CAPLINS.—Between three and four hundred barrels of caplin were caught in Black Pond and Norris Pond, Lot 45, during this winter. They are valued at about \$2 50 a barrel when cured, and make good mackerel bait.

LEAVING SOURIS.—Mr. Allan Boieson, of Boieson Hotel, Souris, is selling off his effects with the intention of going out west. Mr. and Mrs. Boieson have many friends on the Island, and their departure from Souris will be regretted by all.

It is of 25 horse power, with all the modern improvements, and is now in running order ready to cut all the lumber that may be hauled to it.

VALUABLE FOX SKIN.—Mr. Vincent McLellan, of Cable Head, had the good fortune the other day to trap a silver grey fox, the skin of which, with its deep black mane and silver tips on hips, makes it one of the handsomest and most valuable seen for many a day. Mr. Alfred Carlton, of Souris, purchased and sent it, along with a large lot of mink and red fox skins, to the London market.

SKATING.—Chas. Farrent and Alex. Doyle skated down from Mount Stewart yesterday morning in one hour and eight minutes.

This morning Joseph Praught and William McEwen skated from Charlottetown to Mount Stewart in fifty-seven minutes, the fastest yet. Daniel Sullivan left with them and reached Mount Stewart three minutes later. All three skated back to town.

THE MAILS.—The mails have been ordered via the Capes again on account of the detention of the Stanley at Pictou. The mail train went to Cape Traverse last evening, instead of to Georgetown, as intended. The boats crossed both ways at the Capes to-day, but as there was no mail at Tormentine none could be brought over. The mail will be due there at four o'clock this afternoon, however, and the boats that crossed over this forenoon may make a return trip, in which case we will have a mail to-night.

FARMERS' MEETING.—A meeting to organize the Central Farmers' and Dairy-men's Association was held yesterday afternoon in J. D. McLeod's Hall. The following officers were elected.—President, Hon. Alex. Laird; Vice President, J. C. Underbay; M. P. P.; Executive Committee, Messrs. T. S. R. Benson, J. Moss Dwar, Joseph Wise, Angus McDonald, Charles McDonald; Secretary Treasurer, Professor Harcourt. In the evening Prof. Harcourt spoke on "Rotation of Crops," and a lively discussion followed. The annual meeting will be held on the second Tuesday in July.

MISS RUSSELL'S PUPILS' ENTERTAINMENT.—A very successful rehearsal of the Dress Rehearsal and Garden of Singing Flowers was given in the Lyceum last evening. The performers acquitted themselves admirably. Concert goers may look out for a rich treat next Monday evening. The Garden of Singing Flowers is alone worth the price of admission. The dr. as rehearsal takes one hour and ten minutes to perform. The music is sparkling, bright, tuneful and melodious, and cannot but be appreciated by all. We predict a bumper house. Tickets at all the drug stores.

Government members and supporters in the Legislature refer to Dominion officials as "sheep" and "slaves." Well, they were not so worthy of any political consideration as the have been robbed of their right to vote.

Exception Taken.

SIR.—The report of the Chief Superintendent of Education for 1892 has just reached here. On the report as a whole, I do not intend to make any comment. To one statement, however, I wish to take exception publicly.

On page 73, the chief in referring to the school department in Summerside, presided over by Mr. Neil Macleod, says: "Mr. Macleod stands at the head of the profession in our Province. The work in his department was far in advance of any other in the Province."

In justice to Principal Macleod, the Superintendent himself, the teachers and the public, the report should contain facts to show cause for the statement. Nothing of this, however, is seen. I do not wish in any way to disparage the character of the work done by Principal Macleod, but a statement publicly made, which is calculated to prejudice the public in favor of that gentleman, and unduly exalt him at the expense of the great majority of our teachers, demands notice at least as public as that given by our chief to Mr. Macleod.

In the first place, I go so far as to question the chief's right, without questioning his right to draw the invidious comparison he has drawn. The report gives 447 as the number of schools in the Province. How many of these did our chief visit? Probably not more than ten, or twelve. Inspection was absolutely imperative, even to mitigate the offense of placing Mr. Macleod "at the head of the profession in our Province." But Superintendent Macleod did visit Principal Macleod's department, and heard a few advanced pupils read new editions of old authors. Dazed with the beauties of the ancient classics—Horse's odes and Virgil's Aeneid—our chief is completely carried away, and beside himself, publicly expresses his admiration, and sets to work his imprimatur in just recognition of the valuable services rendered to this Province by Principal Macleod—forgetting that it is the teacher who faithfully laying the foundation in what is regarded by many as the drudgery of school life, enables him who is in a more conspicuous position to set successfully the head ornaments. But no recognition is taken or prominence given to the more humble toiler. But facts are against the chief's statement. Taking the calendar of the Prince of Wales College for 1892-3 as my authority, I find that of the students attending that institution, one is from Summerside, two from Georgetown, four from Dunstaffnage, six from Souris, and thirty-three from Charlottetown. The medalists of the Prince of Wales College since 1877, are Summerside, two; Valleyfield, two; Alberry Plains, three; Marshfield, three; Georgetown, four and Charlottetown thirteen.

This, I think, speaks something for the foundation laid by those teachers from whom these students have come. Facts, I repeat, are against the chief's statement. These figures tell the tale, and yet, forsooth, the public are told that Principal Macleod is king among the braves! Pahaw! Many of our teachers, I believe, if placed in positions similar to that of Mr. Macleod's, would, judging from known results, prove to be at least that gentleman's peers.

I might proceed to adduce further disproof of the chief's assertion, and might also convey a hint as to the motives which influenced him in this matter, but the reader will, no doubt, regard what has been offered as "quantum suff."

An Interesting Sight.—To see how anxious the people are to buy Prowse Bros' hats. But it is not surprising, for the public have caught a hint as to the motives which influenced him in this matter, but the reader will, no doubt, regard what has been offered as "quantum suff."

GENTS.—We cannot be too grateful, for the benefit our little child derived, from the use of SKODA'S REMEDIES. When less than 9 months old, his face broke out with a Terrible Eczema. The itching and burning caused him to scratch so much that his cheeks became raw, and bled considerably. He suffered extremely. We gave him 3 drop doses of the DISCOVERY internally, used the SOAP and OINTMENT externally, and in a few weeks he was perfectly cured, and is to-day a rugged, healthy boy.

Respectfully,
