—On Thursday last, at the Lunatic Asylum, before John McNeill Esq., one of the Coroners for the County, an inquest was held on the body of Philip Moran, Pensioner, late of Royal Newfoundland Company—admitted to the Asylum on Monday last, he died there on the following Wednesday. Verdict—Died of Delirium Tremens, and inflammation caused by excessive drinking of spirituous liquors.

A Large Bear, weighing over 400 lbs., was killed about ten days since, at Egmont Bay.—The carcass was sold in Summerside last week. The fat on it measured five inches in thickness. Good feed for bears up there.—*Is.*

An inquest was held before Dr. Beer, one of the Coroners for the County, on Wednesday, the 6th inst., on the body of Mary Nayer, of Winslow Road who was found dead in her house on the night previous. Verdict—Death from visitation of God.—*Is.*

The Ship David Cannon, Michael Walsh, Master, from Mobile, arrived in Liverpool, England, in 32 days—the quickest passage on record, the distance, run being 5,600 miles.—*Is.*

Holloway's Pills.—When first the nerves feel unstrung, and listlessness supplants energy, it is the right time to take some alternative, as Holloway's Pills, to prevent disorder running into disease. These excellent Pills correct all irregularities and weakness. They act so kindly, yet so energetically on the functions of digestion and assimilation, that the whole body is revived, the muscles become firmer and stronger, and the nervous and absorbent systems are invigorated. These Pills are suitable for all classes and all ages. They have a most marvellous effect on persons who are out of condition; they soon rectify whatever is in fault, restore strength to the body, and confidence to the mind.

Thanks to Mrs. Winslow's Soothing Syrup, we have been relieved from sleepless nights of painful watching with poor, suffering, teething children. It gives not only rest, but vigor and health—the little fellow will wake up bright, cheerful and refreshed—softens the gums, cures wind colic, and regulates the bowels.

The good reputation and extended use of Brown's Bronchial Troches for Coughs, Colds, and Throat Diseases has caused the Troches to be extensively imitated. Obtain only the genuine Brown's Bronchial Troches, and do not be influenced by those who make more profit by selling worthless imitations.

Cholera.

Mr. PERRY DAVIS—SIR: The benefits I have received from the use of your invaluable remedy, the Pain Killer, induces me to pen a word in its praise. Experience has convinced me that for Headache, Indigestion, Pain in the stomach, or any other part of the system, severe chills, Weariness, common Colds, Hoarseness, CHOLERA, CHOLERA MORBUS, Diarrhoea, Dysentery, Toothache, etc., THERE IS NOTHING BETTER THAN THE PAIN KILLER. I have this hour recovered from severe attack of the Sick Headache, by using two tea spoonfuls, taken at thirty minutes interval, in a wine glass full of hot water. I am confident that, through the blessing of God, it saved me from the cholera during the summer of 1843. Travelling amid heat, dust, soil, change of diet, and constant exposure to an infected atmosphere, my system was daily predisposed to dysentery attacks, accompanied with pain, for which the Pain Killer was a sovereign remedy, one teaspoonful curing the worst case in an hour, or, at the most, half a day! I have heard of many cases of Dysentery being cured by its use. Gratitude, and a desire for its general use, has drawn from me this unsolicited testimonial in its favor.

At the Manse, on Wednesday evening, the 20th inst., by the Rev. W. R. Frame, Mr. James E. Poole, of Summerside, to Frances, second daughter of Mr. John Small, of Wilmot Creek.

At the Head of St. Peter's Bay, by the same, on the 12th inst., Mr. James Atken, to Miss Sophia Dingwell, both of Bay Fortune.

DIED.

At Summerside, on the 13th inst., after a few days illness, of measles, Agnes Anastasia, youngest daughter of Mr. James Brazil, aged 17 months.

On the 12th Dec. 1866, after a lingering illness Ann, the beloved wife of Thos. Campbell, Bras, Lot 9, aged 43 years.

At Charlottetown, on the 11th inst., of dropsy, Mr. William Godkin, aged 43 years.

Of brain fever, in the 26th year of her age, Anna, sixth daughter of Alexander Hayden, Esq., Hillsboro' River.

At Port Hill, on the 21st ult., deeply and deservedly regretted by a large circle of relatives, friends and neighbors, to whom she was justly endeared on account of her meek, amiable and Christian disposition, Anna, relict of the late Michael Ramsay, of Port Hill, aged 77 years. The deceased was a member of the Presbyterian Church. She leaves three sons and six daughters to lament the loss of a loving and affectionate parent. But "they weep not without hope," for they enjoy the blessed consolation that although she is now "absent from the body," she is "present with the Lord," having exchanged the sorrows of time for the joys of eternity.

Ayer's Cherry Pectoral.

Is a soothing expectorant, prepared to meet the urgent need of a safe and reliable cure for diseases of the throat and lungs. A trial of many years has established the fact, that it is more efficacious in pulmonary affections, than any other remedy. Its efficacy has now become so generally known, that it is justly regarded in many countries as a medicine of indispensable necessity. In Great Britain, France, and Germany, where medical science has reached its highest perfection, it is prescribed in domestic practice, and constantly used in the armies, in hospitals and other public institutions, where it is regarded by the attending physicians as the most speedy and agreeable remedy that can be employed. Scarcely any neighborhood can be found where well known cases of diseased lungs, which had baffled the efforts of the most skillful and experienced doctors, have been permanently cured by it. These results are the most convincing proofs of the superior curative properties of this preparation; and to them the authors point with peculiar satisfaction. While it is most powerful against confirmed diseases it is extremely gentle as a medicine in infancy and youth, being quite harmless to even the youngest, when administered judiciously.

This health-restorer accomplishes even more by prevention than cure. If taken in season, it wards off irritations of the throat and lungs, whether arising from Colds or Cough, or from other causes, and thus prevents that long train of painful and incurable diseases, which would arise from the neglect of them. Hence no family should be without it. Influenza, Croup, Hoarseness, Whooping Cough, Pleurisy, Incipient Consumption, and other affections of the breathing organs, give way before this pre-eminent combination of medical virtues.

Prepared by Dr. J. C. AYER & Co., Lowell, Mass., and sold by all Druggists and dealers in medicine everywhere.
