HON. JOHN LEBURGIE is in the city.

SPECIAL DISCOUNTS to cash buyers at Young's.

COPPER has been found on the farm of Mr. Pihl, Dorchester, N. B.

A MAGNIFICENT line of Black Cashmeres, splendid value, at Young's.

SCHEMEL the engine of the Intercolonial Railway be classed as "taxation"? The Patriot says they should!

Don't forget Mr. Bain's lecture, this evening, at the Y. M. C. A. Hall. We believe it will be both interesting and instructive.

We are indebted to E. Bell, Esq., of Clinton, British Columbia, for a copy of "Travels in British Columbia, by Newton H. Chittenden."

SCHOOLS EXAMINATION.—Mr. Montgomery, Chief Superintendent of Education, examined the graded school at Little York, last Wednesday.

A TABLE in the Halifax Age shows that the railway construction in the United States during 1882 exceeded that of 1881 by two thousand miles.

A MEETING of the Ladies' Hospital Committee will be held at the Hospital on Wednesday, 29th inst., at 2.30 p. m. A full meeting is desirable.

We are pleased to see so much interest manifested in the Lecture to be delivered by Mr. Bain this evening in the Y. M. C. A. Hall. We bespeak for the lecturer a full house.

At present there are attending McGill College Montreal, 186 Students in Medicine, 52 Students in Art Under-graduates, 39 Students in Law, 49 Students in Art, and 54 Students in Applied Science—total 420.

As Mr. Bain lectures in the Hall of the Y. M. C. A. to-night, the meeting of the Debating Club and Literary Society is postponed until the following evening when the subject of "Imperial Federation" will be discussed.

JAPANESE advices report the receipt by the Government of a threatening letter from China. Hopes are entertained, however, that a war will be averted by reason of the acceptance by the United States of the Korea treaty.

BOATS containing twenty-two bags of mail matter left Cape Tormentine at ten o'clock this morning, arrived at Cape Traverse at half past one o'clock, and left immediately for the city. Mails also crossed from Cape Traverse to-day.

We have received the first number of a new weekly newspaper entitled The Yarmouth Times. It is Conservative in politics, and published in Yarmouth, N. S., by Messrs. Rolston & Boves, (formerly of the Halifax Herald.) It is printed in new type, and makes a very creditable appearance. Subscription price \$2 per annum.

THE St. John Globe has received a copy of the Billings, Montana, Herald, which, although not nearly as large as the Globe, sells for ten cents. It is a spicy journal. Mr. Alexander Devine, of Montreal, at one time a clerk in the I. C. R. offices at Moncton, and also for a time chief clerk in the P. E. Island Railway offices, is proprietor of the Herald.

The Supreme Court opened at Georgetown to-day. Mr. Justice Hensley presiding. The leading members of the Bar are in attendance, and there are a large number of petty criminal cases, besides a case of rape and concealment of birth. There is also an unusual large civil Docket. In the absence of the Attorney General E. J. Hodgson, Q. C., conducts the Crown business.

TOMORROW (Wednesday) evening our citizens will have an opportunity of hearing the well-known and popular lecturer, Rev. Dr. McDonald, discourse on a most interesting subject—"Among the mountains of Wicklow and Killarney." All who attend—and we expect a crowded house—may prepare for a fight on the wings of imagination "through Killarney's lakes and dells."

THE Pall Mall Gazette says that even if all the Invincibles were arrested, there would remain two hundred other desperadoes pledged to assassinate on penalty of death for disobedience. Most of them are still at large, and some of them will probably be in London. Preparations taken to preserve the Ministers from assassination, show that the authorities are well aware that the criminals still cherish projects of murder.

CANNIBALISM.—The appearance in our streets for some days past of Ander Soldier, a native of Eastern Asia, has created considerable curiosity. Ander was born among cannibals and for a whole year lived upon delicious dishes made from boa constrictors, monkeys and yams. He wears a most peculiar dress and can speak and translate twenty different tongues into English and sing the same.—Fredericton Reporter.

POPE LEO XIII, completed on the 20th inst. the fifth year of his pontificate, as he was elected the successor of Pope Pius IX. on February 20, 1878. His coronation as Pope, however, did not take place until nearly two weeks later, on March 4, 1878. In the Catholic churches throughout the world, the clergy were directed to recite during mass the special prayers which have been set apart for the benefit of the Pope and in Rome a special service, attended with much pomp, was held in the Vatican.

DIED AT HIS POST.—The Halifax Chronicle says: "On Friday morning, while still in discharge of his duty at the I. C. R. Railway Station, John Murray, an old and faithful public servant, passed suddenly and peacefully away. He being a man well up in years, and his long services being considered, he had been told to understand that his strict attention would not always be required, that others would assist him in his duties; but although not feeling well, John Murray felt he should be at his post, and although recommended to go home Friday morning, he decided to complete some little work before so doing. Whilst writing at his desk he gave but a few gasps and died at his post." He was the first Conductor on a railway in Nova Scotia.

