Ripe Tomatoes And Corn

Tomatoes in this province are very slow to ripen, in spite of the unusual hot weather prevailing this summer. This we believe can be accounted for, and is due to the lack of moisture. Corn has also suffered. However we are pleased to be able to announce that we now can include, ripe tomatoes and corn to our list of vegetables which we will direct to the consumer, and our prices are very reasonable. This is owing to the fact that we save the expense of delivering the goods, and pass the saving on to the consumer. J. J. GAY & SON Head of Prince Phone 264 L-385-9-28-41.
