"Mr. McKinnon was a young Clergyman, being only 28 years of age. In the cause of Temperance he was zealously employed during his Ministry, and succeeded in suppressing the traffic in Spiritous Liquors within the limits of his parish. We were informed by a person from Beaver Cove, on Wednesday, that the Sunday preceding his death, the deceased Priest, whilst administering the Sacrament, was suddenly affected by a presentiment that his own death was near at hand. Whilst labouring under temporary illness, he left his residence to attend at the sick bed of one of his parishioners, at Bonaventure, during a rainstorm, in which he became wet and chilled. A relapse was the result, which speedily terminated his life. The memory of the deceased Clergyman will be long held in veneration and esteem throughout the Parish of Barra, where in life he was beloved by his flock."

MEXICAN DOLLARS.—The city is flooded with Mexican dollars which are brought by the ships from Vera Cruz. Their value we believe is generally allowed to be $1 04c.—*Halifax Reporter.*

CANADIAN FINANCES.—Just previous to the late change of ministry in Canada, the Finance Minister, Hon. Mr. Galt, brought down his budget. The annexed from the *Leader*, the organ of the Government, will cast much light upon Canadian finances:—

Mr. Galt brought down his budget and the estimates last night. The ordinary expenses of the year are estimated at $7,132,000, and the extraordinary $5,394,500; making a total sum of $12,526,500, which is to be provided to meet the expenditures of the year. During the first quarter of the present year there was a falling off in the customs' revenue of 288,449, compared with the similar period of 1861. The decline for the whole year is estimated by the Finance Minister to reach $800,000. The receipts from this source would therefore, be $7,375,050. To meet the deficiency, Mr. Galt proposes, in the first place, to issue Provincial exchequer bills for $3,811,000, bearing five per cent. interest, redeemable on four days notice. He also proposes an excise duty on beer, spirits and rectified spirits, which he estimates will produce $785,586.—Tobacco is to be made to contribute to the Treasury to the amount of $62,000, from an excise duty, and a license fee from manufactureres. Mr. Galt also proposes to ask an increase in the duty on teas, sugars, molasses and tobacco, which he expects will bring him $1,808,572. A small stamp duty is proposed. The Finance Minister also asks for a repeal of that clause of the bank charter, which requires a deposit of 10 per cent. on Government securities, from which he contemplates obtaining a revenue of $36,000. Articles paying an import customs duty of 20 per cent. are to be placed on the 15 per cent. list; those paying 10 on the 7½, and the articles paying 35 per cent. are also to be reduced. Mr. Galt says the reductions in the tariff are equal to the new taxes to be imposed."

The estimates for the year are as follows:—

"The following estimates of *ordinary* expenditure were brought down:—Interest of public debt, less interest of Indian bonds, $3,400,000; charges of management, $35,000. Sinking fund—new Canadian loan, $150,000; civil government, $446,401, 83c.; administration of justice East, $347,665; ditto West, $321,173 17c.; Police, $31,185; Penitentiaries, Reformatories and prison inspection, $154,600; legislation, $332,260; education, East and West, $512,000; literary and scientific institutions, $17,000; hospitals and charities, $261,700; Geological Survey, $25,000; Arts, Agriculture and Statistics, $5,500; Agricultural societies, $103,000; emigration and quarantine, $11,000; pensions, $33,483 33c.; Indian annuities, 35,420; roads and bridges, 200,000; fisheries, $25,300; culling timber, 60,000; railway and steamboat inspection, $51,000; Municipalities Fund West, $243,840; Indian fund, 125,000; Census, $80,000; Miscellaneous, $41,000; Total. $7,132,528 33c."

EMIGRATION TO CANADA.—A Londonderry (Ireland) letter, dated April 25th, says that during the previous week between five and six hundred emigrants left that port for Canada by sailing vessels and the Canadian steamers. A few days before that, the ship Culloden sailed from Liverpool with 430, all English—and the Jura was to take over 300 more. The writer says that every week during the season an increase in the number of persons leaving for Canada may be looked for.

VERDICT AGAINST THE GREAT WESTERN RAILWAY COMPANY.—The Commercial Bank of Canada has obtained a verdict for $1,160,000 against the Great Western Railway Company, for money furnished for the completion of the Detroit and Milwaukee Railway, it being held that the Great Western Company was the real creditor in the transaction.

