N. Y. Stocks

NEW YORK (AP) — The stock market finished the week with a flourishing rally Friday.

The market broke heavily last Monday, and in the next four sessions it recovered all of that loss.

Aircrafts were a strong feature of Friday's vigorous recovery drive. They were joined by steels, oils, railroads, rubbers and a number of individual gainers.

Advances of 1 to 3 points were found in a number of key spots. Aircrafts were above that with Douglas up 7 1-4 at 134 3-4 and Boeing ahead 3 7-8 at 75 7-8. Douglas was up 4 1-4 Thursday after directors increased the dividend and proposed a three-for-two split of the stock.

The Associated Press average of 60 stocks advanced $1.20 at $152.30, exactly where it was at the end of last week.

Canadian stocks were mixed. Hiram Walker gained 3-8, McIntyre added 1-4 and International Nickel was ahead 1-8. Lower were Canadian Pacific and Dome Mines, off 3-8 and 1-8 respectively.

On the American exchange, Royalite Oil was up 1-8.

Montreal Stocks

MONTREAL (CP) — The stock market edged forward in active trading at the close Friday.

Great Lakes was up a point and Donohue was 1 1-4 higher. Up 3-4 were Walker, Aluminium and International Nickel. Abitibi and BA Oil each improved 5-8.

International Paper lost a point and McCill was off 5-8. Down 1-4 were Algoma, CIL and du Pont at 28.

Papers and senior metals were higher while miscellaneous industrials and steels were easier. Senior oils were mixed. The remainder of the industrial market was mainly unchanged.

Cassiar firmed 40 cents in an irregularly improved mine section. Western oils were dull and featureless.

Toronto Stocks

TORONTO, (CP) — The base metal index gained almost a point and the western oil index three-quarters of a point on the Toronto stock market Friday.

Rumors on mining issues flooded brokers and encouraged speculation.

Gunnar, continuing its gains of earlier this week after rumors production may start in early summer, touched $13 and closed at $12.87 1/2 after trading 27,000 shares. The stock's warrants climbed 35 cents to $5.35 on almost 5,000 shares.

Headway touched 58 cents on 500,000 shares, Cassiar reached $8.15 and Citra-Lartic, New Rouyn and Shawkey hit 1954-55 highs.

In golds Barnat closed at $1.84, up 46 cents. Malartic Gold fields climbed 23 cents, Sullivan 20 and Sylvanite 14.

Western oil gains ranged up to 45 cents and strong issues included Dome Exploration Western, Central Leduc, Calgary and Edmonton, Canadian Williston, Canso Oil Products, Del Rio, Merrill, Peace River Gas and Triad.

To Cut Time Halifax To Montreal

MONCTON, N. B.,—The introduction of diesel-electric motive power has brought about a revolutionary change in the operation of railways, R. Hayes, vice-president and general manager of the Atlantic Region of the Canadian National Railways has declared.

He said that dieselization was undoubtedly the greatest single factor in reduction of cost of operation and improvement in services. The diesel-electric locomotive, he said, although in use for more than 25 years, has only now come of age due to rising costs of operation, the same as with many other modern machines.

He explained that a five-year programme was adopted by the railway in 1951 so that dieselization would take place gradually to bring about the least displacement of labour and to permit a progressive change-over of fueling facilities and an educational programme for train crews and shop employees. Among the advantages of a diesel-electric locomotive, he said, is that it needs fewer inspections by repair crews, replacements can be made far quicker than with steam locomotives and fuel costs are from one-half to one-third of the former cost of coal. "When we add up all the comparative costs of diesel versus steam power," said Mr. Hayes, "We find an average saving in operating costs of approximately 45 cents for every thousand gross ton miles of freight traffic handled." Diesel-electric locomotives, he said further, were particularly well suited to freight service because of the much higher tractive effort than steam engines at low speed.

In the case of passenger service, the "Ocean Limited" and "Scotian" in operation between Halifax and Montreal, have now been dieselized and plans have already been made to dieselize the "Continental Limited" between Montreal and Toronto. It is expected that the dieselization of the "Ocean Limited" will lead to reduction by several hours in the running time between Halifax and Montreal because of the time saved in quicker get-away from stations and the elimination or reduction of fueling time.

"All of which," Mr Hayes concluded," means that the Canadian National Railways are in a position to give a more comfortable and a faster schedule to the people of the Maritimes."

Montreal Night Clubs Improve

MONTREAL, (CP) — Vice-buster Pacifique (Pax) Plante said Friday he has noticed a great improvement in the conduct of the city's numerous night clubs in the last two months.

"I noticed the improvement as soon as the men from district stations, radio patrol cars, and the morality squad began making daily visits to licensed liquor establishments," the assistant police director said.

Plante warned that any night club owners still found tolerating prostitution and drunks contrary to city by-laws face the loss of their licences which come up for renewal May 1.
