## Moncton Sugar Refinery Profits.

THE *Patriot* states that the dividend lately declared by the Moncton Sugar Refinery was thirty per cent., and forthwith pictures the iniquity of an industry that can distribuute dividends ranging from thirty to sixty per cent. We are informed by a gentleman who was present at the Refinery meeting that the *gross* profits on eight months operations were equal to a little over fifteen per cent. of the paid up capital of the Company, from which, however, had to be deducted the salaries of the President and other officers, which, under the by-laws, require to be voted at the annual meeting. This left sufficient to admit of a ten per cent. dividend and a small balance carried forward as a reserve fund. As the Moncton refinery is particularly well situated as regards the purchase of coal, distribution of manufactured sugar, etc., and besides has at its head some of the smartest business men in the Lower Provinces, it would be strange if a fair dividend on the capital invested should not be obtained. As a profit of one-third of a cent per pound on the annual out-put of the Moncton refinery would give a thirty per cent. dividend on the capital of that Company, and the dividend declared was equal to fifteen per cent. per annum, our readers can easily estimate the amount of profit they are contributing to these "sugar lords." While the *Patriot* is so bitterly complaining of a fifteen per cent. to Canadian refiners, he is quite willing for twice that amount to be put in the pockets of the American refiners under the Cartwright tariff—a fair sample of the *Patriot's* patriotism.

The *Patriot's* heart is bleeding, too, for the poor laboring men in the refinery, who are working at a dollar a day. As, prior to the opening of the sugar-refinery, brass foundry, and other industries in Moncton, laborers in any quantity could be had at eighty cents per day, it will be seen that the demand for labor created by the N. P. in Moncton has increased the wages of laborers twenty-five per cent. When under the beneficient rule of Mr. Mackenzie, the manager of the Intercolonial Railway, Mr. Brydges, reduced the laborers' wages from one dollar and ten cents to ninety cents per day, the *Patriot* had no word of sympathy for working men; but for a policy which has added twenty five per cent to their pay he has only words of condemnation.

With five refineries at work in Canada, it can be readily seen that there is a healthy competition and that no exorbitant profits can be made. In fact, we understand that several of the refineries have thousands of barrels of refined sugar stored, waiting orders, there being now a falling off in the demand owing to the close of the preserving season.

## Mr. DeBlois' Letter.

MR. DEBLOIS need not have taken the trouble to write the letter which we publish to-day. Were it possible that anything which Mr. Lowe could say would injure Mr. DeBlois in the estimation of his constituents, it is needless to say that Mr. Lowe's letter should not have appeared in THE EXAMINER. Mr. Lowe's abuse can injure no man of character; and the character of Mr. DeBlois for integrity and independence, is as well established as that of any man in Prince Edward Island.

## City Councillor's Oath.

IN addition to the oath of allegiance and the oath as to his property qualification, each City Councillor, before taking his seat, subscribes to the following:—

"You shall swear as one of Her Majesty's Justices of the Peace for the City of Charlottetown, by virtue of the Queen's Commission to you directed, you shall do equal right to the poor as to the rich after your knowledge, wit and power, and after the laws and lawful customs of the Dominion of Canada and of this Province and the statutes thereof made, and all fines that should happen to be received by you, you shall truly send to the Provincial Treasurer of this Province, or otherwise as the law may direct, and you shall not be of counsel in any quarrel or controversy before you, and you shall not direct any warrant by you to be made to the parties, but only to the constables and bailiff or other indifferent persons to do execution thereof. So help you God."

## The Historical Society.

THE committee appointed to obtain additional names for the roll of original members of the Historical Society have already secured the signatures of the following gentlemen, and the list is still open:—

Hon. Joseph Pope, James D. Irving, Arthur Newbery, Owen Curtis, Artemas Lord, Mark Butcher, James Currie, H. McKenna, George Bremner, J. D. McLeod, J. A. Carman (subscribes a collection of newspapers and pamphlets), David Sterling, Paul Lea, James McLeod, Thomas A. McLean (City Councillor), John Gahan, John Coombs, Wm. Roughan, Thomas Handrahan, George Peake, P. C. James, Thomas W. May, C. D. Rankin, Simon W. Crabbe, Frank D. Bell, L. L. Beck, Hon. John Longworth, J. R. Brecken, James Peake, R. Harris, F. L. Haszard, Ben. Beer, and a number of others obtained by Judge Alley, which we shall endeavor to procure for publication to-morrow.