☞ A Melbourne despatch of March 25 says there are rumors of disturbances in New Zealand. One hundred and thirty-three ounces of gold has been shipped since the last mail.

AN ELECTRIC RECORDING TARGET.

We find in the English papers a notice of an Electric Recording Target, invented by F. N. Gisborne, Esq., a gentleman well known in this and the neighbouring Provinces, in connection with the establishment and working of various telegraph lines. The notice is as follows:—

GISBORNE'S ELECTRIC RECORDING TARGET.—An interesting experiment was tried on Wednesday, at the practice-ground, Beaufort House, the head quarters of the South Middlesex Rifle Volunteers, Walhamgreen, to test the merits of a new electric recording target, the invention of Mr. F. N. Gisborne. Without tracing the history of the electric target from Professor Wheatston's chronoscope, invented in 1841, to record the time of flights of bullets, which gave De Brett the first idea of applying electricity to his purpose, it may be sufficient to state generally that all the inventors who have turned their attention to the realisation of this idea have failed signally in indicating the part struck, when the point of impact happened to be at the junction of two or more of the sectional plates forming the target. To obviate this defect, Mr. Gisborne has adopted the simple expedient of placing the sectional plates on different planes, instead of in the same plane, as in the targets of De Brett, Chevalier, and others. As the full impact of the shot is necessary to cause electrical contact with the recording instrument at the firing point, should the bullet strike the edge of a projecting sectional plate, and glance off to the next, it would only be recorded as having struck the first plate. To record the practice a fac-simile diagram of the target is placed in the electrograph, at the firing station, which contains a pencil point for each sectional plate in the target. The electric current produced by striking any particular plate brings down the pencil point on the corresponding segment of diagram, recording perfectly the rest l of the shot. The practice on Wednesday was at a 6 feet by 2 target, with regulation bull's-eye of 8 inches diameter, a 2 feet centre, divided into upper, lower, right, and left segments, and with the remainder of the target formed of twelve sectional plates. Several of the crack shots of the South Middlesex tried their skill at 200 yards, and had their centres and bull's-eyes neatly printed for their inspection before they had time to get the rifle down from the shoulder. During an hours' constant firing, not any failure occurred in instantaneously recording the result of the shot. The great objection to the electric target up to the present time has been the expense of the cable, each section requiring a separate wire. By the use of a nearly synchronous instrument, Mr. Gisborne has succeeded in making one wire work the whole target, thereby very much reducing the expense. The third class target, as we have stated, is divided into seventeen sectional plates, the second and first class target into fifteen each. A great advantage of this target is that every man firing, knowing the exact position of each shot, is enabled to make the necessary allowance for the effect of wind or for defective sighting; and, as he can take away his diagram from the practice ground, he has a more satisfactory record of his shooting than the mere registration of the number of points made. Where diagrams of the shooting are not required, an ivory fac-simile dial is placed in contact with the target. The segment of this dial corresponding with the segment of target which has been struck flies up, and remains erect until released. Mr. Gisborne proposes to erect one of his targets at Wimbledon next July, which will be presented to the National Rifle Association, to be competed for as prize by the different volunteer corps of the the country. The experiment was considered so satisfactory as to lead to the hope that a really reliable electric target has at last been produced.

TO THE EDITOR OF THE EXAMINER.

SIR,—I was sorry to notice in your paper of the 2nd inst. an advertisement, signed "C. Boultenhouse," cautioning the public not to trust Capt. E. Evans on account of the advertiser, nor to pay him freight bills due to the Steamer Westmorland.

This advertisement appears to me to convey a gross libel on Capt. Evans, whom I have known for a considerable length of time, and I am quite sure that a high-minded honourable man like him would never stoop to the meanness and dishonesty of attempting to collect accounts that were not lawfully due to himself; and I know that he is far above the need, as well as the trickery of seeking to obtain credit on account of the Westmorland, or any other vessel with which he may be connected, unless he has a very honourable and legitimate claim to credit. It would be well for Mr. C. Boultenhouse, or for any shipowner, if they could always secure the services of a trustworthy, honourable, and upright man like Capt. Evans, who has always been a great favourite with the travelling public, including

Yours truly,
AN OLD TRAVELLER.

