BROOKFIELD MAN LOSES LIFE IN HIGHWAY ACCIDENT

Reds Prepare To Throw New Troops Into Action

Flow Of Butter Into Government Storage Ends As Prices Strengthen

OTTAWA, Oct. 10 (CP)—The Federal Government has gained control over the butter market, agricultural sources disclosed today.

They said the flow of surplus butter into government larders during the summer was big enough to give the government the upper hand in stabilizing butter prices through the winter.

Officials declined to disclose how much butter the government has stored. One commercial dairy expert estimated that it might be about 45,000,000 pounds.

In its latest estimate, the Bureau of Statistics placed total creamery butter stocks on Oct. 1 at 77,427,000 pounds.

The Bureau gave no breakdown. The total stockpile was about 14,800,000 pounds higher than last year's 62,628,000 pounds. At that time, the government imported 12,500,000 pounds and the trade 4,500,000 pounds to prevent a possible winter shortage. No imports are expected this year. The government has placed butter under import control.

The government's butter ac-

Local Irish Society Honors Patrick McTague

Mr. Patrick McTague

The Benevolent Irish Society of Charlottetown last evening honored one of its most notable members in the person of Brother Patrick "Paddy" B. McTague, of Charlottetown. Brother McTague was a member of the Benevolent Irish Society for the past thirty-three years and the Society chose this evening, the one hundred and twenty-seventh year of the Society's founding, to honour one of its most faithful and loyal members.

A beautifully prepared address was read by the treasurer of the Society, Mr. J. P. Callaghan, and it was presented to the honored

Battle Rages 5th Day For White Horse Mountain

SEOUL, Oct. 11 (Saturday)—(AP)—The bloody, indecisive battle of White Horse Mountain on the Korean western front today raged into its fifth day with the Chinese Communists ready to throw 16,000 fresh troops into the struggle.

Never-say-die South Korean infantrymen battled back to within 150 yards of their crest under fierce Chinese artillery and mortar fire.

Rain was falling making progress still more difficult.

The height, guarding the approaches to the Chorwon valley on one of the main invasion routes to Seoul, changed hands more than a score of times since Monday—seven times on Friday alone. It was the fiercest action in more than a year.

Wild hand-to-hand fighting in pitch darkness late Friday tumbled South Korean 9th-Division troops off the crest. They reformed and launched a counter-attack early today.

Front reports said the Chinese Reds massed 16,000 fresh men—two divisions—within "easy striking range" just north of the mountain.

Allied and Communist tanks duelled on the lower slopes. Allied planes dropped flares to light up the eerie battle scene.

Fighting continued Friday at several other points on the 155-mile-long front, but was dwarfed by the action at White Horse. The United States Eighth Army reported Allied troops regained control of Big Nori Hill, eight miles north-west of Yonchon. It was one of seven hills overrun when the Chinese launched their drive Monday night.

Bad weather over much of North Korea hampered air strikes.

U. S. Potato Crop Estimate Placed At 345,561,000 Bus.

The United States potato crop report for October 1st, just issued, places the estimated total production at 345,561,000 bushels, as compared with 337,685,000 bushels on September 1st, or an increase of nearly eight million bushels, states Mr. S. G. Peppin, technical advisor to the P. E. I. Potato Marketing Board.

The final figure for the 1951 crop was placed at slightly more than 325 million bushels so that the 1952 crop is approximately 20 million bushels above that of last year.

"This amount, however," Mr. Peppin says, "can be considerably discounted due to the fact that in many States the crop was placed

Killed Near His Own Dwelling Last Evening

A seventy-four-year-old Brookfield carpenter, Mr. John Mobbs, was killed in a highway accident a short distance from his home last evening when he was struck by a car operated by Harvey MacNeill of Hunter River.

Mr. Mobbs was reported to have been walking on the right hand side of the road in a westerly direction toward his home when the accident occurred. He had a bag of groceries with him.

It is understood that the driver of the 1939 Ford Coach involved in the accident was blinded by the lights of an oncoming vehicle and failed to see the elderly man walking on the highway. Mr. MacNeill stopped the car and remained at the scene of the accident.

