The Perjury Case

There can be no question that the crime of perjury has, in recent years, been on the increase in our courts, and that the sentence of five years imprisonment in the penitentiary, inflicted upon the boy McTague, was calculated to impress perjurers and would be a deterrent to a whole class of offenders.

IMPORTANT TO CANADA.

Scheduling of Exported Cattle.

Defence of Canada's Interests.

OTTAWA, Nov. 4. Communications from the High Commissioners of office have been received by the Imperial Department of Agriculture in the matter of the scheduling of Canadian cattle; but grave fears are entertained here that this will be the outcome of the persistent pressure which is being brought to bear on the veterinary authorities of the Imperial Government.

GRAVEYARD INSURANCE

Tricks of Reverend Rascals.

ST. JOHN, Nov. 4. The graveyard insurance case drags its slow length along. Among the letters read yesterday was one from the prisoners to the wife of the insured man, solemnly affirming that her husband had been insured for only one thousand dollars, which money, they said, they had at great trouble and with great difficulty been able to collect.

present deeply interested. The Canadian ministers were most cordially received.

LONDON, Nov. 2.—Advices from Ferrol, Spain, on the North Arm, Bay of Betanzos, say that H. M. S. Howe grounded on Pereiro Reef, inside of Ferrol bar. Her position is very perilous. The naval authorities at Ferrol are rendering every assistance to the Howe. She is being lightened. The Howe is a battle ship of the admiral class and has a displacement of 10,300 tons. She carries ten guns and is attached to the channel squadron.

LONDON, Nov. 2.—In the issue of Truth to-day, Henry Labouchere proposes an heroic remedy for the depression prevailing in the agricultural industry of Great Britain. He says he would allow every parish to expropriate the land of non-occupying owners, giving them a fair price therefor in village bonds. The land thus acquired should be let to tenants by the parish.

News Notes.

A Chicago despatch says the loss to shipping by Saturday's storms on the lakes will reach \$1,000,000.

It is interesting to note that colonial joint stock banks have deposits in London amounting, by the last bank statement, to £178,000,000, while foreign banks have only £58,900,000. This is a good sign.

Varying estimates of the number of Roman Catholics in England are often given. At the recent meeting of the Catholic Truth Society in Liverpool, Rev. J. S. Vaughan stated that out of 29,000,000 of people in England hardly one and a half millions professed to be Roman Catholics.

The telephone has not yet penetrated everywhere. A few days ago it was announced that Mr. Gladstone was just about to have Downing Street and the House of Commons connected. The other day it was said that President Harrison was having the White House and the State Department put in connection for the first time.

—The Montreal Gazette says: "An experience of more than ten years has demonstrated the fact that, operated as a Government railway, the Intercolonial cannot be made a profitable enterprise, the results of the working of the line annually imposing a charge of from a quarter to three-quarters of a million of dollars on the general revenue of the country, and this without any allowance for interest on the capital expenditure. The whole question of the transfer of the Intercolonial and the establishment of a fast Atlantic service is one of large and important public policy, which merits earnest consideration in the light of national interests. There is already, we believe, an approving opinion in many quarters, and as the discussion proceeds, and information is supplied, we are disposed to think that opinion will extend."

I'M IN IT NOW,

With Headquarters Next Door to Johnson's Drug Store.

FOR the greater convenience of my friends and the pecuniary advantages accruing to myself, I purpose for a while—possibly only a short time—to devote my time and apply my ingenuity to the repairing of anything and everything which may or may not be in any particular line, or which has baffled the skill of all others.

DO YOU WANT ANYTHING MADE?—anything with or without a name, the like of which has or has not been made before. If you can describe it, or even give an idea of what you want, COME AND GET IT.

I have no horse and jigger to send for things; no wheelbarrow in which to take them home; besides, I hope my time will be too valuable to spend in trucking (I have no license either), so we can reciprocate. You bring the article; I'll repair it. You call for it; I'll deliver it. You pay for repairs and take it away, I'll be happy, you'll be ditto, and "the world was merry on it."

REMEMBER!—Anything in the Scientific, Electrical, Mechanical or Domestic line, useful or simply ornamental, made or repaired.

WALTER P. DOULL.
