

Huge B52's Stage Raid On N. Viet Nam Areas

Second Attack Made By Planes From Guam

SAIGON (AP) — U.S. Air Force B-52 bombers from Guam carried out an attack on Viet Cong communications and a troop staging area early today about 35 miles northeast of Saigon, a U.S. military spokesman announced.

The raid was "a spoiling mission designed to harass the enemy and disrupt his operations, facilities, communications and morale."

The announcement did not say how many B-52s from the Strategic Air Command were used, reporting only that "a number" bombed the target area in Zone D, in Phuoc Thanh province.

Viet Cong Battalion Shattered In Attack

By PETER ARNETT
SAIGON (AP) — South Vietnamese troops and armor fighting under supporting attacks by U.S. warplanes, shattered an enlarged Viet Cong battalion Sunday in a sharp clash near the southern tip of Viet Nam.

U.S. officials said the guerrillas quit the fight after failing to overrun the government forces and left 90 of their own dead behind, many of them victims of the U.S. air attacks.

The Viet Cong broke and ran into the open where the propeller-driven Skyraiders strafed them with 20-mm. cannon fire.

U.S. Air Force jets and propeller-driven Skyraiders then attacked the Viet Cong flying 52 sorties against guerrilla positions.

The Viet Cong broke off the fight in mid-afternoon. They left behind one anti-aircraft machine-gun, a 60-mm. mortar and 26 individual weapons.

Ground action elsewhere in South Viet Nam apparently was light.

In the air war against North Viet Nam, U.S. jets and propeller planes once again hammered at bridges, river traffic, and an ammunition dump. Several buildings at the ammunition dump were hit but a lack of secondary explosions indicated the buildings contained no explosives, a U.S. spokesman said.

Dief Thinks Dorion Report Dims Chance Of Early Vote

OTTAWA (CP) — Opposition Leader Diefenbaker said Saturday public reaction to the Dorion report should erase any idea the government might have of calling a fall general election.

Mr. Diefenbaker said on arrival back in the capital from a four-day trip to Western Canada that public opinion on the Prairies showed the Liberal government has been unable to "paper over the cracks."

"If they think they have, they have a second guess coming. I would think even a man like Mr. Gordon could conclude that the wind is not blowing in the right direction for the government."

Finance Minister Gordon said in a recent Toronto speech he personally favors an October election. Mr. Diefenbaker has been warning his party to be ready for a fall vote.

Mr. Diefenbaker said Prime Minister Pearson's contradiction of one aspect of the Dorion report constitutes "the most inexcusable intrusion against the independence of the bench which has ever taken place in this country."

The exchange between Mr. Pearson and Chief Justice Frederic Dorian is part of an overall pattern, the opposition leader said.

"At first it was control of parliament — the government doesn't want any criticism. Then it was thought control and control of the press through the newspaper legislation. Now it is control of the findings of a judge who was appointed by the government with appropriate eulogies for his ability and legal knowledge."

As well as dimming chances of an early election, Mr. Diefenbaker said the report by Chief Justice Dorian should have its effect on the minority parties in the commons.

Four Injured In Explosion

OROMOCTO, N.B. (CP) — Four persons injured when a 40-foot cabin cruiser exploded here Saturday night are reported in satisfactory condition in hospital at Fredericton.

They are Mr. and Mrs. William A. Daley and Mr. and Mrs. Maurice Scovill, all of Amherst.

Also injured was Blake Daley, a son of Mr. and Mrs. Daley. The youth was released from hospital.

The cabin cruiser—owned by Mr. Daley—exploded after it had taken on about 80 gallons of gasoline.

Japanese Gov't Leads In Voting

TOKYO (AP) — Premier Eisaku Sato's Liberal-Democratic party took an early lead in unofficial returns from upper house elections Sunday.

A tabulation shortly after the polls closed showed 36 Liberal-Democrats elected to 12 for the Socialist party, Sato's No. 1 political opposition. The complete, official tabulation of results is scheduled tonight.

A total of 127 seats in the 250-seat House of Councillors were at stake, including 75 of 144 seats held by the Liberal-Democrats, 28 by the Socialists and 24 by minor parties. Members serve six-year terms and half are elected every three years, and vacancies are filled.

Dorion Says Disagreement Is Settled

QUEBEC (CP) — Chief Justice Frederic Dorian said Sunday his disagreement with Prime Minister Pearson over the judge's report on the role of Ottawa officials in the case of narcotics suspect Lucien Rivard has been settled.

The Quebec Superior Court Justice gave no further details. He said in an interview he will explain the settlement at a press conference in Quebec City today.

The disagreement centres around the judge's establishment in his report of the date at which Prime Minister Pearson was made aware of the Rivard case by Justice Minister Favreau.

