HEAD OFFICE, MONTREAL.

Incorporated by Letters Patent of the Dominion of Canada, under the "Companies Act."

DIRECTORS. JOHN F. STAIRS, M.P., Halifax, President.

GEORGE STAIRS, Halifax.

JAMES M. WATERBURY, New York.

BANKERS. THE CANADIAN BANK OF COMMERCE.

THE UNION BANK OF HALIFAX.

SOLICITORS. MACMASTER & MCGIBBON, Montreal.

The Directors, who are now the owners of the entire Capital stock, have decided, at the request of numerous friends of the Company throughout Canada, to enlarge the proprietorship of its stock, and to offer for sale, at par, ten thousand shares, of one hundred dollars each, fully paid and non-assessable.

Payments are to be made as follows:—Five per cent. on application; fifteen per cent. on allotment; twenty per cent. each in one, two, three and four months from the date of allotment. Applicants have the right to pay in full on allotment.

Applications for shares will be received until February 15th, 1893, at any of the offices of the Canadian Bank of Commerce, at the offices of the Union Bank of Halifax, and at the head office of the company, N. Y. Life Building, Montreal.

Forms of application for shares may be obtained at any of the above places, or they will be sent by mail on request.

Should no allotment of stock be made to any applicant for shares, the amount paid will be returned in full, and in the event of the Directors finding it impossible to allot the full number of shares applied for, the surplus of the deposit will be credited toward the amount payable on allotment.

The right is reserved of withdrawing the offer in whole or part at any time before allotment, and of allotting to any applicant any less number of shares than the number applied for.

As the dividends of the Company are payable quarterly, beginning with the first day of March next, applicants of stock will be entitled to receive a proportion of the quarterly dividend as declared, corresponding to the amount paid upon their subscription.

It is proposed to apply to the Stock Exchanges of Montreal and Toronto for official quotations of the shares of the Company.

The Consumers Cordage Company was organized in June, 1890, with a capital of one million dollars, to operate several of the largest Cordage and Twine Factories in Canada. It, at all times, operates under leases, but its operations having been successful, the Capital stock was subsequently increased to Three Million Dollars, and the leased properties were purchased.

The Company has no mortgage indebtedness; and, according to the law under which it is incorporated, none can be created without the consent of two-thirds of the shareholders, represented at a meeting called for the purpose.

The Company has placed in the hands of Messrs. — (a) Full statements of its affairs, certified to by Messrs. Caldwell, Tait & Wilson, Chartered Accountants.

(b) The following letter from Messrs. Abbott, Campbell & Meredith, solicitors, Montreal, upon the legality of its incorporation, and the issue of its stock:—

MONTREAL, January 5, 1893. Consumers Cordage Co., Ltd., Montreal.—GENTLEMEN:—We have examined the books and documents connected with the organization of the Consumers Cordage Company, Limited, and are of opinion that it has been properly incorporated, and that its capital stock of \$3,000,000, as issued, is fully paid up and non-assessable, according to the provisions of the "Companies Act."

WE ARE, YOURS TRULY, (SIGNED) ABBOTT, CAMPBELL & MEREDITH.

(c) A report from Messrs. Macdonald and McTibbin, Solicitors of this company, that the title to its Mills have been duly examined, and that all legal expenses connected with the same have been paid.

Applicants for shares may examine these documents, or the original, at the offices of the Company's solicitors, and at the offices of the Banks mentioned above.

The Consumers Cordage Company is probably the second largest Manufacturer of Cordage and Twine in the world, and claims the following very material advantages over its competitors:—

1st. Ample facilities to conduct its business which enables it:—

(a) To buy its raw material in larger quantities, and at lower prices.

(b) To use only the latest and most-improved machinery, thus keeping its mills in the highest state of efficiency.

2nd. Economy in selling and distributing its manufactured product.

3rd. The business covers so wide a territory (its manufactured goods go to almost every civilized country in the world) that it cannot be seriously injured by local troubles; and its manufacturing establishments are so scattered that the danger of severe loss by fire is very slight.

4th. Lower cost of production.

(a) By maintaining the sharpest competition between its several mills; it is enabled to introduce in all the best methods known to each.

(b) By spreading its commercial expenses over a larger output.

(c) By placing in one hand the purchasing of the Raw Materials and Manufacturing supplies for the several Mills, thus securing lowest prices.

(d) By manufacturing for themselves many of their supplies.

The Company has always found it in its interest to divide the economies effected in production and distribution with the consumer, and since its existence the Consumer has upon the average, had a better article at a lower price than previously.

The Company does not claim to have any monopoly, or to earn monopoly profits; in fact, it has in the past, since its organization it has been able, owing to the advantages above mentioned, to earn a net return on its present capital of not less than 10 per cent. per annum (as stated in their "Balance Sheet" and shown and the Directors believe that these profits will be maintained in the future, as the cost of production and distribution shows each year a marked decrease.

The Dividend for the year ending 31st October, 1892, was at the rate of 8 1/2 percent. per annum. The past record of the Company and its present position justify the Directors in believing that quarterly dividends of one and three-quarters per cent. can be paid (and should the profits for the present year be as large as the outlook promises, the final quarter's dividend might be increased).

Any further information may be had at the head office of the Company at Montreal.

Gratifying to All.

The high position attained and the universal acceptance and approval of the pleasant liquid fruit remedy, Syrup of Figs, as the most excellent laxative known, illustrate the value of the qualities on which its success is based and are abundantly gratifying to the California Fig Syrup Company.
