

THE DAILY EXAMINER.

JULY 13, 1895. NOTES AND COMMENTS.

Since 1868 the foreign trade of Japan has increased tenfold, and amounted in 1894 to \$23,728,042 silver dollars.

—Montreal Gazette: The Conservative party has a consistent and noble record in the history of Canada as a party of conciliation, broad-mindedness and justice.

—The story is that the Blackfoot Indians who Mr. Laurier saw on his trip to the Northwest have named him Ouk-Ban-Ma-No, the translation of which is said to be Man-Afraid-To-Say-What-He-Thinks.

—The Leader of the House of Commons announced that a man of ability will, in the course of a few days, be appointed Minister of Agriculture.

—The Belleville Intelligencer asks: "Will free trade reduce taxation?" and the Toronto Globe responds "A Liberal government will."

—The Baltimore American notes that the bicycle has had more effect in inducing young people to arise early than all the prospects and admonitions from the time of King Solomon to the present day.

—With improved train arrangements and an increasing tourist travel, it is more evident that a large hotel in the vicinity of Charlottetown would draw.

—Charlottetown is now the resort of eight or nine steamers, besides the Jacques Cartier and our ferry-boats.

—It is pleasing to notice that traffic on the P. E. Island railway is increasing.

—There is now a good run of traffic on our ferry-boats and steamers.

—The deck of the steamer Southport has lately been covered by an awning, which is a great comfort to passengers in rain and sunshine.

—About a month ago there was a race of horseless carriages from Paris to Bordeaux and return, a total distance 726 miles, the first prize being \$8000.

—Most of these horseless carriages were propelled by petroleum power, and these ran 25 or 30 miles without recharging the reservoirs.

—The dyspeptic who has not tried Hawker's dyspepsia cure has a joy in store. The only condition is that it be taken regularly according to directions.

—Hawker's dyspepsia cure is what its name implies, provided it is given a fair chance. But if it has to fight against irregular or over-eating, or generally careless habits, neither it nor any other remedy will affect a permanent cure.

—Druggists say that their sales of Hood's Sarsaparilla exceed those of all others. There is no substitute for Hood's.

—For to-night—200 children's washing suits, made of Galathea line, and Ducks, worth \$1.25, to be cleared out to-night at 75c.—The Bargain Corner. j13 21

—Great attractions and hundreds of bargains at Carter's Bookstore this evening. Come in and see our store, and grand display whether you want to buy or not. j13 13

—Art triumphs—Real artistic work will always command attention—that is why our make of clothing is so much admired. If you want to be artistically and stylishly dressed leave your orders with John MacLeod & Co., artistic tailors.

MANITOBA SCHOOL QUESTION.

Explanations by the Ministers.

MR. LAURIER AT FAULT AGAIN.

In the House of Commons on Thursday, Mr. Laurier—I see that everything is serene once more in the atmosphere of the cabinet. (Cheers and laughter.)

Mr. Foster—I am glad that my hon. friend shows such skill in reading political weather predictions, if I may so denigrate them. I have but very few remarks to make in reply to the question.

Mr. Foster—I am glad that my hon. friend shows such skill in reading political weather predictions, if I may so denigrate them. I have but very few remarks to make in reply to the question.

dering the more sure its settlement in a definite manner, and in a manner perfectly satisfactory to the country and to all those who desire to see justice done, who love peace and who are devoted to the well being of their country. (Cheers.)

Mr. Speaker, that if I have ever had a duty to fulfill, the importance of which, and also the painful character of which, I feel and understand, it is that which I am fulfilling today and in which I may appear, perhaps, in the eyes of the public as sacrificing for our own personal interests something of the interests of my country.

Mr. Speaker, I am above all that. I am above the accusations which will be levelled against me in the province of Quebec and elsewhere. I am prepared to endure those attacks in the hope that we will have our reply in six months, in the session which will be held on the 3rd of January next.

It Cures Toothache in Two Minutes.

MR. ISSAC HURTLE, of Lunenburg, N. S., says: "I have used PRUSSIAN OIL for pain in my head, and my wife for Rheumatism in her shoulder and neck, and it cured the pain immediately. It stops toothache in about two minutes. It is a capital medicine, and we can highly recommend it to all."

