Stock Prices At New York Take Brief Breathing Spell

NEW YORK (AP)—The stock market last week took another breathing spell in its long climb toward one historic high after another.

The market averages were not in agreement as to whether the market rose or fell. Statistics showed that a few score more issues advanced than declined, but this is not always a consluve indicator.

One of the "biggest" stocks on the New York Stock Exchange, based on the market value of its shares, took a sharp loss. This was General Motors, which dipped 3⅞ to 106¼.

Selling in GM developed after directors failed to propose a stock split. The giant automaker declared a fat dividend of $2.25 a share.

The movements on average were minor this week.

The closely watched Dow Jones industrial average declined 1.36 to 959.46.

The Associated Press average of 60 stocks rose .6 to 355.6, its 11th straight weekly rise.

Both of these averages rose to historic closing peaks Thursday. The Dow industrials made a high of 961.85, the AP average 355.8.

Standard and Poor's 500-stock index was off .05.

Cut to four days of trading week by the off-year U.S. elections Tuesday, the week had a turnover of 29,567,240 shares compared with 36,007,866 the previous week.

By Thursday the accumulated volume for 1965 had already topped the record annual volume of 1,236,000,000 shares in 1964. By week's end the accumulated year's volume had reached 1,249,000,000 shares, about 190,000,000 more than were traded at this time a year ago.

The market was dampened Monday by reports that President Johnson was opposed to an aluminum-price boost.

The list put on its strongest performance on Thursday when the Dow industrials and the AP average climbed to new peaks together.

The five most active issues this week on the New York Stock Exchange were: Pan American World Airways, up 1 at 39½ on 415,400 shares; American Telephone, down ⅛ at 65; Sperry Rand, down ⅛ at 17⅝ Transitron, up 1¼ at 9¼; and Fairchild Camera, down 4⅜ at 117⅜.

The five most active issues this week on the American Stock Exchange were: Thompson - Starrett, up ⅞ at 6⅜; American Electronics, up ⅜ at 1⅞; Sterling Precision, up ⅜ at 1⅞; GTI Corp., up 2½ at 7⅝; and Lodge and Shipley, up ⅜ at 2⅜.

Ruble Seen Dollar Challenge As Reds Make Concessions

MOSCOW (Reuters)—The ruble may begin to vie with the U.S. dollar as an international currency if an apparent Kremlin concession to its East European allies is put into effect.

The concession, which has so far only been recommended would enable the area to trade more freely with the West.

The U.S.S.R. apparently has agreed in principle that Eastern Europe's International Economic Co-operation Bank should hold part of its authorized capital in gold or freely convertible currencies.

Some East European countries, especially Poland, with a favorable trade balance in relation to the rest of the area, are known to have wanted such a move for some time.

If the recommendations are put into effect, these countries will be able to draw gold or hard currency from the bank to finance deals with the West.

MUST SETTLE DEBTS

But hard - currency withdrawals presumably would be limited by a country's favorable balance with the bank after settling its debts within Eastern Europe.

At present any surpluses remain in rubles, which can only be used within the area of Comecon, Eastern Europe's mutual assistance pact.

The official Soviet news agency, Tass, said a recent meeting in Budapest of the Comecon currency and finance standing committee adopted recommendations that part of the bank's capital should be in gold or freely-convertible currency.

Although the recommendations are likely to be put into effect by Comecon, there could be some delay before they are put into practice.

This could give the Kremlin, which contributes one third of the bank's capital, time to recover some of the hard currency it has had to spend on grain imports from the West this year.

FINDS CRATER UNSAFE

JAIPUR India (AP)—When air raid sirens began to wail, a Jaipur man jumped into a nearby crater for shelter. Seconds later he jumped out after discovering he had landed on an unexploded, 1,000 - pound bomb dropped during the India-Pakistan conflict.

Steel Output Starts Climb

CLEVELAND (AP)—Steel ingot production, which declined for eight straight weeks in U.S. mills, has levelled off close to the 2,000,000 - ton mark, Steel Magazine reports.

Output rose fractionally in the week ended Oct. 30, to 2,065,000 net tons and was only an estimated 5,000 tons under that figure last week, the U.S. metalworking weekly says.

"High consumption in major industries — especially automotive—and reductions in user inventories indicate no substantial change in steelmaking schedules will be necessary for several weeks," Steel says.

A "strengthening segment of demand" is reported coming from "the escalation of military activity in Viet Nam."

"For example, 5 per cent of steel output in the Chicago area is reported to be going for military purposes," Steel says. "The 'normal' take is only 2 to 3 per cent.

"Rush orders have been received for barbed wire and fence posts for Viet Nam. One of the largest barbed wire inquiries in years asks for bids on 1,440,000 coils of barbed wire, involving 36,000 tons of steel.

"Recently the government placed $3,000,000 worth of barbed wire on two contracts covering 7,132 tons of steel."
