IN MEMORY OF MISS ABBY W. DERRY.

Hush! for a white rose is sleeping, Sweet, with the dew on her breast; Tender-eyed stars their watch keeping...

Never Be Idle.

Never be idle, find something to do; Water grows stagnant when still, Tools if neglected will rust; so will you...

Man is a wonderful self-acting machine, Made with unmatchable skill; Sloth clogs and injures him, work keeps him clean...

He Sailed for Victoria Because He Couldn't Help It.

NEW YORK, Aug. 10.—The Herald's correspondent at Victoria, B. C., says the sealed orders given by the captain of the Rush to seaman Hawkins, when the latter was placed on board the Black Diamond, are as follows:—

"Hawkins, special officer: Sir—You are hereby appointed special officer and directed to proceed on board the Black Diamond, of Victoria, this day seized for violating a law of the United States, and assume command of said schooner, its officers and crew and everything, excepting navigating the vessel, which is reserved to Captain Thomas, and which you will not interfere with, unless you become convinced that he is proceeding to some other than your port of destination, in which event you are authorized to assume full charge of the vessel. Everything being in readiness, you will direct Capt. Thomas to make the best of his way to Sitka. Upon arrival at that port you will report in person to the United States district attorney there, and deliver him the enclosed letters as addressed, the Black Diamond, her outfit, and the persons of Capt. Thomas and the mate, Alexander Gault, and set the crew at liberty. After being relieved of property and persons intrusted to your care, you will await at Sitka the arrival of Rush.

Odds and Ends.

Neighbor—I understand your son is home from college. I s'pose he's up in every thing? Farmer Synthe—You're just right. He's upstairs in bed most of the day, but if you'll come round in the evening about the time I'm doin' the chores you'll see him out there in the front yard with a snowshoe in his hand chasin' a ball over a fish net in a way that'll make your eyes stick out.

Women who clope with coachmen probably think that class of men will make stable husbands. Bessie—What was that great trouble of Dolly's life? Jennie—The gentleman that she jilted went and married another girl within a week. Dolly has never been herself since.

Do You Drink Ice Water?

That cool refreshing drinks in warm weather are delicious is undeniable. That drinking ice water in copious draughts when a person is overheated is injurious, not to say dangerous, is also undeniable. But that the free drinking of water in some form in hot weather must be avoided, is deniable, and is one of the greatest popular errors extant. When a person is perspiring freely from every pore, a vast amount of water is drawn from the body, which must be re-supplied, or great injury is being done to the physical health, and the foundation of some of the worst forms of kidney disease is being slowly, but surely laid. Why! someone will exclaim, that is just what causes kidney troubles, drinking water freely which contains so much lime. Wrong again! So long as the water drank is freely carried through the system, and converted in its passage to the naturally acid reaction of the urine and perspiration, no danger can occur by deposits of urea or lime in the kidneys and bladder, because they remain perfectly in solution, and are carried out of the body instead of remaining in it. Literally, they are washed out of the body by the copious draughts of water (that most perfect of all known solvents), same as a series of pipes are "flushed" with water to clean them. A clean body is never diseased. Do not drink ice cold water, but pure cool water; a little lemon juice will improve the effluence. Plain soft water with a little acid is also excellent. If from drinking too much ice water you have stomach cramps, or are "water-logged," as it is called, or are attacked with Cholera Morbus, Summer Complaint, Diarrhoea, or Dysentery, do not resort to alcoholic stimulating drinks, which irritate rather than soothe and allay the inflammation which has caused the trouble; but adopt the practice of taking daily just before retiring, during July and August, one teaspoonful of Johnson's Anodyne Linctum in a little sweetened water, which will prevent all such attacks and ill effects from ice water. In fact, a little pamphlet, sent free to anyone, by I. S. Johnson & Co., Boston, Mass., contains a vast amount of information about treating these

THAT TERRIBLE PAREISIS.

Are the Canadian People Becoming a Nation of Lunatics? The frightful increase of this most peculiar insanity and how it is cured.

There are many well known men confined in our Asylums who but a short time ago were prominent among our business and social circles. Why are they there? Paresis! Did it come on at once? Not at all. It was a gradual but positive growth. They overcame nature. The drain on their vitality, their nerve powers, their brain tissue, was too great, and they gradually but surely sank under it. The things they did to bring this sad end about are precisely the same things that are being done by thousands of men and women to-day. It is not necessary to name them. They all end disastrously unless checked or regulated. Prof. Phelps, of Dartmouth College, knew this fully when he began his experiments which resulted in the discovery of the wonderful Paine's Celery Compound. He realized that paresis (consumption of the brain) was our great National weakness. He knew that the brain and nervous system must be fortified to meet the great strains which modern life bring upon it. He saw that men were becoming debilitated and women weakened by the pressure and demands of life, and he sought and discovered the remedy Paine's Celery Compound, if rightly taken, will renew the brain and build up nerve tissues as fast as they become exhausted. It is not a narcotic. It contains no drugs, no nostrums. It is perfectly pure. It is absolutely harmless. The high character of its discoverer guarantees this, and the endorsement of the medical and chemical professions prove it.
