A SICKENING SIGHT.

OFFICIAL ACCOUNT OF THE RELIEF OF KUMASSI—A FAMISHED GARRISON.

The following telegram from Colonel Willcocks to Mr. Chamberlain is the official narrative of the relief of Kumassie, which followed the escape of Sir Francis Hodgson and party, as related above:—

Bekwai, July 20.—Just returned from Kumassi, which was relieved July 15, after two days' running fight, ending in successful attack and dislodging enemy from out four stockades within one mile from Kumassi. Enemy's position perfectly selected and prepared on high land, and completely hidden by almost impenetrable bush.

July 14 I reached Ekwanta; Captain Eden, West African Frontier Force, and Lieut. Edwards, Sierra Leone Police Force, carried village Treda with bayonet; village held by 600 of the enemy. Following casualties reported:—Four natives soldiers wounded.

July 15 I left Ekwanta at dawn through roads in indescribably bad condition; guns moved with greatest difficulty, but, at the same time, all kept up. Rear-guard attack three o'clock in the afternoon repulsed by Major Beddoes, West African Frontier Force.

At 4.30 o'clock in the afternoon Major Melliss, West African Frontier Force, and Lieut. Edwards, Sierra Leone Police Force, leaders of scouts, heavily fired on, both of them slightly wounded; Major Wilkinson, Inspector-General of Gold Coast Constabulary, officer commanding advanced guard, brought up all the field guns under Phillips, West African Frontier Force, and also three Maxim guns, as it was evident that we were now in the face of enemy's entrenched position.

I gave orders for infantry to extend to both flanks; entangled bush had to be cut before any men could possibly penetrate. After twenty minutes, infantry had extended sufficiently, facing north, and two companies facing east towards rising ground, on which side enemy kept up heavy fire, although the four Maxim guns were busily employed against them.

About twenty casualties had now taken place, and having full confidence in officers and men, I determined, notwithstanding the enemy being posted behind, to advance with the bayonet;

the bugles sounded cease firing; they were promptly obeyed, and the charge could not have been beaten in elan by any soldiers.

I am proud of Yoruba native soldiers, West African Frontier Force, who formed bulk of charging force, and any misgivings as to their qualities which may hitherto have been felt by those who only believed in the Hausas are vanished. Their gallant conduct is the admiration of every officer present at the fight.

The bayonet charge absolutely paralysed enemy, who at once ceased firing and fled away in thousands, leaving behind a great many mangled dead in the stockades and the bush, showing terrific havoc caused by 75-millimetre guns, news of which will, I hope, spread over all this country.

I have destroyed war camp of the commander-in-chief of the Ashanti army, situated near main road, and I entered Kumassi at six in the evening. Terrible scenes of desolation and of horror; stench sickening; nothing but burnt down houses and putrid bodies to be seen, the latter right up to the walls of the fort. Garrison delighted beyond words. Native soldiers most of them too weak to stand. British officers thanked God for relief, as a few days more would have seen the last of the defence.

I left Kumassi July 17, leaving behind 150 native soldiers, under Capt Eden, Lieut. Mayne, Medical Officer Thompson, and Sergeant Desborough, R. A., all West African Frontier Force, and ample supply of ammunition and of food for seven weeks, long before which I will have reinforced detachment with a force sufficient to feed itself from the surrounding villages, etc. I brought away from Kumassi old garrison, most of them in hammocks, and also a great many refugees, women and children. Before departure from Ku-

Every Kind of Backache

Pains in the small of the back, over the kidneys, are usually due to derangements of the kidneys, and disappear when the kidneys are set right.

But there are other kinds of backache, by far the greater proportion, that can never be reached by treating the kidneys. Pains in the shoulders, through the centre of the back, and in the sides are caused by a torpid action of the liver, and can only be driven out when the liver is made healthy and active.

To reach the liver, as well as the kidneys, to set the filtering organs in working order and to cure every kind of backache, there is but one unfailing remedy, and that is Dr. Chase's Kidney-Liver Pills. It is the only treatment that has this direct and combined action on both liver and kidneys, and the only one that positively and permanently cures backache, whether caused by liver or kidneys.

massi had burned heaps of rotting corpses, which must have been lying near forts for weeks past. I had also cut short bush and the grass, which was growing quite close to the walls of the fort. The work was sickening in the extreme, but, at the same time, all ranks helped bravely.

In my opinion the garrison left behind at Kumassi was altogether unequal to the task of holding fort, and nothing less than fear of the Ashantis to attack could have saved them, notwithstanding strong fort. I have never seen anything so gruesome as the vicinity of fort. I expected, with my 1,700 unarmed native followers and the sick and wounded, some difficulty in coming; but enemy's being completely dispersed on July 15 seems to have frightened them; as they did not fire a shot for twenty-five miles' march which took three days, owing to two days' consecutive rain.

I cannot end without bringing to notice the soldierly qualities of officers and men under trials I have personally never previously known in my long experience of jungle warfare, their cheerfulness under every form of discomfort, their valour against the unseen and unknown numbers, on half rations, native soldiers, without any blankets, yet always cheery. They are deserving of high praise.