The collection donated by Mr. Carman comprises a file of Island newspapers dating from the year 1818 and a file of Almanacs from 1824.

The English unboat Merlin, which struck on the rocks on the Irish coast, has arrived at Galway in a sinking condition.

## CORRESPONDENCE.

*We do not hold ourselves responsible for the opinions or statements of our correspondents.*

*To the Editor of the Examiner.*

SIR,—From the EXAMINER of the 8th inst., which has only just been received by me, I clip the following, forming part of a letter signed "Walter Lowe:"

"Where is the honest Hon. George Wastie DeBlois, who was so shocked at the Davies-Stewart Government, born, by the way, in corruption and cradled in rascality, that he resigned his position as Colonial Treasurer of this Province, rather than be associated with such corruptionists. What blinds him now that he cannot see through the glass doors of the Land Office?"

As my name is here given in full and a question asked, though not in a very courteous manner, I shall overlook the style in which it is put and give to you, Sir, and to my constituents in general, through your journal, my answer. Neither glass doors nor wooden ones, *nor yet those who may be within them*, will in the slightest degree hinder me from protecting the interests of my constituents as well as of every other tax-payer in the Province of Prince Edward Island when I am made aware, constitutionally, that those interests have been in the slightest degree infringed upon.

I need scarcely say that I repudiate with the utmost contempt the assertion of your correspondent in regard to the Government *named by him* the "Davies Stewart." My reasons, for leaving the Davies Government, as well as those of the three gentlemen who left with me, have been fully made known to the public through the proper channels.

Not being a member of the present Government, and from the fact of being absent from the Island for the last month, I am not in a position to contradict in any way Mr. Walter Lowe's account of the state of the farm buildings now in the course of erection on the Stock Farm. Of this, however, I am fully persuaded that neither my honorable colleague, Mr. McLeod, nor yet the Government as a whole, will permit any deviation from the contract made with the builder that is not for the public interest. This, nevertheless, I do say, and here I am glad to find I have your concurrence, as is clearly shown in your editorial of 8th inst., that a Civil Engineer should be appointed to advise the Government, as well as the Commissioner of Public Works, whosoever he may be, upon all matters within the bounds of his profession. I am Sir,

Your obedient servant,

G. W. DEBLOIS.

Lakelands, Hants Co., N. S., Sept. 12, 1881.

## City Councillors' Oath.

*To the Editor of the Examiner,*

SIR,—Can you inform me what is the oath taken by a City Councillor. The question has been suggested to my mind by the notice of the proceedings in the Stipendiary Magistrate's Court in your paper yesterday.

Sept. 16, '81. ENQUIRER.

*To the Editor of the Examiner.*

SIR,—In his letter denouncing the Stock Farm buildings, Mr. Walter Lowe speaks of an altercation which, he says, took place between himself and the contractor—Mr. Pierce Doyle. Dame rumor has it that Mr. Lowe's visit to the works was on the Sabbath day. This, I think, can scarcely be true, for no person will believe that two such eminent Christians as Messrs. Pierce Doyle and Walter Lowe would sling ugly epithets and brick bats at each other on any day, much less on the Christian Sabbath.

Yours,

Ch'town, Sept. 8, '81. QUIZ.

## Sir Charles Tupper.

THE BRITISH COLUMBIAN PRESS REGARD HIM AS THE CHAMPION OF THAT PROVINCE.

The Mainland *Guardian* of August 27th says:—The visit of the Hon. Minister of Railways and Canals to our city is, we trust, the commencement of a new era in our existence. It marks the eve of railway construction at the inlet, and as it is well known that the Canadian Pacific Railway Company will push on construction until the whole line is completed from ocean to ocean, it implies that the work on the railway will be unceasing until the whole is in running order. For us British Columbians it means the inauguration of business in this Province, which will go on increasing until this district will be a great centre of commerce. Sir Charles Tupper deserves our best consideration as a gentleman of great ability, and, next to Sir John Macdonald, the ablest statesman in Canada. But in gratitude we owe him a great deal for the able manner in which he negotiated the bargain with the Syndicate, and in the face of determined opposition, carried the measure through the House of Commons. We in British Columbia have very little idea of the difficulties he had to contend with, or of the strong influences that were brought to bear in order to frustrate the design; not least of which was the strong prejudice evoked against this province. Thus he not only secured the railway for us, but became our champion and defender.

