PREMIER SAYS PLAN READY

Early Signing Indicated For Insurance Agreement

Early signing of the provincial hospital insurance agreement with the Federal Government was forecast yesterday by Premier A.W. Matheson.

The Premier said he has received a letter from Health and Welfare Minister Waldo Monteith adding him to suggest a suitable date for the signing and in all probability, Hon. M.L. Bonnell will go to Ottawa next week to complete the agreement.

Last minute details — "a word here and a word there" — are being changed in the plan, the Premier said, but he could see no reason why everything should not be in readiness within a few days.

The Premier expressed satisfaction that the provincial government has been able to make such rapid progress in getting the plan started. He noted that in spite of the fact that New Brunswick's plan is to go into operation by July 1, no agreement with that province has been signed as yet. The Island's plan is scheduled to go into operation on October 1.

Mr. Matheson also expressed satisfaction with the way in which the plan is being received throughout the rural districts of the province. He said a number of employee groups have already registered 100 per cent.

The P.E.I. Hospital Insurance Act was passed at the last session of the Legislature. It will be paid for through a contribution of the Federal Government plus premium collections from group and individual subscribers. The rate is \$2 per individual and \$4 per family per month.

The Hospital Insurance Commission under the chairmanship of Dr. L.E. Prowse is carrying on an intensive information campaign throughout the rural areas of the province. Already 77 school districts have been included in these meetings. The attendance has averaged about 40 and the highest attendance was 60.

Dr. Prowse said he was extremely pleased with the reception the plan was getting in the country and predicted a high ratio of subscribers by the time the campaign is ended.