June 4, 1862.

LATEST NEWS FROM THE STATES.

The Mail received this morning has not furnished any news of great importance from the States. The following Telegrams give the latest accounts from the seat of war:—

ST. JOHN, June 4, 1862.

The Federal loss before Richmond in the battle on Saturday and Sunday last, in killed and wounded, was three thousand. The Confederates left twelve hundred dead on the field. The Confederates threw their main body on the Federal left wing, for the purpose of crushing it.

General Fremont's advanced guard has driven General Jackson from Strasburg through Woodstock, and is pressing upon him in hope of forcing him to a stand up fight. Generals Fremont and McDowell's movements have wholly relieved the Shenandoah Valley and Northern Virginia.

It is reported that General Stoneman with twenty-five thousand men, marched round Richmond towards Petersburg.

The Federal Government at Washington regards it as palpable that the movers of the rebellion never entertained the expectation of achieving a successful revolution, except by opening a point for foreign intervention, on which they relied to overthrow the Union.

BANGOR, June 6.

Gen. McClellan has issued an inspiring address to his army in expectation of the grand and decisive battle for Richmond.

The reported surrender of Memphis and Fort Pillow are premature. The latter was bombarded on Tuesday, and the bombardment resumed on Wednesday. The enemy did not reply with vigor.

Vicksburgh is being strengthened by additional batteries. A number of Federal gunboats had shelled their defences, but retired down the river.

Confederate reports represent Saturday and Sunday's battle before Richmond as a success for them.

An English officer who deserted from Beauregard's army says that when they left Corinth they had 120,000 men, but 5,000 deserted before reaching Boonsville.

It is reported that the French have been defeated in Mexico, and are retreating to Vera Cruz.

LATEST.

BANGOR, June 6.

A released Federal officer, 10 days a prisoner at Winchester, talked freely with Confederate officers, who looked to the inevitable destruction of their armies, and made up their minds to guerilla warfare. The officers seemed devoted to the rebellion, but the rank and file had little heart in it.

Fort Pillow is evacuated and in Federal possession. Federal fleet passed down to Fort Randolph en route for Memphis.

Wenport, in Lehigh Valley, was washed away by the freshet, only three houses left out of 300. Terrible loss of life.

Senator Sumner, in the Senate, moved the ousting of the Military Governor of North Carolina for his unfriendly course towards the blacks.

THE EDINBURGH REVIEW, for April, has been received from the American publishers by Saturday night's mail. We have not had time to read any of the articles, which are numbered as follow:—1, Jesse's Memoirs of Richard the Third: 2, Centralization; 3, Guessard's Edition of the Carlovingian Romances; 4, Recent Researches in Buddhism; 5, Modern Domestic Service; 6, Mommsen's Roman History; 7, Cotton Culture in India; 8, Sir A. Alison's Lives of Lord Castlereagh and Sir C. Stewart; 9, Public Monuments; 10, David Gray; 11, Clerical Subscription. Some of these articles present very attractive titles, and we have no doubt they are treated with the usual ability of the Edinburgh Reviewers.

THE MARKETS.—At the Market, on Saturday last, there was an unusually abundant supply of fresh fish of all kinds—Herring, Mackerel, Codfish, Haddock, Lobster, Shad, and Salmon. Shad has been very seldom seen in our market, but we think the sale of it will be rather slow if the high prices of Saturday are continued. The Salmon were not as good as in former seasons, owing, no doubt, to their early appearance; but the prices demanded and received were extravagant—averaging about one shilling per lb. Country produce was abundant, and very cheap.

CONVERSIONS.—Within the last three months, Fathers Darwen and Smarius, Jesuit Missionaries, have converted in Ireland 400 Protestants and Infidels.—*Waterford News.*

☞ We are indebted to the Merchants' Reading Room, Charlottetown (Mr. A. McNeill, Superintendant), for the latest American and Colonial papers.

EMIGRATION.—The following extract of a letter dated Londonderry, 29th April, has been received at Quebec:—

I am now glad to tell you there will be a very large Emigration to Canada this season, and many parties are going with very considerable capital, to invest in Lands in both Provinces.