The spot where the fatality occurred is about thirteen miles from Charlottetown and the time of the accident is reported to have been shortly before seven o'clock.

Coroner Dr. L. E. Prowse told the Guardian that the deceased suffered a broken neck. His body was found in the ditch by the side of the road a short distance over the crest of a hill a few hundred yards from the late Mr. Mobbs' residence.

A jury was empaneled and the inquest was adjourned until Thursday evening, October 16, at eight o'clock at City Hall. Members of the jury are: Messrs Major MacRae, Winslow, foreman, Wilbert Stetson, Sherwin MacDuff, Earl MacRae, Wendall Rodd, John Carew and Eric Paul, all of Brookfield.

The late Mr. Mobbs lived with his brother, Robert, the only surviving member of the family. He was not married.

Gov.-General Massey Has Throat Infection

CALGARY, Oct. 10 (CP)—Governor-General Vincent Massey, acting on orders by an attending physician, today cancelled plans for a two-day visit to Calgary because of a "severe throat infection."

The 65-year-old Governor-General contracted a chill yesterday at Fort Macleod, Alta., and on arrival today in Calgary, Doctor E. P. Scarlett ordered him to cancel his visit.

The vice-regal party's railway cars will remain in Calgary until Saturday night when the Governor-General leaves for Vancouver.

resuming his first visit to Western Canada since his appointment this year as the Queen's representative.

A statement issued by the Governor-General's son and private secretary, Lionel said:

"The Governor-General is deeply disappointed that he cannot carry out his program and hopes to return to Calgary as soon as he possibly can."

Earlier reports circulated that Mr. Massey was seriously ill. The son said that there was no great concern for Mr. Massey's condition.

Potato Shippers Affected By US Quarantine Against Foot And Mouth Disease

The United States quarantine measures against Canadian livestock and livestock products on account of foot and mouth disease are still in effect and perhaps will remain in force for some time.

Because of this Mr. S. G. Peppin, technical advisor to the P. E. I. Potato Marketing Board, calls the attention of Island potato shippers to the fact that straw and hay are also considered to be within the quarantine.

"We understand," Mr. Peppin states, "that cars of potatoes have recently been held at the United States border because they contained straw or hay. The quarantine regulations would also apply if straw or hay is used for dunnage when loading steamers."

Mr. Peppin suggests that some other product such as dried moss or peat will have to be substituted for adding purposes. Railway cars can be insulated with paper-

Officers Promoted In Signals Regt.

Two promotions in 5 Signal Regiment were announced last night by Lieut. Col. K. M. Johnston, officer commanding. Capt. Ralph G. Dumont has received his Major's rank and Lieut. W. L. MacKinnon has been promoted to Captain.

Major Dumont enlisted in May 1937 with No. 6 District Signals, N. P. A. M., and served until Sept. 2, 1939, when he went on active service with that unit. He was commissioned in the Royal Canadian Armoured Corps in 1942 and went overseas in March of the following year. He was wounded in Normandy in August 1944 and on his return to Canada was discharged in 1945. The following year he rejoined the Signals in the newly formed 5th Signals Regiment and was promoted to captain in 1949.

Captain MacKinnon also enlisted in 1937 with the same unit as Maj. Dumont and went on active service September 2, 1939. He was transferred to 3rd Div. Signals and went overseas in 1941. He landed in Normandy on D Day and served through until V E Day after which he returned to Canada and received his discharge in July 1945. He joined the present Signals unit in 1946 as a sergeant and won his commission the next year. He was promoted to lieutenant in 1949.

Moncton Has Armed Holdup

MONCTON, Oct. 10 (CP)—City police today were investigating the second armed holdup with which they have had to contend this month. Shortly after midnight a man with a gun walked into a pastry shop and demanded money at the point of a gun.

In the shop at the time were Mrs. Clarence Drisdelle, wife of the proprietor, and three girls.

Mrs. Drisdelle turned over to the intruder the contents of the cash box—\$4—and the man then left.

New TB Drugs Now Available

OTTAWA, Oct. 10 (CP)—The Federal Health Department announced today that the two newest drugs to be used against tuberculosis—isoniazid and iproniazid—now can be purchased on prescription.