Both Mr. Favreau, who resigned the justice post after the report appeared, and Mr. Pearson have said the prime minister was not informed as early as the judge states.

9 Die In Accidents In Atlantic Area

By The Canadian Press
Nine persons died in accidents in the Atlantic Provinces during the weekend. Seven in traffic accidents, one by drowning and one as the result of a well cave-in.

Newfoundland, which is observing its Memorial Day weekend, reported five traffic deaths.

Three-year-old Leo Michael O'Reilly, son of Mr. and Mrs. Leo O'Reilly of Bishop's Falls, died in hospital at Grand Falls Sunday morning about seven hours after he was struck by a car near his home.

Three-year-old Michael Francis Lee, son of Mr. and Mrs. Walter Lee, died Saturday when struck by a truck near his home in St. John's. Another traffic accident took the life of Mrs. Bertha Sheppard, 43, she was a passenger in a car which left the road and struck a power pole.

Police are continuing investigation into the death of Gerald Fleming, 17, of Spiller's Cove whose body was discovered on the Bonavista-Catalina highway Saturday by a highway department grader operator.

Augustus Vincent Neville, 40, died Saturday night when he was struck by a car as he walked along the highway near Bay Roberts. The victim was a resident of North River, Conception Bay.

Nova Scotia's fatality toll climbed to three with the death in a Halifax hospital Sunday of a 19-year-old William Paul Murphy. RCMP said the boy was struck by a car near his West Chezzetcook home.

Charles MacKinnon, believed in his early 20s, died in hospital in Antigonish Saturday from injuries received when struck by a truck near his home in the university town.

At Fall River, about 15 miles north of Halifax, Charles Edward Merrim, about 60, died when the sides of a well collapsed on him. He was attempting to deepen the well when the accident occurred.

Gapping continued in New Brunswick's Shediac Bay for the body of 28-year-old Joseph Francis Melançon of Moncton who disappeared Saturday when a canoe overturned. A companion, David McArthur, 20, also of Moncton, made the shore of an island safely.

Heavy Rain Aids Ottawa Valley

OTTAWA (CP) — Rainfall during the past 48 hours, surpassing total rainfall in June, has brought much needed relief to the drought-stricken Ottawa Valley.