It Cures Ague in the Face in Ten Minutes. MRS. ISABELLE SAUNDERS, of Charlottetown, P. E. I., Oct. 8th, 1894, declares: "My daughter, Mrs. Blackford, of Truro, N.S., sent me a bottle of PRUSSIAN OIL a fortnight ago, and wrote me that it cured her a great deal of her face. It has relieved me of Rheumatism very quickly. It has cured one of my boarders of a bad sore throat in one night, and my neighbor, Mrs. John Cairns, of New Glasgow, and Ague in the face in ten minutes. It is the greatest pain reliever that I ever used or heard of." Sold everywhere.

Five Lines on K and L. I find the people around here prefer Dr. Chase's Kidney-Liver Pills to any other I have in stock. They are a wonderful pill. Send three dozen at once, I am nearly out. P. S.—Send by post, J. W. Ireland, Gourock.

DEATH OF A NOBLE HORSE. E. S. Pierce's Harry, Who Was Easily the Biggest and Strongest Horse in America. E. S. Pierce's big percheron horse Harry, that has for the last year and a half attracted so much attention upon the street from his size and beauty, is dead. Last Saturday he was taken sick with colic, and was at once taken to Dr. Pennington's hospital, that he might have the best possible treatment. But even the veterinarian's skill could not save the noble animal, and he gradually grew weaker and weaker, and died last about seven o'clock Monday morning.

Harry was a familiar figure upon the streets, attached to a handsome wagon built especially for him, and was, without doubt, the best known horse in the city. He weighed 1,715 lbs., and his finely proportioned form, with beautifully arched neck and clean limbs, would attract attention anywhere. His strength was something wonderful, and he would do the work of two ordinary horses without the slightest exertion, and no matter how big the load he would drag it along cheerfully and so full of life that he was always in a free field down to a walk. He was easily the largest horse in the city, and wore in his work a 27-inch collar and 39-inch harness, which is several sizes larger than that worn by any other horse in the city.

Harry was a familiar figure upon the streets, attached to a handsome wagon built especially for him, and was, without doubt, the best known horse in the city. TELEGRAPHIC.

SPECIAL DESPATCHES TO THE EXAMINER.

PARLIAMENT OF CANADA.

The Proceedings Quiet and Dull.

Mills Makes a Motion, Which is Defeated by a Majority of 38.

The French Members in Line Again.

There is a lull in political affairs. Everything is now moving along serenely. The proceedings in Parliament yesterday were dull and uninteresting in their way, affording relief from tension and excitement of the past few days.

It was expected on going into supply that a motion would be presented by Mr. Laurier declaring the Government's policy on the school question neither satisfactory nor reassuring. It was mooted during yesterday morning that this was the nature of the amendment which the Opposition leader would offer, but Mr. Laurier thought better of it.

Mr. Mulock referred to the vacancy in the Cabinet caused by the resignation of the Minister of Agriculture. Hon. Mr. Foster replied that the position had been vacant but a few days, and in that time had been effectively administered by other members of the Government. The Government would, however, fill the vacancy at the earliest opportunity by a man of capacity who would be acceptable to the country.

Upon the motion to go into supply, Mr. Mills of Bothwell, moved in amendment "that section 59 of the British North American Act, which prevents removal for five years of the Lieutenant-Governors of provinces, except for cause assigned, is intended to prevent undue influence of federal ministers in Provincial affairs, and the practice, which has become prevalent, of allowing Lieutenant-Governors to continue in office for a long time after the expiration of their commission by which they become removable at any time without assigning cause, is an abuse of authority calculated to impair responsible government in the provinces of the Dominion." The amendment was defeated by 104 to 65—majority of 38. The three present dissenting Quebec Conservatives voting with the majority.

The Twelfth. HALIFAX, July 13. The Oranemen of Nova Scotia celebrated the 12th here yesterday. There was a procession, speeches and sports, but no disturbances.

100 boys' Flannelette Shirts for 35c. worth 50c. and 60c.—J. B. Macdonald & Co. That fast color, 5c. print, a few pieces left. This print is good value at 7c. a yard.—J. B. Macdonald & Co.
