

THE DAILY EXAMINER. APRIL 30, 1884.

A Good Use of Wealth.

It is pleasing to learn that the Superintendent of Education has received from Mrs. Cumberland, of England, the sum of \$2,190, and also a deed of Charlottetown lots leased at a yearly rental of \$58.40, as a trust fund for the endowment of the Fanning Grammar School at Malpeque.

The Short Line.

ITS FINANCIAL POSITION.

When the location of the proposed short line is finally established, there can be no doubt that the work will be quickly pushed forward, and the subsidies given by the Federal Government are ample to secure its construction.

- 1. A guarantee of interest of \$170,000 per annum for fifteen years for a line from Montreal to St. John and Halifax, and \$30,000 per annum for a line from Oxford to Sydney or Louisburg, making \$200,000, which would at 4 per cent. be equivalent to a capital of \$5,000,000, or at 5 per cent. would pay interest on bonds to the extent of \$4,000,000.

So that with the equivalent of nearly six millions of dollars available, there ought to be no difficulty in quickly completing the line, which will give the shortest direct communication between Montreal, St. John, Halifax and the old renowned port and fortress of Louisburg.

If the location for this new line is selected via Quebec, the mileage of the new line to be constructed will be as follows:

Table with 2 columns: Miles and Amount. Rows include Quebec to Woodstock, Woodstock to St. Lawrence, St. Lawrence to Fredrickton, Fredrickton to Moncton, Moncton to Oxford, Oxford to New Glasgow, New Glasgow to Louisbourg, and total.

Khartoum.

Khartoum, if the windings of the Nile are followed, is some 1,900 miles from the Mediterranean, 1,700 miles from Cairo, and 1,100 miles above the first of the six cataracts. The city occupies the triangle at the forks of the Nile, with "the White Nile" so called on one side, and "the Blue Nile" on the other.

General Gordon first appeared in this region in 1873, and was appointed by the Khedive Governor of the Equatorial provinces, which had then been lately won to Egypt by Sir Samuel Baker. In 1877 he became Gordon Pasha and the Sudan was added to his gubernatorial domain.

The native allies of General Gordon have proved cowardly and treacherous, and turned his recent brilliant sortie into a defeat and rout, which has resulted in two Egyptian Generals being court-martialed and shot.

A CORRESPONDENT of the New York Times, writing from Louisiana, draws a fearful picture of the wholesale demoralization of that State, occasioned by the legalized lottery system. He states that the mania has seized on all classes, high and low, rich and poor, male and female, white and black.

JOHN PARBOTT, the pioneer banker of San Francisco, who died last week, leaves a curious will. His estate, valued at five millions, is not to be divided until the death of his widow. She will act as trustee of the property devised to her and her children.

LETTERS TO THE EDITOR.

Unqualified Denial.

SIR,—Permit me to give an unqualified denial to a report which has obtained currency to the effect that I am in the habit of leaving Vernon River for Wood Islands with the mails, before the arrival of the courier from Charlottetown.

Yours truly, J. McDONALD. Vernon River, April 28, 1884.

No Inspector of Vacuums.

SIR,—In yesterday's issue of your paper some inquisitive individual signing himself "J. J. C." asks to be enlightened as to the duties of the person spoken of in your issue of the 26th inst. as "Inspector of Vacuums" for the P. E. I. R.

Hope that "J. J. C." will be satisfied with this explanation. I am, yours etc., RAILWAY MAN. 29th April, 1884.

Irreverence.

SIR,—It may seem somewhat strange, and a little out of place, to introduce into a secular newspaper, strictly religious matters. But these are times of considerable irregularities, as daily events show; and since I have observed that your local correspondents do not entirely avoid all reference to religious ideas, I venture to call the attention of your many intelligent readers to some matters which, I trust, will commend themselves to their candid and unprejudiced consideration.

It cannot be denied either that every interpretation is so palpably maintained in a purely partisan spirit as to almost preclude the love of truth, pure and simple, as a chief motive.

NOTICE is hereby given that application for all such licenses as are authorized to be granted in the License District of Queen's County, may be filed with the undersigned until Thursday, the 10th day of May next, and that the meeting of the Board of License Commissioners, for Queen's County, for the purpose of taking into consideration all such applications, has been adjourned until that day, when it will be held at the Grand Jury Room, in the Law Courts Building in Charlottetown, at the hour of 11 o'clock, a. m., to determine upon all applications for wholesale licenses, or licenses to vendors in this County, under the Canada Temperance Act, 1878, or the Liquor License Act, 1883, and its amendments.

By order of the Board, R. H. CRAWFORD, Chief Inspector. Charlottetown, April 30, 1884.—5i w wy2i

A Defence.

SIR,—Had "Another Citizen" heeded your remark, "There is an urgent necessity for a further discussion of the waterworks question," he would have given us a far different article. The whole article may be summed up in a sentence—"no case, abuse, the opposite counsel." Passing the soft soap with which he opens, he continues: "I must say the criticisms on the status of the petitioners, indulged in during the latter part of the late Session of the Legislature, were very just and correct."

petitioners were just and correct." Who indulged in the criticisms? No doubt the members of the Legislature, and who are they? A half score or less of gentlemen, and a score or more of bumptkins pitched-forked into a place for which God, nature, nor education ever qualified them.

Another correspondent who signs himself "Water," insinuates that if gas had been used in Kennedy's store the late fire would not have taken place. The argument is not conclusive. In the Boston Globe of January 19, 1884, is an account of an explosion of gas and a fire, and a greater destruction of property than any we ever had here by fire.

The Arctic steamer Alert, presented to the United States by the British Government, has arrived at the Brooklyn Navy Yard. Before crossing the Atlantic she was thoroughly overhauled. She was strengthened by extra beams and iron knees, her bows by solid beams and iron sheathings. Felt was placed between the inside planking and the lining to keep out the cold, and she was divided into water-tight compartments.

AYER'S HAIR VIGOR restores gray hair to its original color, and makes the hair vigorous and abundant.