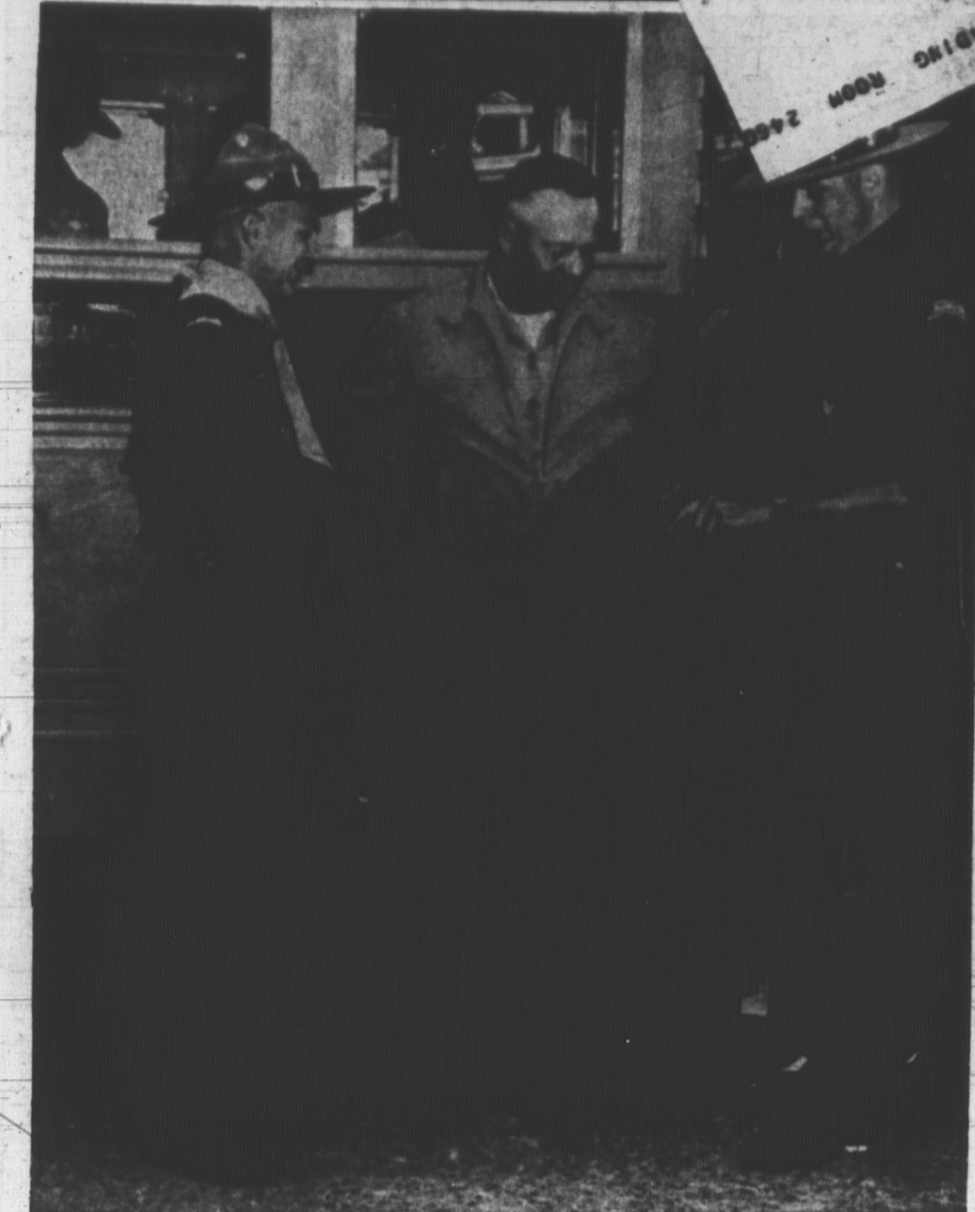

A total of .74 inches, .02 inches more than in the entire previous month, fell Saturday and Sunday, raising the hopes of farmers that a second-hay crop can be put in.

The first hay crop was ruined by the drought which has parched eastern Ontario and western Quebec since mid-May.

Cool Reception Given Princess

AMSTERDAM (Reuters) — Crown Princess Beatrix and her West German fiancé received a cool reception in Amsterdam Saturday in the first big popularity test since their engagement was announced.

Crowds were small, few Dutch flags were flown and only 19 of the capital's 39 town councillors turned up at city hall to welcome them.

MONTAGUE SCOUTS LEAVE FOR NFLD.

Montague scouts Saturday prepare to leave on a bus trip to Cornerbrook, Newfoundland, where they were weekend scouts. Examining a wooden handicraft given the Montague troop by Newfoundland scouts the troop met last year during a tour of the Maritimes are scoutmasters John Shaw (left), Douglas Hender and bus driver Jacob Spinn (centre) of Valleyfield. Making the trip are 19 scouts and two scoutmasters. (See story on page 5).

Philip's Comment On Rhodesia Stirs Political Hornets' Nest

LONDON (AP) — Prince Philip found himself in the middle of a hot controversy Sunday. The prince, often an outspoken man, stirred up a hornet's nest Friday night in a speech in Edinburgh in which he urged patience in settling the future of Rhodesia rather than "risk a blood bath."

The Rhodesian question is a ticklish one and Prince Philip's plea for patience ran counter to pleas of African prime ministers who have been urging Prime Minister Wilson strongly for immediate action. Wilson and Prime Minister Ian Smith of Rhodesia have been negotiating the constitutional future of that British African dependency, where 225,000 whites rule 3,500,000 Africans.

Labor legislator Hugh Jenkins said Saturday he intends to raise the matter in Parliament by a motion which would, in effect, be a challenge to Prince Philip. The motion will start (Continued on page 5, col. 4)

Russian Equipment Buildup Possible In North Viet Nam

WASHINGTON (AP) — U.S. reconnaissance has spotted a number of large-hatched ships arriving at North Viet Nam's main port, possibly indicating that the Russians have begun sending in some of their promised military aid.

Sources said Sunday that such vessels, big enough to carry crates containing advanced model MIG jets or anti-aircraft missiles, reached Hai Phong fairly recently after long voyages from Russian ports via the Mediterranean.

Sources stressed that it is not known for sure what the ships were carrying.

They said the number of Communist ships reaching Hai Phong has not been unusually large but that enough vessels have docked there to have provided a fairly sizable build-up of military equipment.

Ships with large hatches were used by the Russians to sneak missiles and bombers into Cuba in 1962. The same vessels hauled those weapons out of Cuba under threat of U.S. military action.

U.S. military sources said it is expected that the Russians will carry through on their promise to provide armed help to the North Vietnamese.

July 4th Revellers Riot In Mid-West U.S. Resorts

By THE ASSOCIATED PRESS
Youthful, beer-swilling July 4th revellers rioted in three mid-western United States resort spots early Sunday, doing heavy property damage and battling police and reinforcements rushed in to restore peace.

At Russell's Point, Ohio, and Arnolds Park, Iowa, authorities used tear gas to subdue the hundreds of rioters, and called in the national guard to help keep control.