Last week were shipped between five and six hundred, between sailing vessels and the line of Canadian Steamers. The week before the fine sailing ship *Culloden* sailed from Liverpool with 430 passengers on board, all English people; and the *Jura* takes between 300 and 350. Every week from this on during the season, we look for an increase — and only hope you will take care of all those Emigrants, and induce them to make Canada their home.

In the year 1783, a merchant who resided at Messina, in Sicily, had, as is said, two favorite cats, and their manner one day alarmed him. Before the shock occurred, these animals were anxiously endeavoring to work their way through the floor; their master observing their fruitless labors, opened the door for them. At a second and a third door which they found closed, they repeated their efforts; and on being set completely at liberty, they ran straight through the street and out of the gate of the town. The merchant whose curiosity was excited by this strange conduct, followed the animals out of the town into the fields, where he saw them again scratching and burrowing in the earth. Soon after, there was a violent shock of an earthquake, and many of the houses in the city fell down, of which the merchant's was one, so that he was indebted for his life to the singular foreboding of these domestic animals.

SYDNEY SMITH ON TAXATION.—This famous writer penned the following passage some years since. The statement was intended at the time to apply to the British tax payer. But the number of articles on which the Government levied an impost has relaxed, and, up to the period when it was thought indispensable that the defences of the United Kingdom should be increased, there was some probability of a very considerable reduction in taxation. If is now quite certain that the citizens of the Northern States of America will ere long be the heaviest taxed people in the world. Here is the quotation in question:—

"The schoolboy whips his taxed top—the beardless youth manages his taxed horse, with a taxed bridle, on a taxed road,—and the dying Englishman, pouring his medicine, which has paid 7 per cent., into a spoon that has paid 15 per cent., flings himself back upon his chintz bed, which has paid 22 per cent.,—and expires in the arms of an apothecary who has paid a license of a hundred pounds for the privilege of putting him to death. His whole property is then immediately taxed from 2 to 10 per cent. Besides the probate, large fees are demanded for burying him in the chancel: his virtues are handed down to posterity on taxed marble, and he is then gathered to his fathers—to be taxed no more."

THE PROVIDENCE NUNNERY—MYSTERIOUS MALADY.—On Friday a large number of our citizens were thrown into serious alarm by the report that over thirty ladies of the Providence Nunnery had been poisoned. It appears that on Tuesday morning last, a strange malady manifested itself among the inmates of the Nunnery in question, since that time no fewer than thirty-eight of the sisterhood were afflicted in succession. The cause was attributed to the use of green tea, but the Professors of the Canadian School of Medicine decided, after an analysis, that the tea contained nothing deleterious. In short, the cause of the malady is unknown. The symptoms were precisely those that accompany poisoning, namely, dilation of the eyes, pains in the abdomen, vomiting, &c. We are glad to state, on the authority of the Superioress, that the ladies stricken down so mysteriously, are now considered out of danger.—*Montreal Gazette.*

DISTRESSING AFFAIR.—Two boys about ten years of age, one the son of Daniel C. Libby, the other the son of Mark Mosher, while playing ball in Gorham on Tuesday, got into a dispute. Mosher had stopped the ball, although forbidden to do so by Libby, who threatened he would whip him if he persisted in doing it. Mosher still interfering, Libby struck at him with a stick, hitting him just back of the ear, causing instant death.—*Portland Advertiser.*

Her Excellency Mrs. Dundas, Mr. Atkinson, and Dr. Gauvreau arrived at Quebec on Sunday morning, the 25th ult., from P. E. I., in the schooner Gulnare.—Quebec paper, May 26.

THREATENING ENGLAND.—Parson Brownlow made a speech in New York, on Thursday night last, full of the most blasphemous language. Alluding to England he used these words:—

"But the great conspiracy of the 19th century and the great rebellion is now on hand. I believe that Lincoln, with us, the people, to back him, will crush it out. (Cheers.) It will be done, it must be done, and it shall be done! (Applause.) And having done that thing, gentlemen and ladies, and if you will give us a few weeks to rest and recruit, and England and France wish it, we can lick them both. (Cheers.) And I am not certain that we won't have to do it. Particularly, old England has been playing a double game, a two-faced game, and by her Dr. Russell, when he was here, she was well represented, for he carried water on both shoulders. I don't like the tone of her journals, and when this war closes out we shall have four or five hundred thousand well drilled, hardened officers and men, and then we are ready for the rest of the world and the balance of mankind. (Cheers.)"