Formerly the drugs were available in Canada only for research in tuberculosis sanatoria, hospitals and other medical research centres. The department said the drugs are not to be regarded as "cure-alls" but simply as another pair of weapons in the fight against tuberculosis. Research is still being carried out to determine the full effects and usefulness of the drugs.

Small British Car Claims Record

GOODWOOD, England, Oct. 10-4 (Reuters)—A small British car today claimed a non-stop motoring record by covering 10,148 miles in nine days at an average speed of more than 45 miles an hour. The car, a Morris Minor, is the first to be fitted with an engine made by the British Motor Corporation, the newly-amalgamated Morris-Austin group. Average fuel consumption was 43 miles to the gallon.

Coming Events

- **Rummage Sale, Glover Club Saturday, 3 P. M. Bunbury W. I.
- **Masquerade Dance, Flat River Hall, Monday, October 13th.
- **Dance, Orwell Cove, October 13th.
- **Feed wheat \$3.00 per hundred, MacGulgan and Boyle.
- **Reserve November 19th, Try-on Baptist Bazaar and Supper.
- **Lorne Valley Dances discontinued.
- **Try our Purina Finance Plan for feeding your hogs and poultry Dillon and Spillet.
- **United Church Hot Chicken Dinner and Bazaar, October 13th, 5 o'clock in Victoria Hall.
- **In stock Livestock Feed Molasses, Cod Liver Oil and Handy Killer, Dillon & Spillet.
- **Chicken Supper and Dance, St. Teresa's, Monday, October 13th, Supper served 5.30 till 8.30.
- **Dancing Stanley Bridge Rink Hall every Tuesday night, Music by Munroe's Orchestra, 9 to 1.
- **Reserve November 5th, for hot Chicken Dinner and Bazaar, South Rustico Hall.
- **Annual Bazaar, High Tea, Bingo, Dance, Aupicis St. James Church, Georgetown, Wednesday, October 15th.
- **Regular dances at the Bonshaw Inn Tuesday night, dancing 9.30-12.30. Rollie MacKenzie's Orchestra.
- **Dance every Saturday night, Islanders Country Club, Travellers Rest, Music by Lennie Bolger's four piece orchestra.
- **Our stores will close Monday noon, Thanksgiving Day. Parker Carfield and Waddell Bros., Crapaud.
- **Annual Chicken Supper, Immaculate Conception Church Parish Hall, Wellington, Thanksgiving Day, October 13th.
- **Thanksgiving Dance, St. Mary's Hall, South, Monday, October 13th. Round and square dancing, Chaisson's Orchestra.
- **Special. Don't forget the Thanksgiving Dance in Morell Hall, Monday, October 13th. Music will be supplied by the popular "Charlottetownians" Dance Orchestra. Dancing 9 to 1 A. M. Admission 20 cents, sponsored by Morell Street Light Committee.

Island Man Meets Bad Luck At Plowing Match

By Ken Kelly
Canadian Press Staff Writer
CARE, Ont., Oct. 10 (CP)—Doug Reid, 26-year-old Brampton, Ont., farmer, today won the Canadian tractor plowing championship at the international plowing matches.

The championship for horse plowing went to veteran plowman Algie Wallace of North Gower, Ont., near Ottawa. Wallace's victory was the first championship won by an Eastern Ontario plowman at the matches.

Reid scored his victory against 28 other competitors. It was his first entry in the championship class at the annual match sponsored by the Ontario Plowmen's Association.

The two champions won free trips to Europe. Officials of the Ontario Plowmen's Association said arrangements may be made to send them overseas next month to compete in plowing matches in England and Scotland.

Second in the tractor class went to Ivan McLaughlin of Stouffville, Ont. Joe Tran of Claremont, Ont., placed third.

In the horse class Stan May of Hornby, Ont., placed second and Karl Watson of Forest, Ont., third. Glen Morrissey, 17-year-old Prince Edward Island champion from Cherry Valley, was the most disappointed competitor in the tractor championship.

Plowing his first furrows in competition since he arrived here, he broke a plow-share coupling which cost him valuable time making repairs. He finished out of the money.