Officers from seven surrounding counties and the Missouri Highway Patrol rushed to Rockaway Beach, Mo., along with police dogs, as between 2,000 and 3,000 rioters took the vacation town apart.

There were about 60 arrests each in Russell's Point and Arnolds Park and 175 in Rockaway Beach.

In addition, there were 30 arrests Saturday night among some 500 college-age students involved in a disturbance at Geneva-on-the-Lake, Ohio, and nearly 120 arrests at the resort village of Lake George, N.Y. Authorities at both of these locations did not describe the troubles as riots.

At the Newport Jazz Festival this weekend, police kept a tight rein on the thousands of visitors in town.

Sheriff Lyman Cardwell said Rockaway Beach's trouble erupted with the arrest of three youths on one motorcycle and "it got pretty vicious for a few minutes."

From 200 to 500 of the Missouri rioters climbed onto the roof of a dance hall and hurled missiles into the crowds below.

Rockaway Beach counted this toll: Shattered windows in nine business places and countless automobiles, an overturned police car, a demolished dance hall roof sign and a looted liquor store. In addition, several persons were wounded by bird-shot fired by unknown persons and others were injured in the scuffling.

"If the parents were only on hand to see how their children are living and behaving down here, this wouldn't happen."

COLUMBIA CULTURAL CENTRE IS OPENED

Premier Walter R. Shaw, left, cut the ribbon to officially open the Columbia Cultural Centre last evening at North Rustico. On hand for the ceremonies were Most Rev. Malcolm MacEachern, Bishop of Charlottetown, Heath Macquarrie, MP for Queens and missing from the picture is Alban Farmer, provincial treasurer and attorney-general. Eric Doucette, camp administrator, is seen on the right of the picture steady-ing the ribbon for Premier Shaw. The Centre will run two 10-day camps for instruction in the arts. Judy Armstrong Banks of Montreal is the instructor in Drama, Peggy Smith, Charlottetown, instructor in art and Gabriel Chaisson, Summerside will instruct music at both the camps.

Stampede Brew Mixed By Hays

CALGARY (CP) — Agriculture Minister Harry Hays put on a herring, aspirin, alkali seltzer, and "a little dash of cold cream" — a little looked like it held French dressing.

A bewildered Guernsey cow, with a collar of flowers around its neck, was led up near the bowl by two bagpipers.

Mr. Hays reached underneath, tapped several thimbles of milk from the cow and tipped it into the bowl. That was the final touch.

The crowd, many with cameras, stood shoulder-to-shoulder under a hot sun and laughed as Mr. Hays wisecracked.

Earlier, they had gulped down healthy helpings of scrambled eggs, fried potatoes and onions, rolls, hot coffee and grapefruit juice.

There were about 3,000 guests, including the Russian ambassador to Canada, Ivan F. Shpedko, packed on to Mr. Hays' suburban farm in southwest Calgary to watch the agriculture minister mix his famous brew.

The breakfast was one of a number of weekend events that preceded the opening of the Calgary Stampede today. The big show ends July 10.

For the siltub mixing, Mr. Hays poured ingredients from an assortment of bottles into a huge bowl shaped from a block of ice.

Improvement Is Noted In N.B. Fire Outlook

By THE CANADIAN PRESS
New Brunswick forestry officials noted a slight improvement Sunday in the forest fire situation but the general picture is still regarded as critical.

Four or five new fires broke out in the province's woodlands Sunday but all were brought under control.

Main concern continues to dwell on three big fires which have burned over a total of 8,300 acres in the last week.

Still out of control were fires near Douglastown, Comagonos River and at Big Bald Mountain all in Northumberland County. Another fire in Gloucester County's Tracadie area has burned over 400 acres but was being contained.

New Brunswick's director of forest fire protection D.A. Wolstenholme said a Canoe water bombing plane being borrowed from the Quebec government is to be put into service battling the Douglastown blaze Sunday night. Some 150 troops from Camp Gazetown were concentrated on the Tomogonops River blaze.

Subsiding winds were described as the important factor in assisting firefighters in their efforts.

Meanwhile, there has been no word on the extent of a fire near the Cape Breton Highlands National Park in Nova Scotia. Flames erupted in the thickly wooded area near Ingonish Beach Saturday night. Fog over the mainland has near Weyburn, N.S., prevented provincial forestry planes from larking off to make an aerial survey of the Cape Breton fire.

Three small forest fires broke out in light growth in the west coast area of Newfoundland over the weekend but all were quickly put out after burning over small areas.

Newfoundland has now had 68 forest fires this year. Heavy rain last week brought the forest fire index down after more than two weeks of dry weather that shot the index to extreme
