VALUABLE HORSE.—Arion, 2.10 1/2, the "\$125,000 bastry," is no longer the highest priced horse in the world, as Wm. P. B. McDonough, a San Francisco capitalist, has purchased the celebrated English race horse Ormonde, "the unbeaten," at a reported and doubtful price of \$150,000.

SHIPPING INTELLIGENCE.—Port Mulgrave, Nov. 21.—F. and S. south yesterday, steamer City of Ghent, St. Lawrence from Pictou. Planned north, steamer Mayflower for Pictou, schr Annie M. Pride for Mabou. Heavy rain for thirty six hours, and still raining.

MARRIAGE BELLS.—A very interesting event took place in Trinity Church, Montreal, on the afternoon of the 16th. We refer to the marriage of May L., daughter of the late Hon. John Goff, of Woodville, and Arthur W. Jenks, metallurgist. The officiating clergyman was the Rev. Canon Miles. The bride was given away by her brother, Mr. L. W. Goff, of Charlottetown. Mr. and Mrs. Jenks will reside at Kootenay, B. C. THE EXAMINER extends congratulations.

DARING ROBBERY.—A daring robbery took place late on Thursday night at the Intercolonial Railway station at Fraserville, Que. An employe was counting money, preparatory to sending it off, when a stranger walked in and picked up a roll of bills amounting to \$100. One of the officials ran to stop him, but the stranger knocked him down and made off with the money. A horse belonging to a resident has disappeared also. It is supposed the robber took it to facilitate his escape.

It is a singular fact that the cheapness of an article should even temporarily retard its sale, and this was the experience of Messrs. Tuckett & Son in the introduction of their new famous "Myrtle Navy" tobacco. People who had been in the habit of smoking the finest Virginia tobacco, could not for a time be made to believe that they were offered the same article at about one half the old price, and it was only by slow degrees that they were induced to put the question to the test of an actual trial. When they did adopt that test, however, it never failed to satisfy them.

MAGISTRATE'S COURT.—Before H. V. Palmer, J. P. Rev. J. Simpson, as Solomon Waldman, for malicious destruction of property in St. Peter's Cemetery. The evidence showed that defendant went to St. Peter's Cemetery on Oct. 19th with a shell, and finding the gate locked forcibly broke it open. Plaintiff stated that he had been put to a good deal of trouble and expense at various times by workmen and others breaking the lock on the gate of this cemetery; and as in this case the defendant had refused to replace the lock he felt it his duty to prosecute. The defendant was fined \$5 and costs.

CHILD KILLED.—The first accident on the street railway at Yarmouth, N. S., occurred on Thursday. A little baby, daughter of Leaman Trefry, was struck by an electric car and its skull was fractured, so that it died within half an hour. An inquest was held. The evidence showed that the accident was due to the carelessness on the part of the driver, and a verdict in accordance with the facts was given exonerating the driver. The child was eighteen months old and had strayed from the backyard on to the street without the knowledge of its mother.

JESUIT MISSION.—Rev. Fathers O'Bryan and Doherty arrived here from Montreal on Saturday evening to conduct a mission in St. Dunstan's Cathedral. The mission will be continued for two weeks, the first week being exclusively for the women and the second for the men. The introductory sermon was preached yesterday forenoon, and the women's mission began at seven o'clock last evening. During the mission there will be services daily as follows: Mass at 5.30 a. m., followed by a short instruction; Mass at 7.30 a. m., with out the instruction; Mass at 9 a. m., with instruction; at 3 p. m., way of the cross and instruction; at 7 p. m., beads, sermon and benediction. What is the note worth on 1st December 1892? Perhaps some of THE EXAMINER'S clever readers will find the correct answer.

Deceased was about 26 years of age and left his native home about eleven years ago.

HIS LEG BROKEN.—The Pioneer says: Mr. William Blanchard, of Lot 8, had one of his legs broken on the evening of the 12th inst. He was returning home with two horses and two truckwagons. As he was passing through a gateway his horse turned too short and the wheel lifted the truckwagon box and Mr. Blanchard was thrown to the ground when the wheel of the second wagon passed over his leg, breaking it between the knee and the ankle. Mr. Blanchard was laid up all last winter and part of the summer with a break in the same leg.

AFTER THE POTATO BUG.—Mr. Thomas Hackett, of this town, has made some recent improvements to his potato bug destroyer. In place of the rollers to crush the bugs he has substituted a pan which can be lifted off and the bugs it contains killed by a second machine. The speed of the revolving brushes has also been increased and three of these only used, which are found sufficient for the purpose. The machine is now about as complete as it is possible to make it since it performs the work of brushing off the bugs from the potato vines effectually.—Summerside Pioneer.

THE CANADIAN HEN.—The Chatham World says: The Canadian hen is a famous and useful bird. She has struck terror into the heart of McKinlay, so that he tried to shut out her eggs by a duty. She is credited with many virtues, but too much has been claimed for her. A Kent County man claimed that she could feed on yarn and lay woolen socks. He shipped the socks and eggs together. But the United States officers refusing to believe that the hen laid the socks, seized the whole shipment. The Kent County man will have to take his hens to court, to prove his case, or lose his goods.

AN UNFAIR ADVANTAGE!

Opposition Merchants in this City are taking advantage of our Low Prices, and sending boys to buy our Reefers and putting them in stock and selling them at a profit. Now, we claim that such transactions are unfair. If we sell goods at cost, in order to give the poor people a chance, competitors should be charitable enough to let the poor people buy them from us, and not put the price up 25 per cent.

We are determined to undersell all selfish competitors, even if we have to sell goods at half what they cost.

Our trade has increased very much the last two years by doing the fair, square thing by our customers; and we know that if the people knew as much as we do about the way some people do business, they would trade with us every time for Clothing, Gents' Furnishings, Hats, etc.

We don't want the Earth, but we want people to buy good goods cheap; so come along and buy Reefers, Overcoats and Suits at never-to-be-forgotten prices.

If opposition men in the city want to buy Children's Clothing from us they can do so if they come themselves, as we can sell much cheaper than they can buy.