The "cheers" show how acceptable his remarks were to a New York audience.

Cymburga, wife of the Duke Ernest of Luthithinia, could crack nuts between her fingers and drive nails into the wall with her thumb; whether she ever got her husband under it, is not recorded. Let us preserve from oblivion the renown of my Lady Butterfield, who about the year 1700, at Wanstead, in Essex, England, thus advertised: "This is to give notice to my honored masters and ladies, and loving friends, that my lady Butterfield gives a challenge to ride a horse, or leap a horse, or run a foot-race, or *hollo*, with any woman in England 7 years younger, but not a day older, because I won't undervalue myself, being now 74 years of age." Nor should be left unrecorded the high born Scottish damsel, whose tradition still remains at the castle of Huntingtower, in Scotland, where two adjacent pinnacles still mark the maiden's leap. She sprang from battlement to battlement, a distance of ninty feet and four inches, and eloped with her lover. Were a young lady to go through one of our villages in a series of leaps like that, and were she to require her lover to follow in her foot-steps, it is to be feared that she would die without a husband.

ENGLISH CRICKETERS BEATEN.—The All England Eleven were beaten at Sydney, Australia, by the United Elevens of New South Wales and Victoria. The match commenced on February 13th. In the 1st innings the score was—All England, 60; the United Twenty-two, 101. Second innings: All England, 75; United Twenty-two, 30; winning with 12 wickets to fall.

HOLLOWAY'S OINTMENT AND PILLS.—Disorders of females.—There are many derangements of the nerves and circulation to which woman patiently, though unwisely, submits, till disease is established and health undermined. In all such irregularities, as well as in hysteries, Holloway's Ointment assiduously rubbed down the spine twice a day, will have the happiest effect in restoring all oppressive weariness and debility. Holloway's Pills should be taken at the same time, to improve the digestion, and purify all the corporeal organs. The disease of women, whether constitutional or functional, chronic or recent, usually so unmanageable, soon yield to this treatment, which is very effective for both delicate and robust.

CAPTURE OF A WHALE.—On Sunday, the 1st instant, the inhabitants of Pownal Bay were greatly excited at the appearance of no less a stranger than a whale which had strayed up the bay, quite close to McRae's wharf. When the tide had partly ebbed, he got aground, and Mr. Drake and Captain Haley made the bold and rather dangerous attempt of killing him, in which they succeeded, after a pretty hard struggle. After he was killed, a great number of the inhabitants for several miles round ventured near to get a sight of his majesty; the most of them thinking it quite as good as a squint at "the elephant." The blubber not having been melted yet, the value of their prize to the captors, Messrs. Drake and Haley, cannot be correctly stated, but it must be considerable.—COM.

The Steamboat "Experiment," late of New Brunswick, has taken the place of the Steamer Ino, on the Hillsborough River—she made her first trip up on Tuesday. The Experiment is a much larger Boat than the Ino, has considerable more steam power.

Married,

On the 26th ultimo, at Bay Fortune, by the Rev. Henry Crawford, Mr. Joseph Dingwell, son of Mr. Alex. Dingwell, to Miss Maria Fallat, daughter of the late Mr. Henry Fallat, all of Bay Fortune.

Died,

At Belle Vue, on Wednesday the 4th inst., after an illness of a few months, of a complication of disorders, aged 50 years, the Hon. CHARLES HAZARD, a Member of the Legislative Council of this Island, and for the last quarter of a century one of the most active magistrates in Queen's County. Mr. Hazard was one of our leading agriculturists, and for many years had taken an active part in the affairs of the Royal Agricultural Society of the Island. He had also, for some years past, been practising medicine, and his premature end is, in some measure, attributed to his exposing himself both night and day to the inclemency of the weather. Few men have departed this life more generally esteemed and regretted by his numerous circle of relatives and friends.

At Malpeque, on Saturday the 26th ult., Mr. Dugald Stewart, at the advanced age of 91. The deceased was a native of Cantire, Scotland, and emigrated to this Island in 1790.

