Work on third degree. Brethren of Sister Lodges cordially invited to attend. Two boys, charged with fighting in the Market House last Tuesday, were the only cases at the Stipendiary Magistrate's Court this morning. They were fined fifty cents each. THE sale of Books, Frames and Fancy Goods will be continued at the Diamond Bookstore this evening, and continued each week night (Saturday excepted) until further notice. THE annual influx of commercial travellers has set in. Upwards of a dozen of these gentlemen crossed in the Northern Light yesterday, and arrived in town per express train this morning. THE Temperance Alliance will meet at 4 o'clock to-morrow, Saturday, afternoon, in the Y. M. C. A. Hall. All clergymen are members of the Alliance ex officio.—F. W. HALES, President. MR. W. A. NOONAN, of Summerside, has accepted the trotting challenge of Mr. Arsenault. He protests against trotting on the Wellington ice, and would prefer having the affair come off on the Summerside ice. HON. D. A. SMITH, of Montreal, purchased two of the famous Morgan collection of pictures last week. One was "The First Communion," for which he paid \$45,500, and the other, "La Source," at \$10,000. A Montreal swimmer named Gwill has also undertaken to swim the whirlpool at the same time. Three coffins, suitably inscribed, have been ordered. THE editor of the Glen Elder (Kansas) Herald suggests that all the dogs in that town be killed, so as to prevent them from going mad. If this suggestion were adopted in Charlottetown, it would keep many owners of sheep, poultry, etc., from getting mad. THE Dalhousie College Assault-at-Arms came off at Halifax on the night of the 9th and was very successful. The Island students took an active part in the programme, one of them, F. Stewart, capturing the University silver medal, being the second prize awarded for gymnastics. PADDY SHERA has been indulging in some loud talk about his recent battle with Jimmy Gibbons, in the Moncton Temperance Hall. This has aroused the ire of the pugacious Jimmy, and he challenges Paddy to a match for \$200, and adds that he will go to Moncton and fight him any way he chooses. Paddy will likely accommodate him. LATEST advices from Boston state that arrangements are being made to place a commodious and powerful steamship in connection with the well-known steamers Carroll and Worcester, on the Boston, Halifax and P. E. I. S. S. line, on or about April first. In the meantime the Lion O'Herd will keep up weekly connection. H. Herald. WE are requested to state that the Inspector of Fisheries will receive tenders for the charter of a certain number of first-class swift sailing vessels, fore-and-aft schooners, of between 60 and 90 tons register, to act as armed police cruisers in the Gulf. Full particulars may be learned by applying to Mr. Duvar, Alberton, or to the Collector of Customs, Charlottetown. No means has been taken by the manufacturers to push the sale of their "Myrtle Navy" tobacco, except giving from time to time a simple statement of the facts connected with it in the public press. The large and rapidly increasing demands for it has been the result of the experience of smokers which these statements suggested. Their advice to business men is to advertise largely if they have the right article to keep up the advertisement with. THE tobogganing fever hit Souris real hard this winter. A club was organized and a slide built. The finishing touches were put on the slide a night or two ago, and everything augured well for its successful opening. The slide had been watered and the keen frost prevailing gave every indication of a beautiful sheet of ice. This being the case the sportsmen and women retired to rest with bright prospects for a fine day's sports on the morrow. Next morning they were early afloat and a grand rush was made for the slide. But, alas for the vanity of human hopes! During the night the weather had moderated, a strong shower wind had melted the ice, and there was nothing left of the slide but the boards. Latest reports are to the effect that the club had met and passed its resolutions of sympathy with itself in its sad bereavement.

DOMINION PARLIAMENT

INTERESTING NOTES.

THE RIEL QUESTION.

BEGINNING OF THE DEBATE.

OTTAWA, March 11. The House met this afternoon. Sir John who is suffering from a severe cold, was not expected; but he took his seat. Robertson, of Hastings, introduced a bill to amend the criminal law by providing for extension of the term of imprisonment of burglars to ten years. McCarthy introduced a bill to extend the time of voting at Dominion elections, making it from nine to eight o'clock. In answer to a gentleman, Hon. Mr. Chapleau said the sum of \$125 was paid for circulating a fly sheet containing evidence in the Queen against Riel. Landry, of Moncton, moved his resolution about Riel. He denied that he was set up by the government to make the motion. He objected to the execution, 1st, because the jury recommended Riel to mercy; 2nd, because the medical officers had not had time to form a sound judgment as to his sanity; 3rd, that General Middleton considered Riel a delirious; and 4th that the day for capital punishment for political offences had passed away. Hon. Mr. Langevin referred to the difficulties of his position during the past four months, as representative of the French Canadians in the Ministry. He referred to his twenty-nine years of public life, during which he had never been accused of being a traitor. He was no traitor now. He stated what the Government had done, how it saw Riel defying the authority of the Queen in the far off regions of the Northwest, and how it had called out the militia, who had responded ably; how it gave the Council for Riel every opportunity, paying for witnesses, etc., how every court that had been appealed to by Riel had sustained the conviction, how the government had sent medical men to enquire as to Riel's mental state, and how all three affirmed his responsibility before God and man. He was hanged, and the government desired to meet the resolution squarely. In order to do this he would move 'the previous question.' This in the Commons of Canada precludes the introduction of any other amendment. Anyot followed, declaring that the Government had not brought down all the papers necessary, and were shirking their responsibility. At 11 o'clock House adjourned.

The State of India

LONDON, March 11. Earl Kimberley, Secretary for India, moved in the Lords this afternoon for the appointment of a committee to enquire into and report upon the state of the government of India. He stated that Lord Dufferin did not consider the position of affairs in Burmah as seriously alarming, although it had been reported that Yemethan was besieged by 9,000 rebels, and that Gen. Prendergast had been sent with 300 British troops to relieve it. Motion adopted.

Great Strike in Toronto.

TORONTO, March 11. The position of the lookout of the street railway men practically remains unchanged. This morning the company sent out three cars, but were compelled to send them back to the stables. The strikers now threaten to make higher wages and shorter hours a feature of the strike, unless a settlement is speedily effected.

Steamboat Disaster.

VICKSBURG, March 11. A steamer blew up to-day below this city. The mate and several negroes were killed, and the pilot, engineer, and a number of deck hands were severely injured.
