ALBERTON SCHOOL TRUSTEES.—On Tuesday last, the following parties were chosen Trustees for the School District of Alberton, under the New Act, for the ensuing three years:—Messrs. Peter Gavin, Benjamin Rogers, Benjamin Champion, and Captain James Ireland, Auditor.

FISHERY.—The fishermen are in good spirits. Fish are reported very abundant, but they do not take the hook voraciously enough to satisfy their captors. Owing to failure in the herring fishing, the want of bait is a great drawback.—Fioneer.

THE Souris Times reports: Hay is likely to be a short crop. Oats promise well. Potatoes are doing better than was at first supposed. Turnip sowing is going on vigorously. The late rains have benefitted the crops very much, and the farmers are looking forward to a bountiful harvest.

STIPENDIARY MAGISTRATE'S COURT.—At the Stipendiary Magistrate's Court, yesterday morning, John Story, drunk and incapable, fined \$2 or 8 days; J. T. Curtis, for permitting a vicious dog to run at large, dog to be removed or shot within 24 hours; Owen Winters, on complaint of P. Monaghan, for same offence, received same sentence.

BIG CHURCH SUIT.—Our Presbyterian friends, having disposed of the Macdonnell case, are now called upon to deal with another, which, in one sense, is of more importance. It will be remembered that a small portion of the Church of Scotland, refused to join the union. These, through Rev. R. Dobie, have now brought an action in Montreal against the Presbyterian Church in Canada to recover possession of the Temporalities Fund of the Church of Scotland. The plaintiff demands an account of the administration of the fund by the present Board. He also prays that all those who joined the union be declared to have forfeited their rights to the said Fund (which is said to be about three-quarters of a million of dollars), and to have ceased to be members of the Kirk, and that those members of the Temporalities Board who have entered Union be ejected therefrom and their places supplied by adherents of the Presbyterian Church of Canada in connection with the Church of Scotland. The action concludes by praying that the Acts of the Quebec Legislature, 38 Vic., caps. 62 and 64, sanctioning the Union, be declared illegal and unconstitutional.—Hr. Chronicle.

THE WAR!

Why the British Fleet is in Besika Bay.

Bitter Regrets of Russians.

A Supreme Effort to be Made.

(Special to the Daily Examiner.)

LONDON, July 6.

In the Commons to-day, Lord Northbrook said that the object in sending the British Fleet to Besika Bay was that it is a convenient and central position.

The private correspondence of the Russian officers contain full accounts of the recent Russian disasters, and bitter regrets over the mismanagement.

It is reported that a supreme effort will be made by the Russians on the Danube to neutralize the recent reverses in Asia Minor.

Telegraphic News.

WAR TELEGRAMS.

LONDON, July 5.

A despatch from Constantinople says that since the 16th of June the Russians have been defeated five times. It is believed they lost 10,000 June 30th. Their wounded filled 800 waggons.

The garrison of Kars made a sortie on Sunday and reopened communication with Mukhtar Pasha. The siege of Kars must be raised, if it has not already been, as the investing army must go to the relief of the left wing, otherwise the latter will be destroyed. Russian officers suffered severely and five of high rank were killed.

The Times correspondent at Sewin telegraphs that in a battle of 29th ult. Russians retired after enormous losses. Turks buried 1000 Russians. The Turkish losses are below 500.

The Russian Government published a despatch from Russian camp before Kars bearing yesterday's date, describing successful attack on Turkish battery. Mukhtar, however, sent despatches to Constantinople describing the victorious advance of his own and right column. In last despatch, dated Alisoupiex, July 3, he says, "We passed the day in making reconnoissances. This afternoon the Russians abandoned Brliamed, flying south of Kars, Venors, and Ardost height, and were pursued by our cavalry. The Russian left wing is almost annihilated; they are fleeing before the Turkish right with such precipitancy that they buried or concealed their artillery and destroyed or abandoned immense quantities of baggage and provisions. The road from Hiatz to Kars-Kalissa is covered with dead. Intercepted Russian letters show that the garrison of Bojazid is regarded lost."

According to intelligence from high sources the Russian army at Batoum, after several engagements, has been broken up into fragments, and is retreating in different directions; and the army besieging Kars is being left uncovered in consequence of the disasters at Batoum. Although it has not raised the siege, it is taking measures to do so if its situation becomes more imperilled.

The advance of the Russians across the Danube seemed to have aroused the official

world in Constantinople. All available troops, including the Imperial Guard, have been ordered to the seat of war.

The Turkish war office reports that the Czar formally proclaimed the independence of Bulgaria.

A London special says Earl Derby distinctly informed the Russian Ambassador in London (Schouvaloff) that Great Britain will not sanction the Russian occupation of Constantinople.

The Gotos says if England violates neutrality, Russia will immediately occupy Egypt and annex Constantinople.

It is reported Austria announced that in certain eventualities she will act with England. Russia will endeavor to prevent the occurrence of these eventualities.

A Berlin correspondent says that the rumor that the German Government will shortly prohibit the exportation of horses is confirmed, and is probably to be attributed to the apprehensions roused by the events in France. Other advices show that the Hungarian Government has extended the area from which the export of horses is forbidden.

CONSTANTINOPLE, July 4.

An extraordinary Council was held at the Palace on Monday, the Sultan presiding, to consider measures necessary in consequence of the crossing of the Danube, and to prepare for possible hostilities on the part of Servia and Greece. Mehemet Ali Pasha was appointed to the command of the army on the Thessalian frontier. Constantinople is quiet. The population are apparently unmoved by the news of the passage of the Danube.

GENERAL NEWS.

A despatch to the Times from Calcutta says accounts from Bombay famine districts are daily growing better. Rain is plenty, and sowing of crops is beginning.

A young lady named Isabella McLehan, school teacher at Folly Mountain, N. S., met with an accident at Folly Lake Station on Sunday morning last. She was standing on the side of the track watching the shunting of the morning freight train. The train had been shunted on to a siding and the engine was running on the main track. While watching the engine she inadvertently placed her right foot on the rail on which the train was running and it passed over her foot, crushing it so badly that amputation just below the knee was found necessary.

The late Governor of Bermuda is in Montreal.

The potato bug is committing great havoc on the crop in the vicinity of Montreal.

Four million feet of lumber, more than corresponding quarter of last year, have been shipped from Ottawa during the quarter past.

will find it to their advantage to call and examine these machines before purchasing elsewhere.

They can be seen at the following places viz.: Wadman & Sons, Crapaud; J. G. Stearns', Souris; John H. Winsloe's, St. Peter's; James R. Elliott's, Elliott Station; James McMahon, County Line; Summerside; John Robertson, Cardigan Bridge; John D. Muttart, Cape Traverse.

HORNE, PIERCE & CO.,

AGENTS FOR P. E. ISLAND.

WE, the undersigned Farmers of P. E. Island, purchased in the summer of 1876, of Messrs. Horne, Pierce & Co., of Charlottetown, a Walter A. Wood Reaper and Mower Attachment, manufactured at Hoosick Falls, N. Y. Two complete Machines, except the ground wheel, pole, and seat, are used for each Machine,—for the price of one ordinary Combined Machine, giving us nearly the wear of two machines for one. We pronounce these Machines by far the best we have ever seen, and recommend them to our brother farmers of the Island. It is capable of picking up broken down grain, equally if not better than any other Machine that we have ever seen at work; is equally light in draught, and not liable to breakage.