THOROUGHBREDS.—The steamer "Montreal" which arrived at Halifax on Friday last from Liverpool, brought out seventy-eight head of thoroughbred cattle for the Cochrane Rancho Co., Bow River. They consist of Herefords, Polled Angus, Jerseys, Guernseys and Short-horns, and their ages range from three months to three years. The animals are each valued at \$750. During the passage they were fed on hay, bran and oil cake, and strange to say, notwithstanding the rough passage, were landed in excellent condition. They were put in cars and forwarded over the Intercolonial to Quebec, where they will remain in quarantine for three months, and after that will be sent to their destination.

SINGING SCHOOL.—Mr. Shaw, of Covehead, is conducting most successfully a singing school of fifty or sixty pupils at Brackley Point Road.

ACCORDING to the Nanaimo (B. C.) Free Press, the harbor at that place was full of herrings and dog fish. The former had a hard time of it with the dog-fish below and the sea gulls above. It was no uncommon sight to see the herrings jump out of the water to escape the jaws of the dog-fish and instantly fall a victim to the rapacity of the gulls.

SHUTTING DOWN ON LOTTERIES.—Another lottery scheme, inaugurated in the village of Bradford, Ont., is under way. The fact became known to County Attorney Fenton, who advised the County Attorney of Simcoe to stop the proceedings by arresting all parties concerned on the night of the drawing. The handbills and circulars advertising the scheme state that the affair is fathered by the Oddfellows of that district.

REV. FATHER RYAN, the poet priest of the south, lectured to a large audience in the Canadian Institute, Ottawa, a few evenings ago, on the subject of "Pilate's question, What is Truth?" His discourse was a most eloquent one, and was greatly appreciated. The Rev. Father is well known in the States not only for his poems, but also for the good work he did in the Southern army during the war.

METHODIST UNION.—Little York circuit on Monday, unanimously voted in favor of accepting the basis of union. A resolution was passed opposing to the eight years tenure of office for General Superintendent, and recommending that it be limited to four years. Another resolution recommended that laymen be admitted to all the business of the annual conferences and their committees, on equal terms with Ministers.

PREMIER GLADSTONE is ill. He is troubled with what is generally called "sleeplessness," but the London Lancet says this should be described as "wakefulness"—that being a more defined definition of his "pathological condition, or perhaps we should say, physiological condition," a very simple state of affairs in which "the hypothesis of cerebral anemia" is erroneous, seeing that it is the "vaso-motor system in which a change involving contraction of the arterioles must occur," that is at fault. Could any fog be clearer than this.—Mail.

In a lumber camp near Detroit, Michigan, the other day two men got into a dispute as to whose team could haul the heaviest load, and after trial the one whose team was victorious went to his cabin. The defeated came behind, and with the blow of the axe severed his head from his body, and as his head rolled on the floor, the eyes winked several times, and the mouth opened. An alarm was raised, and members of the camp placed a log-chain around the neck of the murderer, hung him, and placed a guard around the body to await the sheriff. Men came from the neighboring camp to take the corpse down, and a general fight ensued. Several men were killed.

A BOGUS lord, who claims to be a son of Canon Allan, Somersetshire, England, has been creating a sensation in Perth, Ontario. It appears that he became enamored of a Perth lady, who is reputed to be worth \$200,000, whilst crossing the Atlantic recently. He met her subsequently at the Montreal Caravai and discussed the matrimonial question with her. She took kindly to the blue blood overtures, and promised to "love, honor and obey" him providing the consent of her guardian, one of the most prominent residents of Perth, could be obtained. The guardian, on investigation, found that the man was a fraud, and had travelled in other quarters under the name of James O. Payne. The match was broken off and the "lord" vanished.

IN DEATH NOT DIVIDED.—Rev. Dr. Hill, at the conclusion of his sermon in St. Paul's yesterday morning, alluded to the solemn sight to be witnessed within hearing distance of his voice, of two sisters, well known and respected, daughters of the late Robert Hodgers, lying side by side, sleeping peacefully in death. It was very unusual, except in cases of epidemic, that the like was brought to our notice, but in the present instance the circumstances were particularly sad. One died on Friday in the arms of her who on Saturday—less than twenty-four hours after—passed away with only a brief warning. They had lived happily in their lives, and death had not separated them.—Hx. Recorder.

LORNE HIGHLAND WHISKY

AN ANALYTICAL SANITARY INSTITUTION 54, HOLBORN-VISUET, E. C., LONDON, Aug. 8, '79

Report on the LORNE HIGHLAND WHISKY: "We have visited the bottling stores of Greenlees Brothers, and have selected from the vats, samples of their Lorne Highland Whisky, and have subjected them to careful examination and analysis. The samples were very fragrant, mellow, and of pleasant flavor, and possessed all the characteristics of pure and well-matured Scotch Whisky of the first quality."
