MRS. LOUIS J. MCGINN

Friends throughout the Province heard with regret of the passing of Mrs. Teresa Jane McGinn, widow of the late Louis J. McGinn of Fredericton, N.B., which occurred on Sunday, August 13th at the home of her son, F. X. J. McGinn, Follis Court, Saint John, N.B.

Born in Maplewood, Mrs. McGinn was the daughter of the late Mr. and Mrs. James Flood of Kelly's Cross. She received her early education in "Treg" School, and following a course in Prince of Wales College, she taught school for a number of years at Forgan's Hill and Clermont. Following her marriage she lived for several years in Boston, later taking up residence in Fredericton, N.B. where she made her home for the past forty years. During that time she frequently visited the home and scenes of her childhood and girlhood, renewing friendships which seemed to bring to her a new lease of life. Within the past year, however, a warning of the inevitable was given, through a series of slight shocks, from which she recovered sufficiently to make brief visits to her sons and daughters. It was at the time when she was staying with her son Frank in St. John that the end came rather suddenly. Her two sisters from Charlottetown had just returned from visiting her when a telegram informed them of her death.

The devotion of her family was shown during the period of her illness when everything was done that medical skill and tender care could do to keep her with them. As a member of St. Dunstan's Church and of the Catholic Women's League in Fredericton, she played her part in the work of the church and community.

She has left to mourn the loss of a loving mother and sister, four sons and two daughters, three sisters and two brothers, as well as twenty-three grandchildren and four great grandchildren. The sons are: Walter J., Louis J., and Clement L., all of Fredericton, N.B., and Frank X.J. of Saint John, N.B.; two daughters: Anna, Mrs. Harold Moffatt, McAdam, N.B.; and Bernice, Mrs. Harry Trann, St. Stephen, N.B. The sisters are: Mrs. John R. Hogan, Brookline, Mass.; Mrs. Frank Murray and Mrs. Daniel Malone of Charlottetown; and two brothers, James D. Flood, South Melville, and Frank J. Flood, Charlottetown.

Her body was taken by train from Saint John to Fredericton where it rested at the home of her son, O.L. McGinn, 466 Westmorland Street, from where the funeral was held on August 17th to St. Dunstan's Church where High Mass of Requiem was celebrated by Rev. J.P. Mitchell. Present in the sanctuary were Rev. Albert C. McDonald and Very Rev. Walter M. Donahoe. The Mass was served by five grandsons of the deceased, Walter, Patrick, Louis, Leroy, and Donald McGinn. Four sons, Walter, Louis, Clement and Frank, and two sons-in-law, Harry Wann, and Harold Moffatt acted as pallbearers. The funeral was very largely attended and the hundreds of spiritual and floral offerings bore mute testimony to the esteem in which the deceased was held. Interment was at "The Hermitage", Fredericton, where Rev. J.P. Mitchell said the committal prayers. Attending the funeral were Mr.

James D. Flood and Mrs. Frank Murray, brother and sister of the deceased.

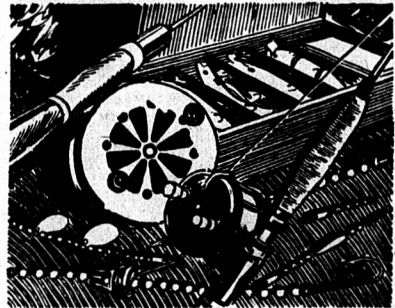

KELLY'S CROSS C. W. L.

So...Nickel goes fishing

With the full power of the engine behind it, a propeller shaft has to have great strength and stiffness or it will bend or break. "Monel" shafts give remarkable satisfaction and long life.

Trolling lines of "Z" Nickel wire are being used more and more because they are tough, rust-proof and easy to reel in. Fish hooks and tackle made of Nickel alloys are strong as steel, and resist corrosion even in salt water.

Equipment made of Nickel alloys is used in handling and canning fish and other sea food because it is rust-proof, sanitary and stands an immense amount of wear.

Forty-three years of research have uncovered hundreds of uses for Nickel in the United States and other countries. Now Nickel exports bring in millions of U.S. dollars yearly. These dollars help pay the wages of the 14,000 Nickel employees in Canada and also help pay Canadian railwaymen, lumbermen, iron and steel workers and other men and women making supplies for the Nickel mines, smelters and refineries.