The two Algoma district champions in horse and tractor, Don Evoy who farms near Sault Ste. Marie and Vern Carter of Deseronto, Ont., also failed to place in their classes.

Prime Minister St. Laurent paid a surprise visit to the match to observe the expert plowmen at work. After a tour of farm implements he visited the horse and tractor championship events.

MONTRÉAL, Oct. 10 (CP)—Gordon R. McGregor, president of Trans-Canada Air Lines, said today in an interview the government-operated line will have turbo-prop aircraft in service by 1955 but will not use jet planes until 1957 or 1958 "and possibly much later."

Good Response To Memorial Fund

LONDON, Oct. 10 (Reuters)—The fund for a national memorial to the late King reached £230,000 tonight, seven days after it was opened. A statue of the King will be erected in London and the greater part of the fund spent on a philanthropic plan bearing his name.

PEI Farm Production Balance Well Maintained During 1952

(By W. R. Shaw, Deputy Minister of Agriculture)

As we approach the Thanksgiving season the people of Prince Edward Island should feel a spirit of deep gratitude to the Divine Architect and Husbandman for the many beneficial gifts provided during the good season of 1952. Very seldom have we experienced a year marked by so many delightful sunny days and such rare natural beauty. In addition the good earth has produced abundantly its fruitfulness in the form of products of more than ordinary quality and excellence.

We have experienced in some cases a heavier production of field crops than occurred in the previous year, and seldom have we had a better balanced production of superior products. While the latter part of the growing season might be termed "dry", and affected pasture growth to some extent, crops nevertheless suffered very little disadvantage. Delightful sunny weather prevailed during July, August, and September, with almost twice as much sunshine prevailing as in 1951, while the month of September was the third highest on record in so far as sunny weather is concerned.

Midsummer estimates of acreages of field crops indicate on the whole a slight increase over those of 1951. A readjustment of the 1951 Bureau of Statistics figures to conform with census return figures had made it a little difficult to make comparisons. Nevertheless, the crop picture in acres seems to be very satisfactory.

Although the published figures for wheat in 1952 are below those of 1951, I personally feel that the wheat acreage has not decreased. Oats is down slightly, as is also mixed grains, but there is a slight increase in barley. The potato acreage is up from 30% to 12% at approximately 33,400 acres compared with 29,600 in the previous

Thinks Wanted Poles May Be In Maritimes

ROTHESAY, N. B., Oct. 10 (CP)—Two young men, sought on suspicion they might be those wanted by investigators into the Sept. 25 slaying of Aurelien Houle, were last reported seen here on the road to nearby Fairvale early last Sunday morning.

Frederick Brock, Rothesay, said one of the two strangers had asked him for a lift, which he refused. The man apparently could not speak English. His accent, obviously European, appeared Polish. The pair wore dark, shabby suits.

Mr. Brock said that at the time he thought the men might be under the influence of liquor. Later, he felt that their actions and appearance could have been the result of exhaustion. The strangers might have remained in the area, taken a ferry to the Kingston peninsula or tried hitch-hiking on the Saint John-Moncton highway.

Mr. Brock went to Charlottetown Tuesday, the next morning read a newspaper description of the wanted men, and then communicated with police in Rothesay. R. C. M. P. here confirmed that the matter was under investigation.

Dairy Production

Dairy production, in view of the character of the season, has been very satisfactory. Total production of creamery butter to the end of September was 3,834,892 pounds as compared with 3,795,071 pounds in the previous year. Cheese in the same period sagged from 655,086 to 468,308 pounds, while ice cream production went up from 150,821 gallons to 163,502 gallons. The total production of milk, therefore, compares very favourably with previous records.

Silage

There has been a great interest and improvement in the volume and quality of animal feeds provided for our livestock. This has been particularly noticeable in the form of silage. Scores of trench and surface silos have been constructed at a low cost, and the excellent grass mixtures of the year provided splendid material for ensilage purposes. A large tonnage of grass silage has been saved in the different types of silos established. In addition the corn crop has been one of the finest ever produced in the Province with a high percentage of cob

Thanksgiving

We thank Thee Father for this world of ours
So bright, so beautiful, so filled with good,
Day unto day Thy ceaseless love declares,
Night unto night in language understood
By those whose hearts are set, whose ears are tuned
To catch the message of the passing hour
Or read in nature's book the wondrous things
Written in field and stream, on leaf and flower.

