

BURGESS BEDTIME

Continued from page 10

were out of his reach. He couldn't pull those trees apart from inside the den, so now he was outside doing his best to tear that windfall apart where he could get at those shivering, shaking, frightened little Cubs somewhere underneath.

Denies British Secrets Leaking To Communists

LONDON, (AP)—A Labor member charged Monday that Britain's secret jet developments leak to Russia within a month and quickly turn up in MIG fighters. A government spokesman promptly denied it.

to those two little Bears, clinging together down under that windfall, it was the sweetest sound they had ever heard. Yes sir, that was the sweetest sound they had ever heard. It was mother's voice. Mother had come home. They hugged each other tighter than ever from sheer joy.

WOOL MARKETING

Wool will be received at the Reid warehouse at the foot of Prince Street, Charlottetown, after May 15th. Wool shipped by rail or truck should be carefully tagged and addressed to the Wool Grading Station, Charlottetown, "Freight Collect." Payment of freight by truck will be on the basis of rail rates only. Truckers must present a proper warehouse receipt before truckage will be paid. An advance payment will be made promptly on receipt of wool and a final payment as soon as wool is graded.

In shipping, each fleece should be tied separately with paper string and packed in old, but clean sacking. Use one large sack if at all possible, as this aids in checking. A number of old, clean sacks sewed together will suffice. Large sacks may be secured from the Sheep Breeders' Association, Charlottetown, for lots of over twelve fleeces. EACH SACK SHOULD BE TAGGED WITH THE NAME AND ADDRESS OF THE OWNER WRITTEN IN CLEAR LETTERING WITH INK, ONE TAG TO BE SECURELY ATTACHED TO THE OUTSIDE OF THE SACK AND ANOTHER PLACED ON THE INSIDE. No responsibility will be accepted for sacks without tags. A deduction of one cent per pound will be made for wool tied with binder twine or other unsatisfactory string. Shipping tags and proper paper twine are available at the Provincial Department of Agriculture free of charge.

It is in your interest to see that wool is properly prepared for market. Growers should:

- 1. Remove all tags and dung locks before tying each fleece.
2. Any burry, chaffy, or straw portions of wool should also be removed and shipped separately.
3. Sheep should be shorn when dry, and wool should be stored in a place free from dampness.
4. If there are any black fleeces mark it on shipping tags.

All wool should be shipped between May 15th and July 15th. Do not sacrifice your wool and market it carelessly through unreliable sources. Market it through Canada's finest Co-operative Producer Association, the Canadian Co-operative Wool Growers, Limited, whose representative is the P. E. I. Sheep Breeders' Association. Do not forget that patrons selling wool through these Associations have always received the top of the market. Furthermore these Associations are working in your interests in supplying sheep producers with equipment, parasite remedies, and services at reduced prices. Some of these materials such as Phenothiazine for internal parasites, and Cooper's Sheep Dip for external treatment, are now being distributed at reduced rates at our Sheep Field Days, and direct from the Department of Agriculture. In addition the Association is doing everything possible in the purchase and distribution of rams to assist the industry.

Co-operate with your Association and support it by marketing your wool co-operatively this year. Remember we pay the freight and you get the most out of your product.

THE PRINCE EDWARD ISLAND SHEEP BREEDERS' ASSOCIATION CHARLOTTETOWN

Renewal Of Wheat Agreement Is Approved

OTTAWA, (OP)—Canada's participation in the new international wheat agreement received the support and approval of all parties in the Commons Monday. However, in a five-hour debate,

some members expressed concern and fear for the future because of the United Kingdom's withdrawal from the multi-country pact, effective Aug. 1. The price-stabilizing pact now goes to the Senate for debate and approval before formal ratification by the Canadian government. The agreement must be ratified by all signatory countries before it becomes operative. As members discussed the pact's details, the government was urged to confer once again with the British government, possibly during

GUIDING STAR My Guiding Star shines on, It never fades away, It never shall be gone, Nor wither nor decay, It is an endless light, It takes away all grief, It brightens up the night, And gives my soul relief. And when the world seems drear, And when the days seem long, Coronation week, to press for Britain's entry. However, Trade Minister Howe said he doubts that Britain will change her mind. 145 King St.

My Guiding Star comes near, And fills my heart with song, My friends have gone away, And some are with the King, I'll meet them all some day, And with them I shall sing. I'm getting up in years, My steps have weaker grown, I've shed so many tears, For the happy days I've known, But God, my Guiding Star, Makes my life complete, Though I may travel far, I know some day we'll meet. —Billie Wright, 145 King St.

No matter what type of truck you require there's a DODGE "Job-Rated" Truck THAT CAN DO YOUR JOB BETTER

Here's why

A Dodge "Job-Rated" truck can do your job better, more economically because every Dodge truck is "Job-Rated" at the factory to fit specific jobs.

Every unit that supports the load — frame, axles, springs, wheels, tires — is engineered right to provide the strength and capacity required.

Every unit that helps move the load — engine, clutch, transmission, propeller shaft, rear axle — is engineered right to meet your particular operating conditions.

In addition, because all Dodge trucks have shorter turning diameters, they're easier to handle and save you time. Test the truck that's built to fit your job — a Dodge "Job-Rated" truck.

SEE THEM TODAY AT YOUR DODGE-DESOTO DEALER'S

All Dodge "Job-Rated" trucks mount standard bodies perfectly.
