In Memoriam

MISS MASIE E. CRUWYS.

In the evening of Tuesday June 20th 1922, at the early age of 21 years, Miss Masie E. youngest daughter of William and Mrs. Cruwys of Kingston P. E. I. passed peacefully away to that land of eternal summer. Miss Cruwys was teaching at Bonshaw and while visiting at the home of her sister Mrs. Heber McPhail, New Haven, was stricken suddenly with a severe pain. Medical aid was at once given and after due consultation it was deemed advisable to perform an operation. For a time bright hopes were entertained for her restoration. At times she seemed to be on the way to recovery. But after all that expert medical skill, tender nursing and loving care could do she gradually grew weaker until at length the silver cord gave way and the call was issued to come up higher.

She was a young lady dearly beloved by a large circle of admiring friends. During her many weeks of illness she never murmured or complained but gave evidence of her abounding faith in

Him who doeth all things well. Miss Cruwys was a consistent and devoted member of the Methodist church and will be greatly missed by her many friends.

The following are the floral tributes: Wreath Methodist church, Kingston, Crescent Boy friends of Bonshaw, Spray James and Chester Cruwys and family, Wreath Mr. and Mrs. Cecil Stewart, Wreath East Wiltshire School, Spray Father and Mother, Wreath Mr. and Mrs. Geddie McLeod, Wreath, Sisters Mrs. H. McPhail and Miss Reta Cruwys.

The pall-bearers James Beaton, Fred Jewell, Elmer Younker, Tyrus Holmes, Lorne Smith, and Eddie Yeo.

The funeral service was conducted by the Rev. H. Pierce in the Kingston Methodist church during the ceremony.

"Sleep on beloved, sleep, and take thy rest; Lay down thy head upon thy Saviour's breast; We love you well but Jesus loves you best—Good night.

"Until we meet again before His throne, Clothed in the spotless robe he gives his own. Until we know even as we are known—Good night.

***COAL LADEN.**—Schr. Charlotte M. Capt. Fitzgerald arrived with a load of coal from Kelly's Cove for John A. McDonald & Co Cardigan after discharging she will load produce at Newport for James Fay for Sydney and will return with a load of coal for the Georgetown Ferry Co.—A.

***FISHING GOOD.**—The fishing industry around these sections of the country having an exceptionally good appearance. Never in the history of the industry have the lobstermen been in such numbers during the month of June. This last week was particularly good and several of the fishermen have made banner catches notwithstanding the somewhat pessimist conditions which existed at the beginning of the season it promises to be very successful one indeed. It is understood a good price is being received for the fish.—A.

***SCHOOL EXAMINATION.**—The public examination of the Georgetown High School took place on Thursday, June 22nd, beginning at one o'clock. A large number of parents and visitors were present despite the somewhat inclemency of the weather. The pupils of the various grades were examined by the principal and all by their ready answers testified to the careful and instructive training. The remarks by trustees and others were very complimentary all the School Board members present and the largest number of parents present of any examination in the history of the school.—A.

SOLDIERS' SETTLEMENT.

OTTAWA, June 27.—Amendments to the Soldier Settlement Act, giving substantial relief to those settlers who are affected by the severe agricultural depression and find their repayments for stock and equipment bearing heavily upon them, have been introduced in the House. They are the outcome of the investigation of the condition of soldier settlers by Mr. Speaker's sub-committee of the committee on re-establishment, of which Mr. Herbert Marler is chairman.

It is proposed to make all loans for land purchase, improvements, or stock and equipment repayable in four and six annual instalments.

Further relief is afforded by exemption from payment of interest on the consolidated indebtedness of the settler for period varying from two to four years. The four years' exemption applies to the settler who commenced operations prior to the first of October, 1919; three years' exemption to the settler who was established during the next twelve months, and two years to the settler who was established during the twelve months prior to October first, 1921. Those going on the land after October first, 1921, will not receive this interest exemption, but their stock and equipment

loan will run for 25 years in place of six years.

The following illustration will show how the heavy payments in the early years of the settler have been substantially reduced:

A settler established on April 1, 1919, with a loan of \$5,000 for land purchase, stock and equipment and permanent improvements, would pay under the old plan on the first of October next \$677.49. Under the amendment his first five instalments will be each \$232.40; his remaining payments each \$72.92.

Anchor amendment provides that in the case of a settler on unpatented Dominion lands who had abandoned the land, the surplus, if any, realized on sale of the land will be paid to the settler if he has made him to patient.

It is further provided that in the case of a settler who did not take possession of his land or effect improvements thereon, and abandoned his property without notice, he shall not derive the benefit of any surplus that may accrue on resale, beyond the return of his initial payment or portion of it. The surplus to which the settler would ordinarily be entitled may go to the Crown and become a part of a settlement fund to be used in the future to assist in dealing with special cases.

A third amendment proposes that an official who, through negligence or deception makes a false report on the value or suitability of land for soldier settlement, shall be liable to a fine not exceeding \$1,000 or imprisonment not exceeding one year, or both fine and imprisonment.

The World's Wettest Spot

The extensive and elaborate arrangements for recording the rain fall have revealed many interesting facts. Who, for instance, could tell you without hesitation what was the wettest spot in the whole of the British Isles? That doubtful honor belongs to Seathwaite, in Cumberland, the gauges being placed at an isolated spot on the Siye, away from the beaten track. This place has an average of 130 inches of rain a year, or more than five times as much as London, which has an average of 24 inches. The wettest spot in the world, however, is Cherrapunjee on the Assam Hills, with its average of 439 inches.

The White Elephant

A white elephant is regarded as sacred in Siam, and when one dies it is given a funeral grander than that accorded to princes of royal blood. Buddhist priests officiate, and thousands of devout Siamese men and women follow the deceased animal to the grave. Jewels and offerings representing much wealth are buried with the elephant.