We thank Thee Father for our daily life
So filled with goodness, so with blessings fraught,
The daily load of benefits, the joys
Supremely great the passing years have brought:
Desires accomplished, wishes realized,
And all the sweet experiences given
To enrich the revenue of daily life,
To elevate the mind or help to heaven.

We thank Thee Father that each passing day
Finds us a little nearer to the goal;
Nearer by faith's mysterious influences we
Are drawn to Thee, blest Anchor of the soul,
That like a wandering wing-wearied bird
O'er the wild waste of life's unresting sea
Homeless and storm-tossed fleeth far and wide
Seeking for rest, nor finds it, save in Thee.

We thank Thee Father for the abundant store
Thy liberal hand has scattered all around,
Barns filled with plenty, presses running o'er;
With goodness Thou the circling year hast crowned,
Thy paths drop fatness, Giver of all Good,
The tribute of our thanks we give to Thee!
May songs of praise in all our hearts be found,
Thanksgiving and the voice of melody.

—Samuel Hill

WOMAN KILLED

RIVIERE DU LOUP, Que., Oct. 10 (CP)—Mrs. John Delaney, 50, Saint John, N. B., was killed today when the car in which she was riding with her husband crashed into a tree at St. Patrick, Que., about a mile west of here.

Hong Kong Survivors To Get Up To \$1,400 Shortly

OTTAWA, Oct. 10 (CP)—A \$2,000,000 bonanza for Canada's Hong Kong survivors of years of harsh Japanese imprisonment was announced today by Prime Minister St. Laurent.

These 1,400 to 1,500 veterans of the 1941 siege and four years of prison make up the majority of 2,000 to 2,500 Canadians expected to benefit from an immediate "maltreatment" award of \$1 a day for each day as a second-world-war captive of the Japanese or the more notorious German organizations such as the S.S. and Gestapo.

It doesn't affect the great bulk of the 9,100 Canadian prisoners-of-war in that conflict.

The Hong Kong men—about half the original force sent to the British colony—should get \$1,350 to \$1,400 apiece within the next few weeks.

The others include priests, merchant seamen and other civilians captured in the Orient, a few dozen R. C. A. F. and navy men who fell into Japanese hands, some widows of Hong Kong men who were prisoners, a scattered few who

survived S.S. and Gestapo internment.

They will get varying amounts, some of them as much as the Hong Kong veterans.

These awards for maltreatment are the first instalment in the government's onerous job of compensating Canadians for varied types of losses and suffering in the war. There have been some emergency payments, however.

The awards arise from the recommendations of Rt. Hon. J. L. Ilesley, Chief Justice of Nova Scotia and former federal cabinet minister who advised the government what to do about settling war claims after an extensive study. They will be financed out of a \$10,000,000 fund built up of seized enemy assets and reparations.

Another Commission

Mr. St. Laurent said the government will also shortly be carrying out another of Mr. Ilesley's recommendations—it did, in fact, virtually adopt his entire report—in appointing a commission to investigate

(Continued on page 8 col. 5)

HALIFAX, Oct. 10 (CP)—Official forecasts issued tonight by the Dominion Public Weather Office here and valid until midnight Saturday.

Synopsis: The weather was fine in the Maritimes today. A high pressure area is moving into the district and promises continuing fine weather during the week-end.

Regional forecasts, with an outlook for Sunday.

Prince Edward Island—Sunny with little change in temperature. Light winds. Low and high Saturday at Charlottetown 32 and 55. Outlook for Sunday—Warmer.

High tide today at Charlottetown at 2.41 A. M. and 5.25 P. M.

High tide on the North Shore at 12.37 P. M. and 11.19 P. M.

Sunrise today eight minutes later than Charlottetown.

Sun rises today at 6.23 A. M. and sets at 5.36 P. M.

Monday being Thanksgiving Day and a public holiday, the next issue of The Guardian will be Tuesday, Oct. 14.
