

The Daily Examiner SEPTEMBER 22, 1885.

Cost of the Canadian Pacific Railway.

In a few days, the last spike will have been driven in the Canadian Pacific Railway, and we shall have through Canada a line of steel stretching from Halifax across the Great Plains and the Rocky Mountains to Port Moody.

Mr. McLeod stated that the C. P. R. cost the country \$156,000,000, whereas, he says, Sir Charles Tupper in Parliament once said that it would cost the country only \$78,000,000; it has, therefore, says Mr. McLeod, cost the country exactly twice as much as the Government said it would cost.

LETTERS TO THE EDITOR.

Colonial and Indian Exhibition.

Sir, -The Maritime Province of Prince Edward Island, endowed, as she is, by nature with productiveness, beauty, and healthful influences, and asking, as she does, only the opportunity to practically show to the world her capabilities and her resources, ought to 'rise as one man' to share with Sir Charles Tupper and his provincial agents, the magnificent results that representation next year in London will bestow upon the Dominion of Canada as the eldest daughter of the Imperial Crown of England.

Nearly every cotton mill in Maine is now running at its full capacity; and the mills of Canada are also well employed. The outlook for cotton and woollen factories is good. Yet, people will be pleased to know prices continue to rule much lower than in the anti-N. P. days.

CHEAP EXCURSION TO BOSTON. -Special inducements are given by the International Steamship Company, St. John, to visit Boston at the present season. Excursion tickets good to return up to October 15 will be sold for the following trips of the International steamers: Wednesday, Sept. 23rd; Friday, Sept. 25th, and Monday, Sept. 28th.

The Target.

YESTERDAY the Charlottetown Engineer Company met at the Kensington Rifle Range for their annual rifle practice. The citizens who have hitherto showed their kindness to this Company in the way of prize giving, have this year again "toed the mark," and to them the officers of the Company have desired to express their appreciation.

The wind blew very freshly, and as most of the shooting had to be done from the knee and standing positions, made it difficult to hold the rifle steady. The ranges were as follows: - 200 yards - 5 shots, standing - possible 20. 400 yards - 10 shots, kneeling - possible 40. 500 yards - 5 shots, any military position - possible 20.

GRAND Colonial Exhibition in London, Eng., 1886.

FIFTY-FOUR THOUSAND FEET RESERVED FOR CANADA. FIRST ROYAL EXHIBITION COMMISSION SINCE 1862.

THE COLONIAL AND INDIAN EXHIBITION to be held in LONDON, England, commencing MAY 1st, 1886, is intended to be on a scale of great magnitude, having for object to mark an epoch in the relations of all the parts of the British Empire with each other.

In order to give becoming significance to the event, a Royal Commission is issued for the holding of this Exhibition for the first time since 1862, and His Royal Highness the Prince of Wales has been appointed President by Her Majesty.

The very large space of 54,000 square feet has been allotted to the Dominion of Canada by command of the President, His Royal Highness.

This Exhibition is to be purely Colonial and Indian, and no competition from the United Kingdom or from foreign nations will be permitted, the object being to exhibit to the world at large what the Colonies can do.

The grandest opportunity ever offered to Canada is thus afforded, to show the distinguished places she occupies, by the progress she has made in Agriculture, in Horticulture, in the Industrial and Fine Arts, in the Manufacturing Industries, in the various Improvements in Public Works by Models and Designs; also in an adequate display of her vast resources in the Fisheries, and in Forest and Mines, in wealth, and also in Shipping.

All Canadians of all parties and classes are invited to come forward and vie with each other in endeavoring on this great occasion to put Canada in her true place as the premier colony of the British Empire, and to establish her proper position before the world.

Every farmer, every producer, and every manufacturer, has interest in assisting, it having been already demonstrated that extension of trade always follows such efforts.

By order, JOHN LOWE, Sec. of the Dept. of Agriculture, Ottawa, 1st Sept., 1885 - sep22 wks
