ARTILLERY IN HALIFAX

A Pleasant Excursion.

The Competitions Yesterday.

HALIFAX, Aug. 9.

By invitation of Messrs. Lawson, Harrington & Co., the officers and men from the P. E. Island Garrison Artillery and the Coburg Garrison Artillery were yesterday afternoon taken for a trip on Halifax harbor and the Northwest Arm, stopping a short time at York Redoubt to enable the party to inspect the fortifications there.

There was very little firing at Point Pleasant yesterday, and the score of what took place was not obtained. The chief interest centered in the shifting competition. The Islanders fell short of the positions taken by both the Halifax teams, which were 2.45 and 2.35 respectively. The "A" shift the P. E. Island men yesterday did in 19.50 and made 225 points. The "B" shift took them over 11 minutes.

IMMIGRATION TO CANADA.

Settlers from the South!

OTTAWA, Aug. 9.

Mr. Campbell, immigration agent, expressed the opinion that the largest portion of the immigration to the Canadian Northwest for the next few years will be from the southern side of the line. He says that 162 American delegates attended the recent exhibition in Winnipeg, and after travelling through the country expressed themselves as delighted. He says that those who have crossed the line to Manitoba this year have in many instances invested in land outside of a homestead, and in no case, so far as he is aware, have they yet put any lien on their lands—a rather unusual thing for new settlers.

A "Strike" off.

NEW YORK, Aug. 9.

The strike here in the building trades, which kept 11,000 men idle the past two weeks has been declared off. The strike cost the men over \$1000—and their lost time.

THE SOURS RACES.—The great annual races which are to take place at the Souris Driving Park on Thursday, the 11th inst., should be well patronized. The grand stand will hold 600 people and the seating accommodation is excellent. Plenty of amusements will be supplied. For full details see advertisement.

MONEY IN STRAWBERRIES.—The Kentville Star gives the following as shipments of strawberries: From Kingston station during July, 1,773 crates and 390 pails; from Berwick, 1,837 crates; from Westville, 1,643 crates. From this it will be seen that from these three stations 5,253 crates, or 168,096 quarts, of strawberries have been shipped, and they must have averaged, at very lowest calculation 6 cents per quart, which would mean \$10,075, and the 300 pails, which, say 10 quarts each, would add another \$180. On the whole, when the berry growers of the western part of the country ship \$10,255 worth of strawberries in one month we are forced to look upon this branch of the small fruit as of the utmost importance. There are several small stations from which shipments of berries were made and of them Aylesford probably shipped the most, so the above figures cannot by any means be taken as a total output of the western part of the country, while from several points to the eastward shipments are made.

THE BEAUTIFUL STAR

Has vindicated her right to be called Beautiful from the universal admiration of our patrons for the Beautiful in Art. This is evidenced by the good taste they display in patronizing the Star Tailoring Establishment when they want something particularly nice and artistic. Our success in filling the bill has passed into a proverb, namely, when you fail to get suited at the Star Tailoring Establishment you are too fastidious for this yere world.