## Down the Mountain Side.

LANDSLIP IN THE CANTON GLAIS, SWITZERLAND—TWO HUNDRED LIVES LOST.

BERNE, Sept. 12.—A land slide occurred last evening at the village of Elm, in the Canton of Glaris, which far exceeds in the terrible nature of its results any accident of a similar kind which has taken place in Switzerland for many years. The inhabitants of the little village had no time to avoid the calamity, which gave but short notice of its approach. The number of people killed has not been fully ascertained, but it is believed that it can not be less than two hundred. Thirty houses have been demolished. The canton is noted for its rugged and uneven surface, and is enclosed on every side except the north by high mountain ranges.

The *Times* says the Egyptian army must be disbanded. Its existence is incompatible with the maintenance of order.

It has been decided to detain Mr Harrington, editor of the Kerry *Sentinel*; Triste of Scullingar, and Brady, of Ballinamore, in Galway jail for a further period of three months.

MARRIED IN HASTE.—Three months ago two young Germans arrived in this Province. One remained in Halifax, the other went to Truro. Both got employment and did well. The one who settled in Truro made the acquaintance of a German girl, and fell in love with her. She came from where he was born. Soon they determined to marry. The ceremony was to be performed in Germany, and she was to go home and spend some time with her friends previously. He is said to have given her the money to go home with. She was to have left by the steamer "Nova Scotian" on Monday. She came down to Halifax last week to spend a few days with her friends previous to her departure, and he agreed to come down on Monday morning and see her off. Everything was arranged. But the course of true love never did run smooth. During her brief visit to the city she fell in with the young German who settled here three months ago. She fell in love with him—at first sight. She promised to marry him. No time was to be lost. Yesterday the ceremony was performed by a popular Presbyterian preacher, and the announcement appeared in the *Mail*. Her first love arrived from Truro on Monday, and learned of the new position of affairs. Appeals and threats were equally vain. But he determined to have his revenge. He had his enemy arrested for a debt. Within fifteen minutes after the marriage ceremony had been performed, the newly wedded bridegroom was a prisoner. He was promptly released on bonds. And thus the matter stands.—*Hx. Herald.*

NEW Dress Material, from thirteen cents per yard and upwards, at Young's.

A thousand square miles, a blackened waste, is the story in part told of forest fire devastations in Michigan during the last few weeks. The details of that story all told would be as frightful a chronicle of human suffering as was ever penned. The fuller details now to hand only confirm the accounts previously given of the appalling loss of life and property by the Michigan fires. Singular phenomena were noticed at various places, and at Richmondville the outburst of the hurricane of flame was preceded by a shower of huge fire balls. The fires are now almost out, having been quenched by the rains of Saturday.

The potato crop this year in the United States is valued at $1,000,000. New York leads all the States in the cultivation of this vegetable, producing not less than 25,000,000 bushels, more than the quantity raised by the six New England States.

Constant earthquakes continue at Khva, Persia, and the inhabitants are in a state of pitiful consternation.

THE grand cross of the Bath, which has been bestowed on Mr. Speaker Brand, by the Queen, at the instance of Mr. Gladstone, is an honor fairly won. The present Speaker has had the singular fortune of possessing general confidence, and he has filled a *role* of personal activity and control over the debates almost, if not quite, unprecedented in the parliamentary history of England.

DR. BRADLEY, the new Dean of Westminster, is a safe, sound man, of broad views, and a general belief in the beauty of success and the sanctity thereof. He never said a wise thing, and he never did a foolish one. He began life as a schoolmaster, got to the head of University College, Oxford, crept into the charmed circle of the court, and to-day holds the most enviable position in the Church of England.

THE recent cases of George Eliot and the Baroness Coutts marrying men so many years their junior are not without plenty of notable precedents. Mohammed's wife was 20 years older than her husband, and he ascribed much of his success to her assistance and influence. John Howard, the philanthropist, married, out of gratitude, a woman who was equally his senior. Napoleon's first wife, Josephine, was his senior by six years. Aaron Burr also married a widow, who was 10 years older than her husband, but the union was very harmonious. John Wilkes, the famous London agitator of the last century, married a lady who was 10 years his senior. Johnson, the lexicographer, married the widow Porter, who was 48, while her husband was only 21 at the time of the wedding. Johnson always mourned the loss of his wife, and though he was only 43 at the time of her death, he never married again. How often in his subsequent writings he refers to his lost companion in the most affectionate manner. When only 18 Shakspeare was married to Annie Hathaway, whose age was 25
