N. Y. Stocks

NEW YORK (AP) — The stock market stepped ahead Wednesday with its best advance in a month.

Aircrafts were the prime movers. They had plenty of help from steels, motors, oils, rails and others.

The Associated Press average of 60 stocks was up $1.30, the largest rise since Nov. 22, and it closed at $179.50. The industrial component was ahead $1.90, rails were up $1.60 and utilities advanced 10 cents.

Washington plans for an atomic surface ship backgrounded the rise of 4 points at 56 in Newport News Shipbuilding, a gain of 1¾ at 52¾ in Bath Iron Works, and helped General Dynamics get up 3¾ at 68.

Canadian issues were mixed. Canadian Pacific and Distillers Seagram both added ⅛ and Dome Mines gained ⅛. International Nickel fell ¼ and McIntyre remained unchanged.

On the American stock exchange Lake shore and Giant Yellowknife both slipped ⅛ and Royalite Oil remained unchanged.

Home Building Shows No Signs Of Easing In 1956

TORONTO (CP)—Canada's record home-building pace shows no sign of slackening in 1956, says a year-end forecast by Harry J. Long of Toronto, president of the National Home Builders Association.

He expects that this year's production—estimated at 125,000 units compared with 102,000 in 1954—will be equalled and possibly bettered.

Carryover of uncompleted new homes into 1956 is expected to be about 20 per cent higher than the carryover into 1955.

General cross-country opinion, said Mr. Long, is that more people will be able to qualify for ownership under the National Housing Act, although Victoria expressed doubt.

Entry of Canadian banks into the NHA lending field seemed to have solved the problem of mortgage-money supply. A questionnaire to 27 affiliates of the association in principal cities from coast to coast brought only one expression of concern on this point.

Some cities, however, are worried about rising costs. Mr. Long said the increase for the year had been modest, and probably the three per cent figure of Oshawa would be average for the country. Sarnia thought the 1956 increase would go as high as five per cent. Winnipeg expected no change.

LAND SUPPLY TIGHT

In a few centres, including Calgary, supply of serviced land for home building will be up, but many others, including Ottawa and metropolitan Toronto, lacked this advantage. Consequently, projects were being planned farther from cities.

Continued high production of houses depended on effective demand, Mr. Long commented, and for this population growth was essential—both by natural increase and immigration.

Curfew For Bethleham Owing To Jordan Riots

JERUSALEM (AP)—King Hussein has dissolved Jordan's Parliament in a drastic move to end riots against linking the Arab country to the Baghdad pact and the mounting violence has brought a curfew to Bethlehem, preparing itself for the annual Christmas pilgrimage.

The dissolution Monday automatically toppled Premier Nazza el Majali's government for the second cabinet crisis in less than a week. Premier Said el Mufti resigned last Wednesday after Britain offered to supply Jordan with new heavy arms and jet fighters if the country would join the five-power Baghdad pact.

The king did not immediately announce a date for elections for a new Parliament.

TROUBLE STARTED

The Baghdad alliance is a Western-backed defence grouping including Britain, Iran, Iraq, Pakistan and Turkey. The proposal to include Jordan stirred frenzied resentment among Jordanians who feared it might mean abandoning the country's claims against Israel.

The 4 p.m.-to-6 a.m. curfew for Jordan-held Bethlehem — Christ's birthplace—was ordered after 200 to 300 demonstrators Monday stormed the Turkish consulate in the Jordan sector of Jerusalem, burning the Turkish flag and wounding the consul-general. Four rioters were reported killed and 27 wounded by fire from Jordanian troops.

The curfew obviously is a safety measure to protect Christian pilgrims, particularly those from the West, who flock to the scene of the nativity only five miles southwest of Jerusalem. It is not yet clear what effect the curfew will have on the traditional Christmas Eve services there.

A midnight mass, with the Roman Catholic patriarch of Jerusalem officiating at St. Catherine's church adjoining the Church of The Nativity, is the largest single attraction for Christmas visitors to the Holy Land. About 1,500 persons get admission tickets to the church, which normally holds only 400, and 8,000 or 10,000 more usually gather outside.

Within Jordan, tension over the proposal for adherence to the Baghdad pact extends from the Arab sector of Jerusalem—the old city with its many holy places—to the capital at Amman. Combined details of Arab Legion troops and local police patrolled Jerusalem streets throughout Monday night to prevent any further violence.

It was Amman's second night on the alert. Anti-pact rioting there Sunday resulted in the death of one man and the wounding of several others.

Royal Bank Net Earnings Rise

The Royal Bank of Canada closes its fiscal year on November 30, 1955 with a profit, after taxes and all other charges, of $10,858,480, a 13.6 percent. increase over the figure for the previous year. This represents earnings per share of $2.58, as compared with $2.28 in 1954.

The bank's profit and loss statement this year is being presented in slightly different form in that profits are shown after provision for depreciation and income taxes, which formerly were shown separately. It is also noted that the bank has set aside this year $11,215,000 for income taxes.

Out of net profit regular dividends of $6,604,422 were paid to shareholders plus an extra distribution at the rate of 20 cents per share amounting to $840,000. The residual amount, together with the balance of undivided profits resulted in the sum of $4,918,133 from which the bank transferred $4,000,000 to the Rest Fund, leaving a balance of $918,133. This is the 6th. year in a row that the Royal Bank has transferred to the Rest Fund a portion of the current year's earnings. Capital and Rest Fund now stand at $42,000,000 and $108,000,000 respectively which, with undivided profits, bring the capital funds of the bank to $150,918,133.

The bank's annual balance sheet just issued shows total assets for the year at $3,284,143,865, a figure which exceeds the record total of a year ago by well over $250,000,000.

The first Canadian bank to show deposits in excess of $3 billion, the Royal attained under this heading a total of $3,062,220,349 in 1955, an increase for the year of $264,672,200.

Loans, exclusive of mortgage loans under NHA total $1,243,629,362, exceeding the 1954 figure by more than $55,000,000. Call loans are down by some $81,000,000, reflecting reduced activity in the securities market. Other loans, including commercial laons in Canada, increased by $137,214,338 to $1,168,841,182, indicative of the degree to which the Royal Bank has participated in the marked industrial and commercial development throughout Canada during 1955.

A striking indication of the extend of this bank's participation in providing loans for new housing is the figure for "Mortgages and Hypothecs insured under NHA (1954)", which now stands at $100,865,965. This is well over four times the figure of a year ago and represents 38 per cent. of mortgage loans on the books of all Canadian chartered banks.

Total quick assets of $1,918,749,579 indicate the bank's strong liquid position. These quick assets, which include Dominion and Provincial Government securities totalling $944,686,948, represent 61.23 per cent. of the bank's liabilities to the public.

The Annual General Meeting of Shareholders of the bank will be held at the Head Office on Thursday, January 12th, at 11 a.m.