Recently, at Cavendish, in the 62d year of his age, after a protracted illness, which he bore with resignation to the Divine will, Mr. Alexander McNeill, youngest son of the late Charles McNeill, who emigrated from Perthshire to this Island in the year 1804. Deceased has left a disconsolate widow and nine children to lament their bereavement of an indulgent and kind husband and an affectionate father.

At Charlottetown, on Tuesday the 3rd instant, in the 52nd year of his age, Mr. Thomas Witter, harness maker.

On Monday last, at Southport, aged 28, Mrs. Aylward, wife of Captain Aylward.

At Rustico, on the 1st instant, after a long and painful illness, Mr. Isaac Doucette, aged 77 years, leaving a widow and a large circle of friends to mourn his loss. Requiescant in pace.

PORT OF CHARLOTTETOWN.

ENTERED.

May 28.—Aurora, Crawford, Pictou; coal. Conservative, McFadyen, Bay Verte; deals. 30—Petrel, Fouchere, Tracadie, N. B.; shingles. Western Packet, Petipas, Antigouish, N. B.; bal. Nelson, Bushey, Newcastle, N. B; lumber. June 2—Woodbine, Robertson, Pictou; coal. Primrose, Langille, do; do. William, Myres, Bay Verte; deals. Rebecca S. Warren, Warren, Boston; goods. BLACKWOOD'S MAGAZINE

AND THE

BRITISH REVIEWS.

L. SCOTT & CO., New York continue to publish the following leading British Periodicals, viz:—

1
THE LONDON QUARTERLY (Conservative).
2
THE EDINBURGH REVIEW (Whig).
3
THE NORTH BRITISH REVIEW (Free Church).
4
THE WESTMINSTER REVIEW (Liberal).
5
BLACKWOOD'S EDINBURGH MAGAZINE (Tory).

The present critical state of European affairs will render these publications unusually interesting during the forthcoming year They will occupy a middle ground between the hastily written news-items, crude speculations, and flying rumors of the daily Journal, and the ponderous Tome of the future historian, written after the living interest and excitement of the great political events of the time shall have passed away. It is to these Periodicals that readers must look for the only really intelligible and reliable history of current events, and as such, in addition to their well-established literary, scientific, and theological character, we urge them upon the consideration of the reading public.

EARLY COPIES.

The receipt of **Advance Sheets** from the British publishers gives additional value to these Reprints, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.

TERMS.	Per ann.
For any one of the four Reviews	$3 00
For any two of the four Reviews	5 00
For any three of the four Reviews	7 00
For all four of the Reviews	8 00
For Blackwood's Magazine	3 00
For Blackwood and one Review	5 00
For Blackwood and two Reviews	7 00
For Blackwood and three Reviews	9 00
For Blackwood and the four Reviews	10 00

Money current in the State where issued will be received at par.

CLUBBING.

A discount of twenty-five per cent. from the above prices will be allowed to CLUBS ordering four or more copies of any one or more of the above works. Thus: Four copies of Blackwood, or of one Review, will be sent to one address for $9; four copies of the four Reviews and Blackwood for $30; and so on.

POSTAGE.—Subscribers in the British Provinces will receive the Reprints Free of U. S. Postage.

N. B.—The price in Great Britain of the five Periodicals above named is $31 per annum.

THE FARMER'S GUIDE

TO

SCIENTIFIC AND PRACTICAL AGRICULTURE.

By HENRY STEPHENS, F. R. S., of Edinburg, and the late J. P. NORTON, Professor of Scientific Agriculture in Yale College, New Haven. 2 vols. Royal octavo. 1600 pages and numerous Engravings.

This is, confessedly, the most complete work on Agriculture ever published, and in order to give it a wider circulation the publishers have resolved to reduce the price to

$5 FOR THE TWO VOLUMES!

When sent by mail (post-paid) to California and Oregon the price will be $7. To every other part of the Union, and to Canada (post-paid), $6. ☞ *This book is* NOT *the old "Book of the Farm."*

Remittances for any of the above publications should always be addressed, post-paid, to the Publishers,

LEONARD SCOTT & CO.
No. 54 Gold street, New York.
GEO. T. HAZARD, Charlottetown.
