THE DOMINION BANK NOTE JOB.

Special Favors to an Alien Contractor.

Harbor Works at Summerside.

OTTAWA, May 21.—The first business yesterday was the voting of \$26,000 towards the expenses of the Jubilee expedition. A resolution to that effect got two readings in committee, and a bill founded thereon was read a first and second time.

When Hon. Mr. Fielding moved the House into committee of supply, Hon. Mr. Foster brought up the question of the Bank note contract. His address occupied the whole afternoon. In summing up the case, Mr. Foster showed that the Finance Minister, contrary to the advice of his own deputy, had shown special favors to the New York contractor, and done a serious injustice to the Canadian industry, increased the cost of the work, and cast suspicion upon the methods and integrity of his own department.

The Finance Minister, after dinner, made his explanation. The main part of his argument was the claim that the work to be done in New York was a very small part of the total, and was not an important portion of the contract. He admitted that the British American Company had offered to do the work for the same figures as the New York tender, but declared that before it had been received the business with the Yankees had gone too far to recede. He claimed that the deviation from the tender by the American Company was not important.

Sir Charles Tupper followed and maintained that Hon. Mr. Fielding had accepted a tender that was no tender at all according to specifications, while he had ruled out all other firms that made regular tender. If Mr. Fielding had made up his mind at the beginning to give the contract to the New Yorkers on their own terms, he could not have taken a better way to bring that about than he did. Of all the companies in a position to do the work special favors were allowed to only one, and that was from a country in which no Canadian could get a contract or was even allowed to obtain employment.

The House went into supply on the harbor and river estimates at 10 o'clock. On the item of \$30,000 for Summerside harbor, Hon. Mr. Tarte explained that the plan of the proposed breakwater, to be 3,000 feet long, were estimated to cost \$104,000. But he said that \$30,000 was all that could be spent next year.

The Secretary of State to-day informed Senator Ferguson that an order-in-council had been passed by the present Government removing James Yeo from the position of Fishery Inspector for Prince Edward Island.

A small army of delegates from Quebec is in the city and had an interview with the Prime Minister. They asked the Government to contribute \$1,000,000 to the Quebec bridge.

Mr. Laurier said that generous assistance would be given.

P. E. Island Fish Report.

Alberton—Lobster fishery fair. Excellent catches of lobsters but light of herring reported at Tignish, Kildare and Sea Cow Pond.

Miminish—Lobsters fair but herring scarce. Weather reports unfavorable here and at Campbellton.

W. C. T. U.—As Monday will be a public holiday, the W. C. T. U. will hold their weekly meeting on Wednesday afternoon, 26th, when Miss Adams will give a "Health Talk" to mothers and daughters. All are invited. As this will be both interesting and instructive, we would will a large audience. Meeting at 4 o'clock, p. m.

Wall Paper

We are in the Wall Paper business to give better satisfaction to our customers than any other dealer in this city. Our papers are the most artistic and the prices the lowest. We are agents for the best Canadian and American manufacturers. Call in and see.

A SIMULTANEOUS MESSAGE

To be Sent by the Queen During Jubilee Service.

LONDON, May 21.—The Queen has consented to the proposal that she send a message to every part of her dominions simultaneously during the Jubilee service at St. Paul's Cathedral. For this purpose wire communication with all the cables will be carried up the Cathedral steps and probably into the sanctuary.

SIMPLE PROHIBITION.

Strong Protest Respecting the Plebiscite.

MONTREAL, May 21.—The Methodists of the Montreal districts will forward a strong petition to Mr. Laurier protesting against submitting any other issue than that of simple prohibition to the electors in the plebiscite.

THE TERMS OF PEACE.

Powers Considering the Armistice

LONDON, May 21.—The ambassadors of the Powers met yesterday to consider the terms of the peace armistice, which includes the land and sea forces of both combatants. In all likelihood the negotiations will be protracted.

LATEST NEWS BY WIRE AND MAIL.

BERLIN, May 19.—The Turkish minister of war, Riza Pasha, today contracted for 160,000 Mauser rifles.

CHICAGO, May 19.—A war of extermination against sympathetic strikes in the building trades has been declared by a combination of Chicago contractors, employers and other business men. A serious conflict with organized labor is feared before the crusade is ended. The employers say they will make every effort to attain the desired end through co-operation and arbitration with the building trades, council and affiliated unions, but that if peaceful means fail, general lockouts, wage reductions and even legal proceedings may be resorted to in order to force the labor organizations to terms.

CONSTANTINOPLE, May 19.—An official statement was published tonight. After briefly reciting the Turkish side of the war up to the battle of Domokos, it says: "The czar sent the sultan a special telegram expressing his sincere sentiments confirming the pacific views of the powers and appreciating the success of the imperial troops. The capture of Domokos formed the natural limit of the defensive operations, and the government being desirous of giving fresh proof of its pacific intention, the cabinet decided, and its decision was confirmed by an irade, to cease hostilities upon conditions to be arranged by the respective commanders. The conditions of peace following the armistice will assure the future rights and dignity of the imperial government, the frontiers of Turkey and the preservation of general peace."

TOKIO, May 19.—The Dingley bill is a sore subject with the Japanese. It is broadly rumored and may be taken as a fact that Japan will retaliate for the taxing of silk handkerchiefs by placing restrictions on the sale of American petroleum—hitherto the largest export to Japan; that the preference will be given to Indian cotton, which is in danger of being ousted from the fields by American products, that the large trade in leather with San Francisco will go to Australia, Queensland and New South Wales. America stands now first on the list of consumers of Japanese manufactures. The empire could find no appreciative market for its tea, and very few admirers for its silk if the United States should impose a prohibitive tariff, and yet, in the face of this possibility, Japan would place such restrictions on the sale of American oil that the trade would come to an absolute standstill. It needs but a word from the government organs to rouse the people to a feeling of indignation and sheer unwillingness to patronize American products.

HONOLULU, VIA SAN FRANCISCO, May 18.—"We want you people to keep your hands off this country." This remark was dropped by Admiral Beardslee during an informal conversation with the Japanese Minister resident in Hawaii. This is the only intimation the people of this country has ever received as to the mission of the United States ship Philadelphia.

To this minister Shimamura replied: "Would you like to have me quote your remark in my despatches to my Government?"

"Well," returned the Admiral, "you can tell your Government that it was a remark passed while we were enjoying a social glass of wine if you want to."

This is one of the floating straws that the people of Hawaii look upon as evidence that the United States will protect their interests in the Hawaiian Islands, and that they will require Japan to keep cool in its dealings with the country and go about its diplomatic business without bluster or threats of force.

Carter's for Wall Paper

New Grass Linens, Crimped Prints and Blouses

Perkins, Sterns & Turner

This week we are making a special display of New Grass Linen and other light weight materials suitable for the approaching hot weather. If you are looking for nice, new good and cheap materials for summer wear, you should see our stock of these goods.
